

Euromax Announces Closing of Issuance of Common Shares to Galena in Connection with Repayment of Debt

VANCOUVER, BC, February 5, 2026 - **Euromax Resources Ltd.** (TSXV: EOX): ("**Euromax**" or the "**Company**"), announces today that further to its news release dated January 13, 2026, it has now completed the issuance of 34,965,342 common shares in the capital of the Company (the "**Common Shares**") to Galena Resource Equities Limited ("**Galena**") pursuant to the debt settlement agreement entered into between the Company and Galena on January 13, 2026 (the "**DSA**"). The Common Shares were issued at a deemed offering price of C\$0.0325 per Common Share (collectively, the "**Transaction**"). Pursuant to the DSA, the Company agreed to issue the Common Shares in order to repay US\$804,000 (C\$1,136,373.60) to Galena, representing settlement in full of the outstanding debt owing to the Galena under the non-interest bearing, unsecured, non-convertible promissory note issued by the Company to Galena on September 29, 2025.

The Common Shares issued pursuant to the Transaction are subject to a hold period of four months and one day from the date of issuance, expiring on June 6, 2026, in accordance with the policies of the TSX Venture Exchange (the "**TSXV**") and applicable securities laws.

The Transaction does not materially affect control of the Company. As Galena is a "related party" of Euromax under Policy 5.9 of the TSXV and Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"), in completing the Transaction, the Company is relying on the exemptions from the formal valuation and minority approval requirements contained in sections 5.5(b) and 5.7(1)(a) of MI 61-101.

The Company will file a material change report in respect of the Transaction within the timeline prescribed by applicable securities laws. The Company did not issue a material change report more than 21 days before the closing of the Transaction because the Transaction was under consideration by the TSXV and closing was conditional on receipt of TSXV approval.

Prior to completion of the Transaction, Galena owned 473,988,662 Common Shares and an additional 46,600,652 Common Shares by exercising all of its warrants of the Company (each warrant exercisable for one Common Share), for an aggregate beneficial ownership of Common Shares of 520,589,314 representing an aggregate ownership interest of approximately 56.38% (on a post-conversion and post-exercise basis and excluding any exercise by any other securityholders of the Company of convertible or exchangeable securities owned by them).

Upon completion of the Transaction, Galena beneficially owns and controls 555,554,656 Common Shares for an aggregate ownership interest of 57.97% (on a post-conversion and post-exercise basis) of the issued and outstanding Common Shares, representing an increase in beneficial ownership of 1.59% (on a post-conversion and post-exercise basis and excluding any exercise by any other securityholders of the Company of convertible or exchangeable securities owned by them) of the issued and outstanding Common Shares of the Company.

Depending on market conditions and other factors, Galena may from time to time acquire and/or dispose of securities of the Company or continue to hold its current position.
