General Disclosure Statement

Investors are encouraged to read the Management Discussion and Analysis Documents filed on SEDAR for a description of additional risks associated with investing in the Company. The following statement is only intended to inform investors on certain of the many risks associated with investing in the Company. The Company operates predominantly in the Middle East and North Africa ("MENA"). It is accordingly exposed to significant political, legal and regulatory risks associated with operating in these emerging and volatile markets. The key management personnel and operations of the Company are based in countries which do not have strong and reliable judicial enforcement. This results directly in additional risk with respect to the enforcement of legal and contractual rights, including, for example but without limitation, the enforcement of the rights of creditors, the protection of intellectual property rights, the enforcement of joint venture arrangements, and binding key employees with non-compete agreements. Since inception, the Company has not reached profitability. The Company relies heavily on high-cost, debt financing to fund its business plan. This has exposed the Company to unique financial risks associated with significantly higher than normal debt levels. Investors in the company are strongly encouraged to be aware of the significant risks of the company, to conduct additional due diligence and to seek the help of a licensed investment advisor before considering to invest in securities of the Company. Moreover, investors must be aware that the purchase of the Company's securities involves a number of additional significant risks and uncertainties, as disclosed in the Management Discussion and Analysis reports filed on SEDAR by the Company. Investors considering purchasing securities of the Company should be able to bear the economic risk of total loss of such investment.
