TIM GROUP - STATEMENTS

The Separate Consolidated Income Statements, Consolidated Statements of Comprehensive Income, Consolidated Statements of Financial Position, Consolidated Statements of Cash Flows, Consolidated Statements of Changes in Equity, and Consolidated Net Financial Debt of the TIM Group, presented below, are consistent with the consolidated financial statements included in the Annual Report and the Interim Financial Report (Half-Yearly). These statements have not been audited by the independent auditors.

The accounting policies and consolidation principles adopted are consistent with those applied for the TIM Group Consolidated Financial Statements at December 31, 2023, to which reference should be made, except for the amendments to the standards issued by IASB and adopted starting from January 1, 2024.

TIM GROUP - COMPLEX CONTRACTS

As part of a process to identify and define initiatives to develop the Company's internal risk management system, in 2022 the TIM Group set up a Technical Committee to supervise complex contracts (the "Technical Committee").

The Technical Committee has defined:

- the objective criteria according to which a contract can be classified as "complex";
- a process for evaluating and authorizing complex contracts involving multiple players and expertise capable of assessing the various risk profiles (collective decision-making process);
- an update to the policy governing the formalization process of contracts within the Group by providing for a clear identification and formalization of the rationale underlying the decision-making process for awarding complex contracts, as well as the related escalation mechanisms, thus strengthening the process of identifying and reconstructing the sources, information elements and controls performed.

Since 2021, some multi-year contracts for the offer of multimedia content and a connectivity agreement have showed an overall negative margin over the entire contract term, with provisions having to be made for contractual risks for onerous contracts for the residual durations of the agreements. The residual value of the provision and the forecasts of the total contractual margin are periodically revised in order to confirm or update the initial estimates and the residual amount of the provision itself.

The utilization of the contractual risks provision for onerous contracts makes it possible to offset the negative EBITDA component (referring both to business operating performance and the commitments in terms of fees that TIM is contractually obliged to pay to counterparties) by recognizing a zero (organic) operating margin over the duration of the contract.

At March 31, 2024, the provision for contractual risks for onerous contracts totalled 208 million euros, which is sufficient to compensate the negative margins over the entire duration of the contract.

From a financial point of view, the negative margin covered by the provision impacts the net financial position and cash flows equally.

With reference to multi-year contracts which, in some cases, require TIM to pay the counterparty fees by way of a guaranteed minimum, it should be noted that the valuation of such contracts and the estimation of the costs associated with them is subject to numerous uncertainties, including market dynamics, pronouncements of market regulatory authorities and the development of new technologies to support the service. These estimates are periodically revised on the basis of the final data to ensure that the forecast figure remains within reasonably foreseeable ranges. Not all factors mentioned are under the Company's control and could, therefore, have a significant impact on future forecasts about the performance of the contracts themselves, the estimated margins (positive or negative), and the cash flows that will be generated.

TIM GROUP - TOWARDS THE NEW COMPANY

Introduction

In order to provide a better understanding of the business's performance, organic economic and financial information relating to the operating performance in the first quarter of 2024 and the first quarter of 2023 of the business in the "ServiceCo" perimeter is presented below. Such organic like-for-like information is prepared by simulating the separation operation of the fixed network, with the creation of the NetCo component and the consequent definition of the ServiceCo perimeter, effective January 1, 2022. These figures should not be considered as a substitute for the economic and financial information of which they provide a different detail, are unaudited, are produced for explanatory purposes only, and may differ substantially from those that will be published in financial statements prepared in accordance with the IFRS Accounting Standards.

At its meeting of July 6, 2022, TIM's Board of Directors approved the strategic objective of reorganizing the Company with the aim of leaving behind the Company's vertical integration.

In November 2023, the Board of Directors of TIM S.p.A., following an extensive and in-depth examination, conducted with the assistance of leading financial and legal advisors, examined and then accepted the binding offer submitted on October 16, 2023 by Kohlberg Kravis Roberts & Co. L.P. ("KKR") for the purchase of TIM's fixed network assets and the shareholdings held in FiberCop S.p.A. and Telenergia S.r.l. ("NetCo"), by Optics BidCo S.p.A. (a subsidiary of KKR).

In execution of the resolutions adopted, TIM S.p.A. has signed a transaction agreement with Optics BidCo that governs:

- the transfer by TIM S.p.A. of a business unit consisting of the activities relating to the primary network, the wholesale business and the entire shareholding in the subsidiary Telenergia S.r.l. to FiberCop S.p.A., a company that already manages the activities relating to the secondary fibre and copper network; and
- the simultaneous purchase by Optics Bidco of the entire shareholding held by TIM S.p.A. in FiberCop S.p.A., as a result of the aforementioned contribution (the "Acquisition").

The transaction agreement provides that on the closing date, the master services agreements will be signed that will govern the terms and conditions of the services to be performed between NetCo and TIM S.p.A. following the completion of the Transaction.

The transaction agreement also provides that the consideration for the sale of the Shareholding could also be partially paid through the transfer of part of the TIM Group's debt on the closing of the NetCo transaction (so-called liability management).

In particular, the three "Exchange Offers" for the bonds issued by TIM S.p.A., Telecom Italia Finance S.A. and Telecom Italia Capital S.A., launched on April 18, 2024, were completed on May 21, 2024 for a nominal value of 3,669,680,000 euros for the bonds issued by TIM S.p.A. and Telecom Italia Finance S.A., and for a nominal value of USD 2,000,011,000 for the bonds issued by Telecom Italia Capital S.A.. The new notes issued by the three companies will have substantially the same terms as the corresponding series of Original Notes, including insofar as their maturities, interest rates, interest payment dates and restrictive covenants. The exception will be in their Acquisition Exchange provisions and their minimum denomination provisions, where applicable. These will be traded on the Closing date by means of a mandatory automatic exchange of debt from the TIM Group to the counterparty, which will become the bond holder. For more details, see the press releases issued on April 18, 2024, May 2, 2024 and May 17, 2024.

The preparatory activities and conditions precedent that must be met for closing to occur include the completion of the contribution of the primary network, antitrust authorization (KKR notified the transaction to the Directorate-General for Competition of the European Commission on April 19, 2024), authorization surrounding distortive foreign subsidies and authorization under the Golden Power regulations (the latter was obtained in January 2024).

When the aforementioned assets are completed and the related conditions precedent are met, NetCo will be classified as an available-for-sale asset pursuant to IFRS 5.

TIM GROUP - DEBT STRUCTURE, BOND ISSUES AND MATURING BONDS

Revolving Credit Facility

The table below shows the committed $^{(*)}$ credit lines available as of March 31, 2024:

(billion euros)	3/31/	3/31/2024		3/31/2024		2023
	Agreed	Drawn down	Agreed	Drawn down		
Sustainability-linked RCF – May 2026	4.0	_	4.0			
Total	4.0	_	4.0	_		

⁽¹⁾ In accordance with the contract signed, the Banks have committed to make the funds available on demand (with at least 3 days' notice). As this is a "Committed" line, the banks have no mechanisms in place not to honor the request for funds made by the Company, without prejudice to the market standard early mandatory cancellation clauses (Natural contract expiry, Change in control, Borrower illegality, Events of default each as defined in the contract).

On April 4, 2024, TIM signed a bridge loan agreement for 1.5 billion euros, with a maturity of up to 18 months. The transaction is aimed at covering the refinancing needs up to the date of closing of the NetCo sale, and its conditions are in line with market benchmarks.

Ronds

During the first quarter of 2024, bonds performed as follows:

(millions in original currency)	Currency	Amount	Repayment date
Repayments			
Telecom Italia S.p.A. 450 million euros 3.625%	Euro	450	1/19/2024

The nominal repayment amount, net of treasury security buybacks, of the bonds maturing in the 18 months following March 31, 2024 and issued by TIM S.p.A., Telecom Italia Finance S.A. and Telecom Italia Capital S.A. (fully and unconditionally guaranteed by TIM S.p.A.) is 4,337 million euros, as detailed below:

- 950 million euros, maturing on April 11, 2024;
- 1,387 million euros (equivalent value of 1,500 million US dollars), maturing on May 30, 2024;
- 1,000 million euros, maturing on April 15, 2025;
- 1,000 million euros, maturing on September 30, 2025.

The bonds issued by TIM S.p.A., Telecom Italia Finance S.A. and Telecom Italia Capital S.A. do not contain financial covenants of any kind (e.g. Debt/EBITDA ratio, EBITDA/Interest, etc.) or clauses that would entail the automatic early repayment of loans in the event of non-insolvency events of the TIM Group; moreover, the repayment of bonds and the payment of interest are not backed by specific guarantees, nor are there any commitments to issue future guarantees, with the exception of the full and unconditional guarantees granted by TIM S.p.A. for bonds issued by Telecom Italia Finance S.A. and Telecom Italia Capital S.A..

Since these are mainly transactions placed with institutional investors on the main global capital markets (Euromarket and USA), the terms governing the loans are in line with the market practice for similar transactions carried out on the same markets.

With reference to the loans taken out by TIM with the European Investment Bank ("EIB"), on May 19, 2021, TIM took out a loan for 230 million euro to support projects to promote digitalization in the country. In addition, on the same date, it expanded the financing taken out in 2019 (for an initial 350 million euros) by an additional 120 million euros. At present, these loans are partially secured.

In addition, on May 5, 2023, TIM took out a new loan with the EIB for 360 million euros, partially guaranteed by SACE.

As a result, as of March 31, 2024, the nominal outstanding loans taken out with the EIB totalled 1,060 million euros.

Loans taken out with the EIB contain the following covenants and commitments, among others:

- if the Company is subject to a merger, demerger or transfer of a business unit outside the TIM Group, or disposes of, divests or transfers assets or business units (with the exception of certain disposals expressly permitted), it must immediately notify the EIB, which will have the right to request the provision of guarantees or the amendment of the loan agreement, or, only for certain contracts, the early repayment of the loan (if a merger and demerger transaction outside the TIM Group jeopardizes the execution or operation of the Project or is detrimental to the EIB in its capacity as creditor);
- TIM has undertaken to ensure that, for the entire duration of the loan, the total financial debt of the companies belonging to the TIM Group other than TIM, and except where such debt is fully and irrevocably guaranteed by TIM, this will be less than 35% (thirty-five per cent) of the total financial debt of the TIM Group;

- "Clause for inclusion", where, if TIM undertakes to maintain financial parameters in other loan agreements (and also certain more stringent clauses, such as cross defaults and commitments to limit the sale of assets) that are not present or are more stringent than those granted to the EIB, the latter will have the right to request, if it considers in its reasonable opinion that such changes may have negative consequences on TIM's financial capacity, the provision of guarantees or the amendment of the loan agreement to provide for an equivalent provision in favour of the EIB;
- "Network Event", under which, in the event of the disposal of the entire fixed network or of a substantial part of it (in any case, more than half in quantitative terms) to third parties not controlled by the Company, or in the event of disposal of the controlling interest in the company in which the network or a substantial part of it has previously been transferred, TIM must immediately inform the EIB, which may then opt to demand collateral or an amendment of the loan agreement or choose an alternative solution.

Some TIM loan agreements contain financial covenants (e.g. Debt/EBITDA, EBITDA/interest ratios, etc.), failure to comply with which would entail an obligation to repay the outstanding loan. These include the loan signed on July 6, 2022, which is backed by the "Italy Guarantee" (in accordance with art. 1, subsection 1 of Decree-Law no. 23 of April 8, 2020, as subsequently amended and supplemented).

The loan agreements contain the usual other types of covenants, including the commitment not to pledge the Company's assets as collateral for loans (negative pledge) and the commitment not to change the business purpose or sell the assets of the Company unless specific conditions exist (e.g. the sale takes place at fair market value). Covenants with basically the same content can be found in the export credit loan agreement.

In the loan agreements, TIM is required to provide notification of change of control. Events constituting a change of control and the applicable consequences – including, at the discretion of the investors, the establishment of guarantees or the early repayment of the amount paid in cash and the cancellation of the commitment in the absence of agreements to the contrary – are specifically identified in each agreement.

In addition, the outstanding loans generally contain a commitment by TIM, any breach of which constitutes an Event of Default, not to implement mergers, demergers or transfers of business, involving entities outside the Group, except where certain conditions exist. Such an Event of Default may entail, upon request of the Lender, the early repayment of the drawn amounts and/or the annulment of the undrawn commitment.

The documentation of the loans granted to certain companies of the TIM Group generally contain obligations to comply with certain financial ratios, as well as the usual other covenants, under penalty of a request for the early repayment of the loan.

Finally, as at March 31, 2024, no covenant, negative pledge or other clause relating to the aforementioned debt position had in any way been breached or violated.

TIM GROUP - DISPUTES AND PENDING LEGAL ACTIONS

An overview of the most significant judicial, arbitration and tax disputes in which TIM Group companies are involved at March 31, 2024, as well as those that came to an end during the period is given below.

The TIM Group has posted liabilities totalling 379 million euros for those disputes described below where the risk of losing the case has been considered probable.

It should be noted that for some disputes described below, on the basis of the information available at the closing date of this Financial Disclosure and with particular reference to the complexity of the proceedings, to their progress, and to elements of uncertainty of a technical-trial nature, it was not possible to make a reliable estimate of the size and/or times of possible payments, if any. Moreover, in those cases in which disclosure of information about a dispute could seriously jeopardize the position of TIM or its subsidiaries, only the general nature of the dispute is described.

Lastly, as regards the proceedings with the Antitrust Authority, please note that based on Article 15, subsection 1 of Italian Law 287/1990 ("Antitrust Regulations"), the Authority has the right to impose an administrative sanction calculated on the turnover of the Group in cases of breaches considered serious.

(a) Significant disputes and pending legal actions

With regard to the following disputes and legal actions, there were no significant events beyond those disclosed in the 2023 Annual Report:

- Golden Power case:
- Antitrust case A428:
- Colt Technology Services, COMM 3000, Eutelia and Clouditalia Telecomunicazioni (connected to the Antitrust case A428);
- Irideos;
- 28-day billing;
- Antitrust case 1850;
- Universal Service:
- Dispute relating to "Adjustments on license fees" for the years 1994-1998;
- Iliad (restrictions on duration and termination costs);
- Fastweb (Ethernet ATM migration).

International tax and regulatory disputes

At March 31, 2024, companies belonging to the Brazil Business Unit were involved in tax or regulatory disputes, the outcome of which is estimated as a possible loss totalling around 19.4 billion reais (19.2 billion reais at December 31, 2023), corresponding to approximately 3.6 billion euros at March 31, 2024. The main types of litigation are listed below, classified according to the tax to which they refer.

Federal taxes

In relation to the federal level of taxation, the following disputes should be noted:

- disallowance of the tax effects of the merger between the companies of the TIM Brasil Group;
- denial of the SUDENE regional tax benefit, due to alleged irregularities in the management and reporting
 of the benefit itself;
- challenges regarding offsetting against previous tax losses;
- further challenges regarding the tax deductibility of the amortization of goodwill;
- imposition of income tax on certain types of exchange rate differences;
- imposition of withholding taxes on certain types of payments to foreign entities (for example, payments for international roaming);
- further challenges regarding offsets made between taxes payable and group company credit positions.

Overall, the risk for these cases, considered to be possible, amounts to 3.1 billion reais (3.1 billion reais at December 31, 2023).

State taxes

Within the scope of the state levy, there are numerous challenges regarding ICMS, and in particular:

- challenges concerning the reduction of the tax base due to discounts granted to customers, as well as
 challenges regarding the use of tax credits declared by group companies, with respect to the return of
 loaned telephone handsets, and following the detection of contract frauds to the detriment of the
 companies;
- subjection of some fees owed to group companies and classified by them as fees for services other than telecommunications to ICMS;

- challenges over the use of the "PRO-DF" tax benefit originally granted by some states, and subsequently
 declared unconstitutional (the challenge refers to the actual credit due to ICMS, declared by TIM Cellular,
 now incorporated into TIM S.A., on the basis of the aforementioned tax benefits);
- challenges relating to the use of ICMS credits claimed by Group companies as a result of the acquisition of
 property, plant and equipment, and in relation to the supply of electricity to the companies, as well as in
 application of the provisions on acting as a withholding agent;
- fines imposed on group companies for irregularities in tax return compliance;
- challenges of ICMS credits in relation to the tax substitution procedure applicable when equipment is bought and distributed in different states;
- challenges of ICMS credits deriving from the "special credit" recognized by the company to its prepaid customers, against subsequent top-ups.

Overall, the risk for these cases, considered to be possible, amounts to 10.6 billion reais (10.4 billion reais at December 31, 2023).

Municipal taxes

Among disputes classified with a "possible" degree of risk, there are some relating to municipal taxes for a total amounting to around 1.7 billion reais (around 1.7 billion reais at December 31, 2023).

FUST and FUNTTEL

The main challenges about contributions to the regulatory body (Anatel), and in particular in terms of FUST and FUNTTEL, concern whether or not interconnection revenues should be subject to these contributions.

Overall, the risk for these cases, considered to be possible, amounts to 4.0 billion reais (4.0 billion reais at December 31, 2023).

Antitrust case A514

In June 2017 AGCM (the Italian Competition Authority) started proceedings A514 against TIM, to ascertain a possible abuse of its dominant market position in breach of article 102 of the "Treaty on the Functioning of the European Union". The proceedings were started based on some complaints filed in May and June 2017, by Infratel, Enel, Open Fiber, Vodafone and Wind Tre, and concerns a presumed abuse of TIM's dominant position in the market for wholesale access services and for retail services using the Broadband and Ultrabroadband fixed network. In particular, the AGCM (the Italian Competition Authority) hypothesized that TIM had adopted conduct aimed at: (i) slowing and hindering the course of the Infratel tender processes so as to delay, or render less remunerative the entry of another operator in the wholesale market; (ii) pre-emptively securing customers on the retail market for Ultrabroadband services by means of commercial policies designed to restrict the space of customer contendibility remaining for the competitor operators.

After the start of the proceedings, the Authority's officials carried out an inspection at some of TIM's offices in the month of July 2017. On November 2, 2017, TIM filed a defence brief in which, in support of the correctness of its actions, it challenged all the arguments that the conduct it had allegedly engaged in, and which was the subject of the case, was unlawful.

On February 14, 2018, AGCM (the Italian Competition Authority) resolved to extend the scope of the case to investigate further behavior concerning TIM's wholesale pricing strategy on the market for wholesale access to Broadband and Ultrabroadband, and the use of the confidential information of customers of the alternative operators.

On July 5, 2018 TIM filed proposed undertakings which, if accepted by the Authority, would close the investigation without any offence being established or sanction being administered. The undertakings were considered as admissible by the Authority, that market tested them in August and September.

On October 30, 2018, TIM replied to observations made by third parties and modified its proposed undertakings. With its decision notified on December 4, 2018, AGCM (the Italian Competition Authority) once and for all rejected the proposed series of undertakings as it considered them unsuitable in light of the objections raised.

On March 4, 2019, TIM requested AGCM (the Italian Competition Authority) for an extension of the deadline for closing the proceedings (initially set for May 31, 2019).

On April 10, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until September 30, 2019. On May 17, 2019, AGCM (the Italian Competition Authority) notified TIM of the results of the investigation (CRI). In the CRI, AGCM (the Italian Competition Authority) essentially confirmed the case for the prosecution outlined in the start-up and extension of the proceedings orders.

On June 12, 2019 AGCM (the Italian Competition Authority) extended the deadline for deposit of TIM's final defence to September 20, 2019 and set the final hearing for September 25, 2019.

On September 18, 2019, AGCM (the Italian Competition Authority) resolved to further extend the deadline for conclusion of the proceedings, which were scheduled for February 28, 2020.

On March 6, 2020, TIM was notified of the decision to close the investigation: AGCM (the Italian Competition Authority) ruled that TIM had abused its dominant position, finding that TIM had put in place an anticompetitive strategy designed to hinder the competitive development of investment in Ultrabroadband network infrastructure. The fine imposed on TIM for the anti-competitive offence is 116,099,937.60 euros.

On June 25, 2020 TIM sent AGCM (the Italian Competition Authority) the so-called compliance report as ordered in the final provision.

In May 2021, the Company in any case paid the fine.

TIM appealed the aforementioned fine before the Lazio Regional Administrative Court (TAR). By judgment 1963/2022 of February 28, 2022, TIM's appeal was rejected; TIM has appealed to the Council of State against the decision of the regional administrative court.

In August 2022, Irideos notified a deed of intervention ad opponendum with respect to TIM's principal appeal.

The related hearing for oral discussion was scheduled for May 25, 2023. At the end of the hearing, the Council of State ordered a report from a court-appointed expert on three issues regarding the profitability of the investment in "white areas" with low population density. On October 11, 2023, the court-appointed experts were sworn-in in the Council of State and requested an extension to the completion deadlines. Under the new deadlines granted by the Council of State, the expert report should be filed by May 2024.

The case is set for a public hearing on October 10, 2024.

Open Fiber

In March 2020, Open Fiber (OF) sued TIM before the Court of Milan, claiming damages of 1.5 billion euros for alleged abuse of an exclusive and dominant position in relation to OF. The alleged actions consist of: (i) preemptive investments in FTTC networks in white areas; (ii) initiating specious legal action to obstruct Infratel tenders; (iii) spurious repricing of certain wholesale services; (iv) commercial lock-in offers on the retail market; (v) false disclosure to AGCOM in connection with the approval of a wholesale offer and spreading rumors about TIM being interested in acquiring OF; (vi) discriminatory access conditions to TIM passive infrastructure. TIM filed an appearance, contesting the arguments of OF. Enel S.p.A. intervened in the proceedings, asking that TIM be ordered to compensate all damages suffered and being suffered by Enel and OF, without, however, quantifying such. During the course of proceedings, Open Fiber redetermined the damage allegedly suffered, taking it to 2.6 billion euros plus interest and monetary revaluation. Open Fiber has also clarified that it believes such damages are still to be suffered. Enel then quantified the damages allegedly suffered as approximately 228 million euros, plus interest. On October 19, 2022, the hearing was held for admission of the evidence, after which the judge reserved the right to deliberate. By order of July 17, 2023, the Court of Milan lifted the reservation and deferred the hearing for delivery of the verdict until April 3, 2024. At the hearing of April 3, the judge ordered that Court obtain the expert witness report rendered in the appeal proceedings brought by TIM before the Council of State against the unfavourable ruling of the Regional Administrative Court relating to fines imposed in relation to case A514. The case was then adjourned to be heard on June 12, 2024.

Eutelia and Voiceplus

In June 2009, Eutelia and Voiceplus asked that alleged acts of abuse by TIM of its dominant position in the premium services market (based on the public offer of services provided through so-called Non Geographic Numbers) be investigated. The complainants quantified the total damages at approximately 730 million euros.

The case follows a precautionary procedure in which the Milan Appeal Court prohibited certain behaviours of the Company relating to the management of some financial relations with Eutelia and Voiceplus concerning the Non Geographic Numbers, for which TIM managed the payments from the end customers, on behalf of such OLOs and in the light of regulatory requirements. After the ruling of the Milan Court of Appeal accepting TIM's objections, declaring that it was not competent in this matter and referring the case to the Civil Court, Eutelia (in extraordinary administration) and Voiceplus (in liquidation) resubmitted the matter to the Court of Milan. The first hearing took place in March 2014. TIM filed an appearance challenging the claims of the other parties. After the collapse of Voiceplus, the Court of Milan declared the case suspended in an order in September 2015. The case was later resumed by Voiceplus.

In its judgment issued in February 2018, the Court of Milan accepted TIM's defence and rejected the plaintiffs' claim for compensation, ordering them, jointly and severally, to pay the legal costs. In March 2018, Eutelia and Voiceplus lodged an appeal against the judgment in the first instance.

TIM appealed against the claim, requesting confirmation in full of the judgment in the first instance. The appeal of Eutelia and Voiceplus was fully rejected with the judgment of August 5, 2019. In December 2019 Eutelia and Voiceplus appealed to the Court of Cassation against the judgment of the Court of Appeal. TIM notified a counterclaim asking confirmation of the ruling appealed against. The hearing in chambers was scheduled for February 16, 2023. At the hearing on February 16, 2023, at the request of the applicants, it was ordered that the case be heard in open court, with a hearing scheduled for June 12, 2024.

Antitrust case 1820

On February 19, 2018, AGCM (the Italian Competition Authority) initiated a I820 preliminary proceeding against the companies TIM, Vodafone, Fastweb, Wind Tre and the industry association ASSTEL to investigate the alleged existence of an agreement among the major fixed-line and mobile telephone operators to restrict competition by coordinating their respective commercial strategies, in breach of Art. 101 of the TFUE.

The presumed coordination, according to the opening provision of the proceedings by AGCM (the Italian Competition Authority), would take the form of the implementation of the obligation introduced by Article 19-quinquiesdecies of Legislative Decree 148/2017 (converted by Law 172/2017) which requires operators of electronic communication services to send out monthly (or monthly multiples) bills and renewed offers for fixed and mobile services.

On March 21, 2018, AGCM (the Italian Competition Authority) issued a provisional precautionary measure against all the operators involved in the proceedings with which it ordered the suspension, pending the proceedings, of the implementation of the agreement concerning the determination of repricing communicated to users at the time of reformulating the billing cycle in compliance with Law 172/17 and to independently redetermine its commercial strategy. In its decision No. 27112 of April 11, 2018, AGCM (the Italian Competition Authority) confirmed the precautionary measure.

On June 12, 2018, TIM filed an appeal with the TAR for the quashing of said measure.

On January 31, 2020, TIM was notified of the decision to close the investigation, in which AGCM (the Italian Competition Authority) confirmed the existence of the agreement between TIM, Vodafone, Fastweb, Wind Tre,

but excluding Asstel from participation in the agreement. The fine imposed on TIM for participation in the anticompetitive agreement was 114,398,325 euros. In April 2020, TIM also challenged the fine order.

In a ruling published on July 12, 2021, the Lazio Regional Administrative Court upheld the petition and the grounds added and submitted by TIM, canceling the measures taken by AGCM (the Italian Competition Authority), including that relating to the existence of the agreement and application of the fine.

On September 11, 2021, AGCM (the Italian Competition Authority) presented a petition to the Council of State, requesting the cancellation of the judgment given by the regional administrative court.

On July 25, 2023, the Council of State reformed the decision of the Lazio Regional Administrative Court, upholding the validity of AGCM's (the Italian Competition Authority) measure in Case I820 and referring to the Authority to redetermine the fine in view of the reduced duration of the infringement.

In view of the rulings of the Council of State on the quantum of the sanction, TIM – in a petition dated August 28, 2023 – asked the AGCM (the Italian Competition Authority) for the redetermination of the sanction to take place in full adversarial proceedings between the parties as part of a special investigation procedure.

In its order of September 26, 2023, served on the Company on October 3, 2023, the AGCM (the Italian Competition Authority) informed TIM that it had quantified the fine at 100,670,526.00 euros, holding that it had no margins for discretion in executing the judgment of the Council of State. On October 12, 2023, TIM filed an appeal to overturn the judgment of the Council of State and, on October 13, 2023, filed an appeal before the Lazio Regional Administrative Court to annul the measure redetermining the sanction; TIM also requested the precautionary suspension of the measure, but this was rejected by order of November 9, 2023. For both judgments a hearing on the merits has yet to be set.

In a communication dated December 6, 2023, the Authority urged TIM to pay the penalty of 100,670,526.00 euros plus legal interest accrued from November 3, 2023 until the day of actual payment amounting to 5,535,913.60 euros.

In a communication dated December 12, 2023, TIM contested the dueness of such interest due to the absence of the prerequisites of liquidity and collectability required by Article 1282 of the Italian Civil Code, as well as an error in identifying the start date for the calculation.

The Authority's Budget Office responded on February 2, 2024, acknowledging an error in the calculation of legal interest, which was therefore restated to the amount of 4,121,837.47 euros, but reiterating that the same is due.

On March 29, 2024, TIM lodged an appeal with the Lazio Regional Administrative Court against the communication from the Budget Office, contesting both the error in the calculation of the interest due and a defect in the competence of the Budget Office.

Antitrust case 1857

On July 6, 2021, AGCM (the Italian Competition Authority) started an investigation in regard to TIM and DAZN for a possible understanding reached with a view to restricting competition in connection with the agreement for the distribution and technological support for TV rights for Serie A football in the 2021-2024 period.

The investigation also aims to verify the restrictive nature of the understanding with reference to additional elements regarding the possible adoption by TIM of technical solutions not available for competitor telecommunications operators and which may effectively hinder the adoption of their own technological solutions.

At the same time, the Authority has also initiated proceedings for the potential adoption of protective measures.

By resolution passed on July 27, 2021, AGCM (the Italian Competition Authority) closed the interim proceedings, considering that the initiatives and amendments to the agreement proposed by TIM and DAZN in the meantime are presently able to prevent any serious and irreparable damage to competitors while investigations are completed.

Indeed, said measures aim, as a whole, to avoid possible discrimination in the use of the DAZN service, due to its activation by users using Internet connection services other than those offered by TIM. In addition, the agreement between TIM and DAZN has been amended to guarantee DAZN complete freedom in applying discounts and promotions. TIM has also undertaken to provide DAZN with a sufficient number of white label set-top-boxes to also guarantee DAZN customers the viewing of matches over digital terrestrial TV, in the event of connection problems.

Finally, TIM has undertaken to supply wholesale services to OAOs interested therein to manage traffic peaks deriving from live data transmissions, regardless of the type of content transmitted.

On October 29, 2021 TIM submitted a proposal for undertakings to AGCM (the Italian Competition Authority) with a view to resolving the competitive concerns that were the subject of the investigation and closing the proceedings without the finding of any infringement and therefore without any sanction being applied.

On December 14, 2021, AGCM (the Italian Competition Authority) approved the publication of the aforementioned proposal for undertakings on the Authority's website, as these undertakings, taken as a whole, do not appear to be manifestly unfounded and are capable of removing the restrictions to competition hypothesized in the measure initiating the investigation in question.

On January 5, 2022, with the publication on the AGCM (the Italian Competition Authority) website, market testing began.

The deadline for rebuttal arguments and proposing any accessory amendments to the commitments presented by TIM and DAZN is scheduled for March 7, 2022.

On February 23, 2022, TIM and DAZN were convened separately to the AGCM (the Italian Competition Authority) offices. During the hearing, the Offices informed TIM - and thereafter confirmed this in the hearing

meetings - that in a hearing held on February 15, the Board deemed it necessary to make certain "accessory" changes in order to approve the commitments submitted.

On March 4, 2022, TIM and DAZN requested an extension of the deadline for the submission of observations, also in view of the new aspects that had emerged on February 23. The new deadline was set as March 23, 2022.

On March 22, 2022, TIM informed the Authority that the additional changes considered necessary by the Board to approve the commitments would have entailed a complete overhaul of the contents and economic balance of the agreements signed by TIM and DAZN, such as to make it no longer possible to pursue the hypothesized business model. At the same time, TIM informed the Authority of the start of negotiations with DAZN possibly concerning the revision of the distribution exclusivity clause, which was the main object of the Authority's investigation. Considering the complexity of negotiations, TIM requested an extension of another 30 days for submission of observations. The extension was authorized and the new deadline set as April 23, 2022.

On April 20, 2022, in consideration of the extension of negotiations, also due to the complexity and economic relevance of that being negotiated, DAZN and TIM requested an additional extension. The new deadline was set as May 9, 2022.

On May 9, 2022, TIM informed the Authority that it had declared willing to DAZN to waive the exclusivity of the distribution of Serie A football rights, as currently regulated by the Deal Memo, with DAZN consequently having the faculty to distribute such rights also through third party operators and that, in exchange for the willingness to waive this right, the Parties had begun negotiations for a review of the contracted economic commitment envisaged by TIM.

On June 7, 2022, the Authority ruled on the rejection of the commitments submitted, which "would appear, both where considered comprehensively and individually, to be unable to eliminate the anticompetitive aspects identified in the resolution that started the proceedings, insofar as they do not resolve the competition concerns highlighted in the initial proceedings, where not translated into shared contractual amendments such as to eliminate the critical competition issues" highlighted by the Authority.

Again on June 7, 2022, the Authority ruled on the deferral of the deadline for the conclusion of proceedings to March 31, 2023.

On August 2, 2022, TIM informed the Antitrust Authority that it had reached a new agreement with DAZN, under which the latter has the faculty to distribute football rights through any third party, surpassing the previous system of exclusivity in TIM's favor.

On January 20, 2023, notification was given of the investigation results (CRI).

AGCM (the Italian Competition Authority) believes that the agreement reached on January 27, 2021 (the "Deal Memo") had contents and resulted in effects that reduced competition for its entire duration (and therefore until stipulation of the new agreement on August 3, 2022).

On January 31, 2023, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until May 31, 2023.

TIM filed its statement of defence March 28, 2023, and the final hearing with the Authority was held on April 4, 2023.

On April 18, 2023, AGCM (the Italian Competition Authority) decided to again extend the deadline for the conclusion of the proceedings to June 30, 2023, due to the complexity of the defence put forward by the Parties in their pleadings.

On June 28, 2023, AGCM (the Italian Competition Authority) ruled that the conduct of TIM and DAZN constitutes an agreement restricting competition in breach of Article 101 TFEU (the "AGCM Measure").

Yet the arrangement – in particular regarding exclusivity – only lasted for approximately one month and its potentially restrictive effects on competition were neutralized by the Authority's timely initiation of the investigation procedure on July 6, 2021.

Indeed, the precautionary sub-proceedings instigated at the start of the first football season of the three-year period 2021-2024 actually prevented the effects of the arrangement from occurring, as at the beginning of August 2021 TIM and DAZN discontinued the application of the disputed contractual clauses through their own voluntary action. The original agreement was then replaced by a new contract, entered into in August 2022, in which any exclusivity was completely eliminated, thus rooting out the antitrust concerns about exclusivity of distribution.

Consequently, and in light of the mitigating circumstances recognized, AGCM (the Italian Competition Authority) imposed a fine of 760,776.82 euros on TIM and a fine of 7,240,250.84 euros on DAZN.

On September 20, 2023, TIM paid the fine with reservations in view of the appeal brought by the Company with the Lazio Regional Administrative Court against the decision against it.

On May 11, 2024, the Lazio Regional Administrative Court threw out the appeals of TIM and DAZN for the annulment of the AGCM Measure and, without annulling the AGCM Measure (which will therefore continue in effect until any amendment by the AGCM itself), declared that the AGCM (the Italian Competition Authority) has a duty to resume the measure in accordance with the Lazio Regional Administrative Court's ruling.

In a nutshell, the Lazio Regional Administrative Court has valued the following reason, which is common to the appeals of both Sky and Fastweb: According to the CRI, the prohibited agreement had market effects from January 27, 2021 to August 4, 2022, whereas the AGCM Measure reduced the duration of the violation from July 1, 2021 – when the marketing of the rights under Deal Memo commenced – up to the implementation of voluntary measures adopted by TIM and DAZN as part of the precautionary sub-proceedings at the beginning of August 2021. Therefore, the AGCM Measure appeared to contradict the investigation results (CRI), with the Board having failed to adequately justified its decision to depart from the preliminary findings. At this point, AGCM (the Italian Competition Authority) could reopen the investigation or appeal against the ruling of the

Lazio Regional Administrative Court. The TIM are considering its options for taking action against the ruling of the Lazio Regional Administrative Court, which could include an appeal.

Wind Tre S.p.A. - 1857

By writ of summons brought before the Court of Milan and served in January 2024, operator Wind Tre S.p.A. requested that TIM S.p.A. and DAZN limited be ordered to compensate, jointly and severally, Wind Tre S.p.A. for the damage allegedly suffered by it as a result of the defendants' alleged violation of art. 102 of the TFEU (abuse of a dominant position) due to having signed a mutual agreement in January 2021 (the "Deal Memo") which – in the claimant's opinion – would result in damage quantifiable in 69,803,012.00 euros.

In addition, Wind Tre S.p.A. is requesting that TIM S.p.A. be ordered to pay 10,266,377.00 euros in compensation for the damage allegedly resulting from advertising campaigns which were intended, according to the claimant, to suggest to customers that subscribing to TIM's FTTH service, or subscribing to TIMVISION's offer, was the only way to access DAZN service content.

On April 29, 2024, TIM entered an appearance and counterclaim in which it called for Wind's claims to be thrown out and for the proceedings to be suspended pending the Lazio Regional Administrative Court's ruling on TIM and DAZN's application to annul the measure adopted by AGCM (the Italian Antitrust Authority) on June 28, 2023 (in which AGCM resolved that the conduct of TIM and DAZN in signing the Deal Memo constituted an agreement restricting competition). The first hearing has been set for July 8, 2024.

Brazil - Opportunity arbitration

In May 2012, TIM and Telecom Italia International N.V. (now merged in Telecom Italia Finance) were served with a notice of arbitration proceedings brought by the Opportunity group, claiming compensation for damages allegedly suffered for presumed breach of a settlement agreement signed in 2005. Based on the claimant's allegations, the damages relate to circumstances that emerged in the criminal proceedings pending before the Milan Court regarding, inter alia, unlawful activities engaged in by former employees of TIM.

The investigatory phase having been completed, the hearing for oral discussion took place in November 2014, after which the parties filed their concluding arguments in preparation for the decision on the case.

In September 2015, the Board of Arbitration declared the proceedings closed, as the award was going to be filed.

In September 2016 the ICC Court notified the parties of its judgment, based on which the Court of Arbitration rejected all the claims made by the Opportunity group and decided that the legal costs, administrative costs and costs for expert witnesses should be split between the parties (the "2016 Arbitration Award").

In April 2017 the Opportunity group filed an appeal against the 2016 Arbitration Award before the Paris Court of Appeal.

In November 2017, TIM and Telecom Italia Finance received from the Secretariat of the ICC's International Court of Arbitration notice of a Request for Revision of the 2016 Arbitration Award, filed by the Opportunity group, asking for a new award. A Board of Arbitration was subsequently established.

In October 2018, TIM and Telecom Italia Finance requested proceedings with the Paris Court of Appeal to be suspended, in the light of proceedings pending with the Court of Arbitration of the International Chamber of Commerce to review the same 2016 Arbitration Award. In November 2018, the Paris Court of Appeal suspended the proceedings until the decision is taken by the Court of Arbitration in the review proceedings.

As regards the proceedings to review the 2016 Arbitration Award, in October 2019 the ICC held the discussion hearing in Paris. In August 2020, the Arbitration Court issued the award rejecting the Request for Revision presented by the Opportunity Group (the "2020 Arbitration Award").

In December 2020, the Opportunity group filed an appeal against the 2020 Arbitration Award before the Paris Court of Appeal. In May 2021 the Opportunity group asked the Paris Court of Appeal to summarize the proceedings brought against the 2016 Arbitration Award. Thereafter, the Opportunity Group, TIM and Telecom Italia Finance filed their briefs in the two proceedings pending before the Paris Court of Appeal, respectively against the 2016 Arbitration Award and the 2020 Arbitration Award. The appeal proceedings were heard on January 8, 2024. In its decision of May 2, 2024, the Paris Court of Appeal quashed the 2016 Arbitration Award on the grounds that the Court considered one of the members sitting on the arbitration panel to be affected by a conflict of interest. In a separate decision issued on the same date, the Court invited the parties to submit observations, by June 24, 2024 at the latest, on the consequences that the quashing of the 2016 Arbitration Award may have in relation to the appeal against the 2020 Arbitration Award. Proceedings are still pending.

Iliad (winback)

By writ of summons served during the first quarter of 2020, Iliad Italia S.p.A. sued TIM before the Court of Milan for alleged anti-competitive conduct, including through the Kena Mobile brand, which was allegedly aimed at hindering its entry to and consolidation in the mobile phone market in Italy, seeking damages of at least 71.4 million euros.

TIM filed an appearance, fully disputing the requests of Iliad Italia S.p.A.; and, in turn, submitting a counterclaim in accordance with Art. 2598 of the Italian Civil Code, with reference to the denigration implemented by Iliad Italia S.p.A. in regard to TIM and formulating a symmetrical claim for damages. In the first preliminary brief, Iliad updated its claim for damages, taking it to 242.8 million euros, and later to 292.8 million euros.

The proceedings ended in a judgment of September 25, 2023, which did not award Iliad any damages; TIM's counterclaim was declared inadmissible.

In its notice of appeal served on December 15, 2023, Iliad requested that the first-instance judgment be partially overturned, requesting, among other things, that TIM be ordered to pay full compensation of not less than 292.8 million euros for the pecuniary and non-pecuniary damage suffered by Iliad.

On April 17, 2024, TIM entered an appearance in court and lodged a counterappeal. At the hearing of May 8, 2024, the Judge reserved the right to decide on the preliminary requests.

Iliad (INWIT)

By writ of summons served in July 2022, Iliad Italia S.p.A. summonsed Telecom, Vodafone and Infrastrutture Wireless Italiane S.p.A. ("INWIT") before the Court of Milan to assess the alleged unlawful conduct of INWIT, Telecom and Vodafone, consisting of refusal to allow Iliad to upgrade its mobile telephone transmission systems installed on INWIT-owned infrastructures. As a result of this conduct, Iliad has asked that Telecom be ordered, together with INWIT and Vodafone, to compensate the damages allegedly suffered, which it has reserved the right to quantify during the course of proceedings. The initial hearing took place on April 5, 2023, with the Judge reserving judgment on the objection as to the invalidity of the writ of summons brought by TIM. The initial hearing was deferred to October 11, 2023, following the admittance of the objection as to the invalidity of the writ of summons brought by TIM. At the hearing, the Judge set three dates for the exchange of pleadings between the parties: November 10, 2023, December 11, 2023, and January 2, 2024. The hearing for admission of evidence was scheduled for September 24, 2024.

VAS (Value Added Services) - Seizure by the Public Prosecutor's Office of Milan

On April 24, 2024, the hearing was heard before the Court of Review of Milan. The Court of Review was called upon to rule on the appeal lodged by TIM S.p.A. against the seizure order made against it by the investigating judge of the Court of Milan.

After hearing the case, the Court of Review upheld the appeal, entering a decision on April 26, 2024 which:

- ordered the seizure order for 248,941,282.30 euros against TIM S.p.A. to be quashed; and
- ordered everything previously seized from TIM S.p.A. to be returned.

The reasoning for the decision will be announced in the next 30 days.

In particular, the events that led to the seizure by the Milan Public Prosecutor's Office are summarized below.

On February 29, 2024, TIM S.p.A. had been notified of a seizure order issued on February 8, 2024 by the Judge for Preliminary Investigations of Milan, which had ordered the preventive seizure of the sums held in the current accounts in the Company's name, for a total amount of 248,941,282.30 euros.

The measure concerned an alleged computer fraud (Article 640-ter of the Criminal Code) in the field of the so-called "VAS" (i.e. Value Added Services) provided by third-party companies called CSPs (i.e. "Content Service Provider").

TIM S.p.A. is not under investigation in the proceedings in question, and that the offence in dispute is not among those that, pursuant to Legislative Decree no. No. 231 of 2001, could theoretically constitute a prerequisite for administrative offences, attributable to the Company.

With specific reference to TIM S.p.A., evidence of a possible fraudulent phenomenon in the sector emerged only in 2019, due to the significant number of disavowals of VAS services recorded in that year.

During that period, the Company reported these events to the Public Prosecutor's Office of Rome, in whose proceedings, currently being dismissed, the Company's role as a victim of the crime was confirmed.

In addition, the Company promptly carried out all the necessary actions aimed at neutralizing the phenomenon of illicit activations of VAS services.

(b) Other information

With regard to "Arbitration case No. 28/2021/SEC8 - TIM S.A.", the following disputes and legal actions, there were no significant events beyond those disclosed in the 2023 Annual Report.

Vivendi S.E.

On December 15, 2023, TIM S.p.A. was served an ordinary writ of summons from the shareholder Vivendi, contesting the legitimacy of the board resolution of November 5, 2023 approving the sale of TIM's fixed network assets and the investments held in FiberCop S.p.A. and Telenergia S.r.l. ("NetCo") by Optics BidCo S.p.A. (a subsidiary of KKR). Vivendi did not make any application for precautionary injunction, nor did it request an urgent halt to executing the resolution and the consequent negotiations. The Company appeared in the proceedings to contest the merits of the arguments and requests made by Vivendi, confirming the legitimacy of the resolutions adopted by the Board of Directors and the agreements signed with Optics BidCo for the transaction, which will be carried out on time and in the manner envisaged.

At the first hearing held on May 21, 2024, after having made attempts at conciliation and proceeded with the oral discussion, the judge reserved the right to deliberate.

Dispute concerning the license fees for 1998

TIM has summoned the Prime Minister's Office to appear in a civil suit for compensation for damages caused by the Italian State through appeal ruling 7506/09, handed down by the Council of State in breach, in the view of the Company, of Community law.

The main claim which the proceedings are founded on is based on community jurisprudence that recognizes the right to assert the responsibility of the State in relation to violation of rights recognized in community law and injured by a judgment that has become definitive, in respect of which no other remedy may be applied. The judgment of the Council of State definitively denied TIM the right to obtain restitution of the concession charge for 1998 (totalling 386 million euros for Telecom Italia and 143 million euros for the former TIM Company, plus interest), already denied by the Lazio regional administrative court despite the favourable and binding opinion of the European Court of Justice in February 2008. This judgment concerned the conflict between EC Directive 97/13 on general authorizations and individual licenses in the telecommunications services industry, and the national regulations that had deferred, for 1998, the obligation to pay the fee payable by telecommunications concession holders, despite the intervening deregulation process. The Company then proposed an alternative compensation claim, within the sphere of the same proceedings, for tort pursuant to art. 2043 of the Italian Civil Code. The compensation claimed has been quantified as approximately 529 million euros, plus legal interest and revoluation. The Avvocatura di Stato filed an appearance and submitted a counterclaim for the same sum. The case is subject to eligibility analysis by the Court, which declared the inadmissibility of TIM's main claim (case for damages for manifest breach of community law pursuant to law 117/88). However, this decision was amended in favor of the Company's application inadmissible.

In 2015, TIM has appealed the decision, and the case is now pending the hearing specifying the nature of the forms of order sought. The Court of Appeal has scheduled the hearing for closing arguments for April 2, 2019. Thereafter, without any new procedural activities having taken place, the Court of Appeal incontrovertibly deferred the hearing for closing arguments first to 2020 and then to 2021 (from when the terms for conclusion and replies shall run, which will be followed shortly thereafter by the issue of the judgment). These deferrals were followed by the latest, of January 15, 2021, scheduling the new hearing for January 25, 2022.

On the matters underlying the case, the following must be noted:

- on the considered lack of jurisdiction of the Court of Rome (concerned by the judgment of the Court of Rome appealed by TIM) to judge the liability of the Italian government for the work of senior magistrates (in the case in point, the Council of State), which would have led to the declared inadmissibility of the claim in accordance with Art. 5, law no. 117/1978 (old text) the United Chambers of the Court of Cassation ruled with judgment no. 14842 on June 7, 2018, confirming the jurisdiction of the Court of Rome and, therefore, the correctness of TIM's choice to base its lawsuit in the Court of Rome;
- on the unlawful nature of the conduct of the Italian government and, therefore, on the liability of the State-Court in accordance with Law no. 117/1998 once again, the EU Court of Justice has ruled, deciding on the prejudicial matter raised by the Lazio TAR in other, connected proceedings, in its judgment given on March 4, 2020 in C-34/19, stressing that TIM was not required to pay the charges demanded by the State for 1998 and, therefore, confirming the clear violation by the Council of State of European Community law (also because in clear conflict with the decision already given by the EU Court of Justice on February 21, 2008 in C-296/06, as, moreover, already ruled by the Court of Appeal of Rome, Chambers I, in Decree of January 31, 2012, which sanctioned the procedural admissibility of TIM's lawsuit);
- on the matter of the right to repeat the charges paid for 1998 the Court of Cassation ruled in its judgment no. 18603 given on September 7, 2020, rejecting the appeal brought by the Presidency of the Council against the judgment whereby the Court of Appeal of Rome had upheld the claim for compensation made by Vodafone (payment of charges for 1998) for the same title in separate proceedings.

In short, the company paid the charges disputed in 1998; it promptly challenged the administrative provision that had unfairly required said payment, before the administrative court; the administrative proceedings before the Council of State concluded negatively in 2009 (despite the recalled opposite judgment of the European Court of Justice); the civil proceedings of first instance concluded in March 2015 with a judgment of rejection for grounds of admissibility (then solved in the sense indicated by the company with the referenced judgment of Cassation in United Chambers no. 14842/18) and more than 6 years after the first instance judgment – going from deferral to deferral – the appeal judgment (that could only uphold the mentioned judgments of the Court of Justice and the Court of Cassation) has not yet been issued (nor, on the basis of these repeated deferrals, can the company forecast when it will be given).

The company is examining the various scenarios and legal claims (national, European Community, etc.) that may contribute towards defining the appeal dispute. It is considered, in fact, that the principles of the reasonable duration of the trial, in accordance with subsection 2 of article 111 of the Constitution and in accordance with article 6 of the European Convention on Human Rights, are violated by these events, considering: (i) the year in which payment was made of the undue charges is 1998; (ii) the value of these charges is approximately 529 million euros plus interest from that date; (iii) the extremely long procedural process has not even led to an appeal judgment (started in 2015 and with an unpredictable conclusion, given the continuous deferrals); (iv) the circumstance that the legal matter appears to be readily able to be settled, as not one but two judgments have already been given by the EU Court of Justice declaring payment of the charges to be incompatible with European Community legislation (judgments that have currently been ignored by the national court).

As part of these analyses aimed at deciding the appeal, on January 25, 2021 the company filed a request with the Court of Appeal in Rome to bring forward the hearing (postponed as mentioned to January 25, 2022). This is to avoid the umpteenth adjournment of the case, which concerns the failure to comply with two inter-partes decisions rendered in the matter by the EU Court of Justice for a manifest violation of European law by the State-Judge. With a ruling on February 8, 2021, the Rome Court of Appeal (second section specializing in corporate matters) deemed it could grant the request for an advance ruling, setting the hearing for November 30, 2021. On that date the case was taken to decision with the assignment of the legal terms for closing statements and replies. By order of February 22, 2022, having acknowledged that one of its members had

chosen to abstain, the Board re-submitted the case, arranging for the deeds to be sent onto the President of the Court of Appeal. On March 4, 2022, the case was reassigned to another judge. By judgment of March 31, 2022, the Board scheduled the hearing for December 1, 2022 for closing arguments. The Board deferred the case to the hearing of January 19, 2023 for verbal discussion. Following the request made by the State advocacy, the case was again deferred until March 9, 2023. At the hearing on December 13, 2023, the Board granted the parties time to submit their closing statements and replies.

In its judgment No. 2320/2024 entered on April 3, 2024, the Court of Appeal of Rome upheld the claim brought by the Company, thus overturning the judgment against TIM and ordering the Presidency of the Council of Ministers to pay 528,711,476 euros, adjusted for inflation and plus the statutory interest accrued since the date the appeal was files, with costs awarded to the Company in the amount of 550,000.00 euros plus ancillary charges.

ALTERNATIVE PERFORMANCE MEASURES

In addition to the conventional financial performance measures established by the IFRS Accounting Standards, the TIM Group uses certain alternative performance measures in its internal presentations (business plan) and in external presentations (to analysts and investors) for the purposes of enabling a better understanding of the performance of its operations and its financial position. These measures in fact represent a useful unit of measurement for assessing the operating performance of the Group (as a whole and at Business Unit level).

Such measures, which are presented in the periodical financial reports (annual and interim), should, however, not be considered as a substitute for those required by the IFRS Accounting Standards. As these measurements are not defined by the IFRS Accounting Standards, their calculation may differ from the alternative indicators published by other companies. This is why comparability between companies may be limited.

The alternative performance measures normally used are described below:

EBITDA: this measure is used by TIM as the financial target, in addition to the EBIT. These measures are calculated as follows:

Profit (loss) before tax from continuing operations

- Finance expenses
- Finance income
- +/- Other expenses (income) from investments
- +/- Share of losses (profits) of associates and joint ventures accounted for using the equity method

EBIT - Operating profit (loss)

- +/- Impairment losses (reversals) on non-current assets
- +/- Losses (gains) on disposals of non-current assets
- + Depreciation and amortization

EBITDA – Operating profit before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets

- Organic change and impact of non-recurring items on revenues, EBITDA and EBIT: these measures express changes (amount and/or percentage) in Revenues, EBITDA and EBIT, excluding, where applicable, the effects of the change in the scope of consolidation, the exchange differences and the non-recurring events and transactions. The TIM Group presents a reconciliation between the "accounting or reported" figures and the "organic excluding the non-recurring items".
- EBITDA margin and EBIT margin: TIM believes that these margins represent useful indicator of the ability of the Group (as a whole and at Business Unit level) to generate profits from its revenues. In fact, EBITDA margin and EBIT margin measure the operating performance of an entity by analyzing the percentage of revenues that are converted into EBITDA and EBIT, respectively.
- **Net Financial Debt**: TIM believes that the Net Financial Debt represents an accurate indicator of its ability to meet its financial obligations. It is represented by Gross Financial Debt less Cash and Cash Equivalents and other Financial Assets. The TIM Group presents a table showing the amounts taken from the statements of financial position and used to calculate the Net Financial Debt of the Group.

To provide a better representation of the true performance of Net Financial Debt, in addition to the usual indicator (renamed "Net financial debt carrying amount"), the TIM Group reports a measure called "Adjusted net financial debt", which neutralizes the effects caused by the volatility of financial markets. Given that some components of the fair value measurement of derivatives (contracts for setting the exchange and interest rate for contractual flows) and of derivatives embedded in other financial instruments do not result in actual monetary settlement, the Adjusted net financial debt excludes these purely accounting and non-monetary effects (including the effects of IFRS 13 – Fair Value Measurement) from the measurement of derivatives and related financial assets/liabilities.

Net financial debt is calculated as follows:

+	Non-current financial liabilities
+	Current financial liabilities
+	Financial liabilities directly associated with Discontinued operations/Non-current assets held for sale
A)	Gross financial debt
+	Non-current financial assets
+	Current financial assets
+	Financial assets relating to Discontinued operations/Non-current assets held for sale
В)	Financial assets
C=(A - B)	Net financial debt carrying amount
D)	Reversal of fair value measurement of derivatives and related financial liabilities/assets
E=(C + D)	Adjusted Net Financial Debt

Equity Free Cash Flow (EFCF): this financial measure represents the free cash flow available for the remuneration of own capital, to repay debt and to cover any financial investments and payments of licenses and frequencies. In particular, the indicator highlights the change in adjusted net financial debt without considering the impacts of payment of dividends, changes in equity, acquisitions/disposals of equity investments, outlay for the purchase of licenses and frequencies, increases/decreases of finance lease liabilities payable (new lease operations, renewals and/or extensions, cancellations/early extinguishing of leases).

The Equity Free Cash Flow measure is calculated as follows:

	Reduction/(Increase) in adjusted net financial debt from continuing operations
+/-	Impact for finance leases (new lease operations and/or renewals and/or extensions (-)/any terminations/early extinguishing of leases (+))
-	Payment of TLC licenses and for the use of frequencies
+/-	Financial impact of acquisitions and/or disposals of investments
-	Dividend payment and Change in Equity

- **Equity Free Cash Flow**
- Capital expenditures (net of TLC licenses): this financial measure represents the capital expenditures made net of investments for competence relating to TLC licenses for the use of frequencies.
- Operating Free Cash Flow (OFCF) and Operating Free Cash Flow (net of licenses): these financial measures represent the cash flow available to repay the debt (including lease payables) and cover any financial investments and, in the case of OFCF, payments of licenses and frequencies.

Operating Free Cash Flow and Operating Free Cash Flow (net of licenses) are calculated as follows:

	EBITDA
-	Capital expenditures on an accrual basis
+/-	Change in net operating working capital (Change in inventories, Change in trade receivables and other net receivables, Change in trade payables, Change in payables for mobile telephone licenses/spectrum, Other changes in operating receivables/payables, Change in employee benefits, Change in operating provisions and other changes)
	Operating Free Cash Flow
-	Payment of TLC licenses and for the use of frequencies
	Operating Free Cash Flow (net of licenses)

Alternative performance measures after lease

Following the adoption of IFRS 16, the TIM Group presents the following additional alternative performance measures:

- EBITDA After Lease ("EBITDA-AL"), calculated by adjusting the Organic EBITDA, net of the non-recurring items, from the amounts connected with the accounting treatment of the lease contracts;
- Adjusted Net Financial Debt After Lease, calculated by excluding from the adjusted net financial debt the net liabilities related to the accounting treatment of lease contracts. TIM believes that the Adjusted net financial debt After Lease represents an indicator of the ability to meet its financial obligations;
- Equity Free Cash Flow After Lease, calculated by excluding from the Equity Free Cash Flow the amounts related to lease payments. In particular, this measure is calculated as follows:
 - + Equity Free Cash Flow
 - Principal share of lease payments

This measure is a useful indicator of the ability to generate Free Cash Flow.
