MANAGEMENT DISCUSSION AND ANALYSIS

For the year ended August 31, 2025

The following management's discussion and analysis ("MD&A") of the financial condition and results of the operations of Enerev5 Metals Inc. ("Enerev5" or the "Company") constitutes management's review of the factors that affected the Company's financial and operating performance for the three months ended August 31, 2025. This MD&A was written to comply with the requirements of National Instrument 51-102 – Continuous Disclosure Obligations. This discussion dated October 29, 2025, should be read in conjunction with the condensed interim financial statements for the three months ended August 31, 2025 and the audited annual consolidated financial statements for the fiscal years ended May 31, 2025 and 2024, together with the notes thereto. Results are reported in Canadian dollars and have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The Company trades on the TSX Venture Exchange under the symbol "ENEV". Further information about the Company and its operations can be obtained from the offices of the Company or from the Company's filings on www.sedarplus.ca.

DESCRIPTION OF BUSINESS

Enerev5 is a resource company which is currently searching for new mineral property opportunities.

The Company's current strategic interest is in precious and base metals within North America.

MINERAL PROPERTIES

Barbara Bay

On October 31, 2022, the Company acquired through staking by arms length stakers, 447 mining claims comprising approximately 24,000 ha in the Province of Quebec. The Company paid \$2,000 for staking costs and \$30,731 in government claims costs. On December 5, 2022, the Company completed the acquisition of an additional 171 mining claims, comprising approximately 9,234 hectares in the Province of Quebec, for a total consideration of 5,000,000 common shares of the Company (the "Consideration Shares"). The Consideration Shares are fully paid and non-assessable shares of the Company. The Consideration Shares are subject to escrow provisions requiring the shares to be released from escrow, 50% on closing of this agreement, subject to a four month hold period, and a further 50% six months from the date of closing. The Company has reimbursed the Vendors for their government staking fees of \$11,688 plus staking. In October 2025, these claims were allowed to lapse.

Goals Met

The Goals Met claims were acquired through the staking of 135 mining claims comprising approximately 7,290 hectares in the Province of Quebec using arms-length stakers. The Company paid \$1,000 for staking costs and \$9,281 in government claims costs. In October 2025, these claims were allowed to lapse.

The Company is currently in the process of locating and evaluating other mineral property acquisitions.

EXPLORATION AND EVALUATION COSTS

All costs related to the exploration and evaluation of mineral resources are expensed (net of grants received) as exploration and evaluation ("E&E") costs. The policy is to expense all such expenditures until they are proven recoverable. Once a project has been established as commercially viable and technically feasible, all development costs will be capitalized. If the project is brought into production, these costs will be amortized against the income generated from the property.

LIQUIDITY AND CAPITAL RESOURCES

The Company's operations to date been funded primarily through the issuance of common shares and, from time to time, through short-term loans. The Company anticipates that it will continue to be able to utilize equity financing until it develops cash flow from operations, but there is no certainty that the Company may be successful in this regard. Other than as discussed in the document, the Company is not aware of any trends, demands, commitments, events, or uncertainties that may result in its liquidity either materially increasing or decreasing in the foreseeable future. Material increases or decreases in the Company's liquidity will be substantially determined by the success or failure of its projects as well as its continued ability to raise capital.

On November 18, 2024, the Company settled \$134,000 of advances plus accrued interest to May 31, 2024, with the issuance of 14,326,200 common shares.

On November 18, 2024, the Company settled \$189,750 in management and directors' fees with the issuance of 18,975,000 common shares.

Cash as at August 31, 2025, was \$78 (May 31, 2025 - \$3,043). Accounts payable, accrued liabilities and short-term loans as at August 31, 2025, were \$405,128 (May 31, 2025 - \$374,582).

At present, the Company's operations are not generating cash flow and the ability to raise the capital resources to undertake its objectives is dependent upon the venture capital market. Actual funding requirements may vary from those planned due to a number of factors, including the progress of identifying suitable projects. Management believes it will be able to raise equity capital as required but recognizes there will be risks involved that may be beyond their control. The Company will adjust its activities according to available funding. To continue operations, the Company requires additional funding in the short term.

As at August 31, 2025, the Company's share capital was \$29,921,019 (May 31, 2025: \$29,921,019) representing 278,883,918 common shares issued and outstanding, without par value. The Company will require additional financing as noted in the liquidity section above.

CONTRACTUAL OBLIGATIONS AND CONTINGENCIES

On April 23, 2024, a director of the Company was served with a statement of claim on behalf of the Company. TIAfrica Ltd. ("TIAfrica"), a company based in the Democratic Republic of Congo, claims that on or about the 16th of January, 2019, it signed a Letter of Intent ("LOI") with the Company, enforceable and binding under which: (a) in exchange for the purchase of 4,333,333 shares of the Company by TIAfrica, the Company would build a hydroxide plant and would hire TIAfrica to hire staff and to take care of everything related to human and administrative resources; and (b) the Company would hire the plaintiff for all its needs in human resources and administrative services on any other mining site where it would be involved on the African continent. The statement of claim claims a sum in Canadian dollars equal to US\$500,000 in compensatory damages, under contract or tort, an additional sum of CAD\$300,000 for loss of business opportunities, interest, and costs. TIAfrica alleges that the Company breached its contractual obligations by not building the plant and not hiring it for this project. TIAfrica further alleges that the Company also failed in its duty to perform in good faith in contractual relations and did not use its discretion, where applicable, in a manner consistent with good faith, and further that the representatives of the Company made negligent, false or misleading representations by explaining to the plaintiff that the establishment of a factory was imminent when it was not, and that this induced TIAfrica to enter into the LOI and incur expenses by relying on these representations, to its detriment. Management's assessment is that the claim is without merit. Management and TIAfrica are currently in discussions to settle this claim.
