News Release

Ophtek partners with Identillect Technologies to provide their HIPAA based clients with secure email services

Ophtek offers Delivery Trust to their Medical and Financial Services clients

Dana Point, CA – Jan. 20, 2022 – Identillect Technologies Corp., an industry leader in compliant email security announced its first new reseller partner of 2022. Identillect has refocused its market strategy to place a significant effort on providing support and resources to our growing reseller market. The reseller market is expanding and becoming a larger portion of Identillect's customer base and future growth.

Ophtek is full-service technology and IT support organization; they have served Northern California's Bay Area since 2013 and cater significantly to the technical and support needs of medical-based organizations. Ophtek prides itself on providing its customers with the most up-to-date technical service and support while keeping their services compliant with the expanding regulatory requirements. Ophtek has an ongoing education component to its organization which assists their customer base to understand the changing technical environment and the best path to success.

Ophtek founder Arash Shokouh stated, "We are committed to serving all aspects of our clients' needs, and security is no exception. Partnering with Identillect Technologies allows us to provide secure communication to our clients, ensuring they have a positive user experience and maintain adherence to regulations such as HIPAA. Ophtek will continue in February with their quarterly IT Best Practices lecture series where we are excited to have Identillect's CEO Todd Sexton as a guest lecturer on cyber-security on February 16th, 2022, at a session where Delivery Trust will be highlighted."

Identillect CEO, Todd Sexton, states, "Identillect is proud to be the security partner for Ophtek, they have an impressive reputation and growing customer base largely focused in the medical and financial sectors with significant security and regulatory requirements. Identillect is excited to be an ongoing partner to this organization, and I am extremely pleased to be working with Arash who is a progressive and intuitive business leader interested in maintaining cutting edge technology for his clients."

HIPAA Journal recently reported additional HIPAA regulatory requirements in healthcare data breaches and 2020 saw more than 29 million healthcare records breached. The medical profession is seeing a significant increase in data breaches and cyber-security protection is now more important than ever.
