About NAM

New Age Metals is a junior mineral exploration and development company focused on the discovery, exploration, and development of green metal projects in North America. The Company has two divisions: a Platinum Group Element division and a Lithium/Rare Element division.

The PGE Division includes the 100% owned, multi-million-ounce, district-scale River Valley Project, one of North America's largest undeveloped Platinum Group Element Projects, situated 100 km by road east of Sudbury, Ontario. In addition to River Valley, NAM owns 100% of the Genesis PGE-Cu-Ni Project in Alaska and plans to complete a surface mapping and sampling program in 2023.

The Company's Lithium Division is one of the largest mineral claim holders in the Winnipeg River Pegmatite Field, where the Company is exploring for hard rock lithium and various rare elements such as tantalum, rubidium, and cesium. In conjunction with its Farm-in/Joint Venture agreement with Mineral Resources Ltd. (“MinRes”) is pleased to announce that summer field work has commenced on the Company's Winnipeg River-Cat Lake Lithium Projects of Southeast Manitoba. This work is in conjunction with a research project being carried out across the properties in partnership with the University of New Brunswick, University of British Columbia, and supported by the Manitoba Geological Survey. A budget from June 2024 to April 2025 of up to ~\$450,000 has been approved by Mineral Resources Ltd (MRL, ASX: MIN), a top global lithium producer to explore and develop the Company's lithium project portfolio
