About RecycLiCo

RecycLiCo Battery Materials Inc. is a critical minerals refining company specializing in the use of advanced hydrometallurgical technologies for processing mined ore and the upcycling of lithium-ion battery materials. RecycLiCo’s processes efficiently recover battery-ready lithium, cobalt, nickel, and manganese from end-of-life batteries and manufacturing scrap, supporting energy storage as well as broader industrial applications. RecycLiCo’s business focus aligns with the global demand for future-ready, responsible supply chains and the growing movement to strengthen domestic sourcing of critical materials.
