Notes to the Condensed Consolidated Interim Financial Statements

Six Months Ended June 30, 2017 and 2016

(Expressed in Canadian Dollars, Unaudited)

1. Nature of Operations and Going Concern

Valterra Resource Corporation (the "Company") was incorporated in Alberta on September 26, 1996, continued to the Yukon on May 8, 1997 and subsequently to British Columbia on February 22, 2008. The Company's principal business activities include the acquisition, exploration, and development of natural resource properties for enhancement of value and disposition pursuant to sales agreements or development by way of third party option and/or joint venture agreements. The Company's registered office is 1710 - 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, and establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company's mineral properties does not reflect present or future value.

These condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2017, the Company had a working capital deficit of \$218,963 (December 31, 2016 - working capital of \$40,234). The Company incurred a net loss of \$457,273 for the six months ended June 30, 2017 (2016 - \$38,502) and had an accumulated deficit of \$14,009,404 as at June 30, 2017 (December 31, 2016 - \$13,552,131).

As at June 30, 2017, the Company does not have sufficient capital to meet the requirements for its administrative overhead or maintaining its mineral interests. The Company has relied mainly upon the issuance of share capital to finance its activities. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. The Company will be required to issue share capital to finance future activities through private placements and the exercise of options and warrants. There can be no assurance that such financing will be available to the Company and, therefore, a material uncertainty exists that casts significant doubt over the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustment could be material.

2. Basis of Preparation

These condensed consolidated interim financial statements were prepared in accordance with International Accounting Standards 34: *Interim Financial Reporting* using historical cost, except for cash flow information and financial instruments measured at fair value, and incorporate the financial statements of the Company and Valterra Resource (US) Corporation, an entity wholly-controlled by the Company incorporated in Nevada, USA. All intercompany transactions and balances have been eliminated upon consolidation. The functional and presentation currency of the Company and its subsidiary is the Canadian dollar.

Valterra Resource Corporation

(An Exploration Stage Company)

Notes to the Condensed Consolidated Interim Financial Statements

Six Months Ended June 30, 2017 and 2016

(Expressed in Canadian Dollars, Unaudited)

2. Basis of Preparation, continued

These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the year ended December 31, 2016.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on August 28, 2017.

3. Summary of Significant Accounting Policies

In addition to below, the same accounting policies are used in the preparation of these condensed consolidated interim financial statements as for the most recent audited annual financial statements and reflect all the adjustments necessary for fair presentation in accordance with International Financial Reporting Standards of the results for the interim periods presented.

Control

Management consolidates all entities which it is determined that the Company controls. Control is evaluated on the ability of the Company to direct the activities of the entity to derive variable returns and management uses judgment in determining whether control exists. Judgment is exercised in the evaluation of the variable returns and in determining the extent to which the Company has the ability to exercise its power to generate variable returns.

Foreign Currency Translation

Amounts recorded in foreign currency are translated into Canadian dollars as follows:

- (i) Monetary assets and liabilities, at the rate of exchange in effect as at the reporting date;
- (ii) Non-monetary assets and liabilities, at the exchange rates prevailing at the time of the acquisition of the assets or assumption of the liabilities; and
- (iii) Revenues and expenses (excluding amortization, which is translated at the same rate as the related asset), at the exchange rates in effect on the date of the transaction.

Gains and losses arising from this translation of foreign currency are included in the determination of net loss.

4. Financial Instruments

The Company's financial instruments include cash, reclamation bond, accounts payable and accrued liabilities and due to related parties.

The carrying values of accounts payable and accrued liabilities and due to related parties approximate their fair values due to the short period to maturity. The reclamation bond is non-interest-bearing, has no maturity date and carrying value approximates fair value.

Swift Katie

Pursuant to an agreement dated July 21, 2006, as amended, Manex Resource Group Inc. ("Manex"), a private company controlled by a director of the Company, acquired an option to purchase the property located near Salmo, British Columbia. The option was subsequently assigned by Manex to the Company for \$2,500.

The property is subject to a 3% net smelter royalty ("NSR") of which the Company has the option to purchase one-half (1.5%) for \$1,000,000 per 1% and the option to purchase a further one-sixth (0.5%) for an additional \$1,500,000 at any time prior to the commencement of commercial production.

Beginning December 31, 2010 and annually thereafter, the Company is required to make an annual advance minimum royalty ("AMR") payment of \$50,000. These payments will be adjusted annually according to the Consumer Price Index base of December 31, 2006 and are deductible from future NSR payments.

In addition to the NSR and the AMR, if the Company completes a positive feasibility study, the Company will issue 250,000 common shares to the optionors and if the Company achieves commercial production, the Company will issue 500,000 common shares to the optionors.

Weepah

Pursuant to an agreement dated June 23, 2017, the Company has the right to acquire a 100% interest in certain unpatented and patented mining claims in Esmeralda County, Nevada. To acquire the interest, the Company is required to make the following payments:

- US\$100,000 at closing (paid via issuance of 2,598,680 common shares on July 6, 2017);
- US\$100,000 on June 23, 2018 (which may be paid in common shares);
- US\$200,000 on June 23, 2019;
- US\$200,000 on June 23, 2020; and
- US\$400,000 on June 23, 2021.
