NEWS RELEASE

**INFO TOUCH TECHNOLOGIES
INTERVIEW ON
BBC WORLD SERVICE RADIO'S
FRIDAY SPECIAL**

BURNABY, BC, May 4, 2000. **Hamed Shahbazi, Chairman and CEO of Info Touch Technologies www.infotouch.net** (CDNX: IFT) announces the airing of an interview with the British Broadcasting Corporation's World Service Radio Friday Special on Friday May 5, 2000. The show is broadcasting at 09:45 – 12:45 GMT, at Frequency 15175, Short wave radio at 19m, and on the Internet at www.bbc.co.uk/persian.

The show is broadcast from BBC World Service offices, Bush House, London. The BBC reports their broadcasts draw the highest listener base of all radio broadcasts in Iran. The interview was conducted in Persian, and touched on the origin and development of Info Touch Technologies, Info Touch kiosk technology, international deployment issues, cultural and regional sensitivity, the role of Info Touch Internet kiosks globally and in Iran, along with an array of technology development issues.

No consideration was paid for this broadcast.

Info Touch is *the clicks n' mortar provider*, bringing the Internet to public domain in a secure environment. The Company has developed the world's premier kiosk security and management software package, **Surfnet™**. Info Touch partners with, and provisions Fortune 1000 companies with Public Internet/Intranet access through IFT designed middleware and clicks n' mortar solutions.

As "dot coms" and brick-based companies business models gyrate toward the Internet/Intranet, **Info Touch Technologies** becomes the sought-after **clicks n' mortar Convergence Company**.

On behalf of the Board of Directors,

"Hamed Shahbazi"
Hamed Shahbazi,
Chairman and CEO
