

EUROTECH: CONSOLIDATED FINACIAL REPORT AS AT 30 JUNE 2025 APPROVED BY THE BOD

Revenues down 26.8% due to the slowdown in order intake in the second half of 2024. Orders up, with a book-to-bill ratio of over 1.2 on a trailing twelve months basis. Operating costs down €2.4 million in the half-year help to limit the impact of lower revenues on EBITDA.

Amaro (Italy), 11 September 2025

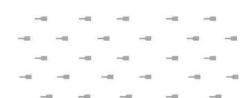

- Consolidated revenues of € 21.5 million (€ 29.3 million as at 30.06.2024, -26.8% at constant exchange rates)
- Consolidated gross profit of € 10.6 million and 49.3% of revenues (€ 14.5 million and 49.7% of revenues as at 30.06.2024)
- Consolidated EBITDA of € -5.3 million (€ -3.5 million as at 30.06.2024)
- Consolidated EBITDA adjusted of € -4.0 million (€ -3.1 million as at 30.06.2024)
- Consolidated EBIT of € -7.7 million (€ -5.8 million as at 30.06.2024)
- Group net income of € -7.6 million (€ -5.5 million as at 30.06.2024)
- Net debt of € 18.7 million (€ 20.4 million as at 31.12.2024)

The Board of Directors of Eurotech S.p.A. today examined and approved the results of first six months of 2025.

Trend of the period

The results for the first half of 2025 were heavily influenced by order intake in the second half of 2024, which in turn was closely linked to the crisis experienced by the industrial sector, particularly in Europe. Both the US and European regions saw a decline in revenue compared to the first half of 2024, while Japan held steady, even showing a recovery compared to the first quarter results.

Since February, we have seen a sharp reversal in the trend in order intake, with the order-to-sales ratio reaching and exceeding 1.2 on a rolling 12-month basis in June, July, and August. There were three main drivers behind this trend: the reactivation of the ADAS business in Germany, which had almost come to a standstill in the second half of 2024; a strong recovery in the railway business; and orders in Japan for new custom products placed by long-standing customers of the subsidiary Advanet.

The first margin was in line with both the first six months of last year and the first three months of 2025, with a performance that confirms a good mix of products sold.

Operating costs fell by 12.0% compared to the first half of 2024, or 16.5% net of non-recurring costs. This reduction is linked both to the reduction in the number of employees and to the use, during the period under review, of instruments such as solidarity contracts in Italy and similar instruments in Germany. The good work on costs made it possible to lower the break-even point by almost €5 million, thus limiting the impact on EBITDA of the lower turnover for the half-year.

Economic performance of the Eurotech Group

Consolidated revenues for the first half of 2025 amounted to €21.48 million, compared to €29.26 million in the first half of 2024. The decrease in turnover from one period to the next was 26.6%, an improvement on the 31.0% decrease recorded in the first quarter. At constant exchange rates, the reduction was 26.8%.

The **gross margin**, as a percentage of turnover, stood at 49.3% compared to 49.7% in the same period last year and 49.6% in the first quarter.

In the six months under review, **operating costs** before adjustments amounted to \leq 17.69 million, compared to \leq 20.11 million in the first half of 2024, a reduction of \leq 2.42 million (-12.0%).

Non-recurring costs recorded in the first half of 2025 amounted to \leq 1.24 million (\leq 0.41 million in the first half of 2024): these relate to the Group's reorganization and efficiency improvement activities and mainly concern one-off costs incurred for workforce reduction and the termination of the contractual relationship with the previous CEO.

Adjusted EBITDA for the first six months amounted to €-4.05 million, compared to €-3.08 million in the same period of 2024.

Including non-recurring costs, **EBITDA** for the first six months of 2025 amounted to €-5.28 million, compared to €-3.49 million in 2024.

EBIT, or operating profit for the year, amounted to \in -7.72 million, compared to \in -5.84 million in the first six months of 2024.

In terms of the Group's **net profit**, the figure for the first half of the year was €-7.56 million, compared to €-5.51 million in the same period of 2024.

Balance sheet and financial situation of the Eurotech Group

As of June 30, 2025, the Group had **net financial debt** of \in 18.70 million, compared to \in 20.40 million as of December 31, 2024. The reduction in net financial debt during the half-year was mainly due to three factors: operating cash flow of \in 0.2 million, supported by a reduction in working capital; cash used of \in 2.6 million for investments and repayment of interest related to borrowings; a payment of \in 5.0 million for a future capital increase made in several tranches by the relative majority shareholder Emera S.r.l..

Net working capital decreased by €5.17 million, from €14.68 million at December 31, 2024, to €9.52 million at June 30, 2025. The reduction in working capital is due to both a decrease in current assets and an increase in current liabilities: in particular, while trade receivables decreased by €2.90 million and inventories decreased by €0.63 million, trade payables and payables to affiliates increased by a total of €1.21 million. Net working capital as a percentage of revenues for the last twelve rolling months was 18.5%, compared to 24.8% at December 31, 2024, and 27.0% at June 30, 2024.

The Group's **shareholders' equity** amounted to €56.0 million (€60.7 million at December 31, 2024).

Foreseeable evolution of operations

At the end of August, the total value of orders received had already reached the figure recorded for the entire 2024 financial year, strengthening visibility on revenue performance in the coming periods.

As a result of this trend, turnover in the second half of the year will be significantly higher than in the first half. Furthermore, revenues in the second half of 2025 are expected to exceed those recorded in the second half of 2024. This performance will enable a reversal of the EBITDA trend, which will be positive in the second half of the year.

The rationalization and redesign of the operating structure will continue in the second half of the year, with a particular focus on opportunities for vertical integration at the operational level between the subsidiaries and the parent company. The goal is to achieve a further

reduction in the run-rate of operating costs, so as to maximize performance in the second half of the year and lower the break-even point for next year.

The Manager in charge of drawing up the corporate accounting documents, Sandro Barazza, hereby certifies, pursuant to paragraph 2 of Article 154-bis of the Consolidated Law on Finance, that the accounting information contained in this press release corresponds to the documented results, books and accounting records of the company.

Eurotech

Eurotech (ETH:IM) is a multinational company that designs, develops and delivers Edge Computers and Internet of Things (IoT) solutions complete with services, software and hardware to system integrators and enterprises. By adopting Eurotech's solutions, customers have access to components and software platforms for IoT, Edge Gateways to enable asset monitoring, and high-performance Edge Computer for applications including Artificial Intelligence (Edge AI). To offer more and more complete solutions Eurotech has activated partnerships with leading companies in their field of action, thus creating a global ecosystem that allows it to create "best in class" solutions for the Industrial Internet of Things.
