

BeWhere Holdings Inc. Continues Expanding Canadian M-IoT Market with SecureQuip

Toronto, Ontario--(Newsfile Corp. - November 6, 2018) - [BeWhere](#) (TSXV: BEW) (OTCQB: BEWFF) ("BeWhere" or the "Company") an Industrial Internet of Things (IIoT) asset tracking solutions provider, is pleased to announce the availability of its Mobile-IoT ("M-IoT") solution on [Bell's LTE-M network](#) through SecureQuip Systems, a leading provider of asset tracking services.

SecureQuip Systems Ltd. has an expanding base of over 450 companies including two of the top five construction companies in Canada. SecureQuip is a premier supplier of GPS fleet efficiency systems and theft recovery services to individuals, commercial transport, construction and rental companies in Canada and has chosen BeWhere to enhance its ability to meet the needs of its customers.

SecureQuip is offering BeWhere M-IoT solutions to their clients with a number of implementations initiated across Canada.

"SecureQuip is a leader in providing asset tracking and anti-theft solutions to the construction, transportation and consumer markets in Canada and represents the ideal technology and distribution partner with specific market expertise" said Owen Moore, CEO of BeWhere. "We look forward to a mutually rewarding relationship with SecureQuip in bringing sophisticated, low cost solutions to a large unaddressed vertical."

SecureQuip CEO Kenneth Bilton said, "BeWhere' solutions are cutting edge; using the latest available cellular technologies (LTE-M and NB-IoT) these new IoT devices bring a range of options and flexibility for our clients across Canada." Mr Bilton continued, "We will be able to expand our market and many of our existing customers will be able to use the features and flexibility of BeWhere products to fill their requirements not currently filled by other systems. The BeWhere robust hardware and intuitive backend system will be a natural addition to ours and our customers systems."

About BeWhere

[BeWhere](#) (TSXV: BEW) (OTCQB: BEWFF) is an Industrial Internet of Things ("IIoT") solutions company that designs and sells hardware with sensors and software applications to track real-time information on non-powered fixed and movable assets, as well as monitor environmental conditions. The company develops mobile applications, middle-ware and cloud-based solutions that stand-alone or that can be readily integrated with existing software. BeWhere' solutions are cutting edge, using the latest available cellular technologies (LTE-M and NB-IoT) and offering customers low-cost sophisticated technology to implement a new level of visibility to their businesses.

BeWhere sells its products through a worldwide network of distribution and technology companies. BeWhere has secured distribution agreements and technology partnerships with a large roster of companies including major telecommunications providers, leading vehicle telematics providers and logistic and supply chain management solution providers.

About SecureQuip Systems Ltd.
