Item 3. **News Release**

News Release dated November 16, 2005 and disseminated to the Vancouver Stockwatch Magazine, B.C. Securities Commission, Alberta Securities Commission and Market News Publishing.

Place of Issuance: Vancouver, British Columbia.

Item 4. **Summary of Material Change**

The Issuer announces the appointment of a geological consultant and provides an update on its proposed share consolidation.

Item 5. **Full Description of Material Change**

Proposed China Project

Michael Waggett, President of the Issuer is pleased to announce that the Issuer has engaged the services of C.D.G.C. Inc., a geology and mining consulting company, to conduct due diligence and complete a National Policy 43-101 report on the Chinese property to be part of the Sino-foreign Joint Venture Agreement that Gold Luck Resources Limited ("Gold Luck") is to enter into. Mr. Christian Derosier, P.Geo., is the President of C.D.G.C. Inc. and is an independent qualified person for this project. He recently visited the Xiquinggangping property in the Luoning County of the Henan Province, where he obtained samples and collected all existing exploration data and maps for background for preparation of a technical report for the Issuer which will constitute part of its due diligence with respect to the proposed transaction.

By a Letter of Intent announced in the Issuer's news release of October 17, 2005, the Issuer proposes to acquire all of the shares of Gold Luck which will then operate as a subsidiary of the Issuer. Assessment of the proposed Chinese property interest to be acquired by Gold Luck prior to closing of the acquisition is a critical part of the due diligence review by the Issuer.

Share Consolidation

Further to the Issuer's news release of September 28, 2005, the Issuer is proceeding with the announced consolidation of its share capital on a 5.5:1 basis. As a result of the consolidation, the Issuer's authorized capital of 100,000,000 shares without par value of which 25,283,960 are issued and outstanding will be reduced to 18,181,818.18 shares without par value of which 4,597,083.60 are issued and outstanding. Following the consolidation, the authorized capital would be increased again to 100,000,000 shares without part value. The share consolidation is being proposed in order to allow the Issuer greater flexibility in future financings. In conjunction with the share consolidation, the Issuer is proposing a change of its corporate name to Gold World Resources Inc.

The share consolidation and name change are subject to shareholder approval and TSX Venture Exchange acceptance for filing. The Issuer is holding an Extraordinary General Meeting on December 14, 2005 to seek shareholder approval to these matters.

Item 6. **Reliance on Subsection 7.1(2) or (3) of National Instrument 51-102**

The Issuer is not relying on Subsection 7.1(2) or (3) of National Instrument 51-102.
