## About Gold World

Gold World Resources Inc. is well funded and is committed to its strategy of acquiring and exploring economically attractive gold and silver properties in China. The Company is currently reviewing and assessing the potential of a number of interesting gold bearing properties and will select those gold properties with the highest potential. China is the world's fourth largest gold producer, even though its gold mining industry is highly fragmented and its properties are largely unexplored at depth. Gold World believes that the recent open door policy being followed in China will facilitate a further increase in foreign exploration and development in China.
