FORM 51-102F3
MATERIAL CHANGE REPORT

Item 1: ***Name and Address of Company***

Gold World Resources Inc. ("**Gold World**" or the "**Company**")
1100 – 111 Richmond Street West,
Toronto, Ontario, M5H 2G4
Canada

Item 2: ***Date of Material Change***

February 27, 2008

Item 3: ***News Release***

On February 27, 2008, the News Release was released to the Canadian News Wire Group and through various other approved public media and filed on SEDAR with the TSX Venture Exchange and the securities commissions of British Columbia, Alberta and Ontario.

Item 4: ***Summary of Material Change(s)***

On February 27, 2008 Gold World has filed on SEDAR the press release

Gold World Resources Files Technical Report 43-101
On The Yangjiagou ("Ming") Gold/Silver Project, China

Toronto, February 27, 2008, Gold World Resources Inc. (GDW-TSX Venture) (the "Company") is pleased to announce that the NI 43-101 Technical Report on the Yangjiagou ("Ming") Gold/Silver Project prepared by SRK Consulting China Ltd. ("SRK") has been filed on SEDAR and is available for viewing on the Company's website www.goldworldresources.com.

Item 5: ***Full Description of Material Change***

5.1 Full Description of Material Change

Toronto, February 27, 2008, Gold World Resources Inc. (GDW-TSX Venture) (the "Company") is pleased to announce that the NI 43-101 Technical Report on the Yangjiagou ("Ming") Gold/Silver Project prepared by SRK Consulting China Ltd. ("SRK") has been filed on SEDAR and is available for viewing on the Company's website www.goldworldresources.com.

Messrs. Dr. Anson Xu and Dr. Beilin Shi of SRK Consulting China Ltd. are "Qualified Persons" of the NI 43-101 technical report. Dr. Xu has reviewed the news release regarding technical statements.

5.2 Disclosure for Restructuring Transactions

Not applicable.

Item 6: ***Reliance on subsection 7.1(2) or (3) of National Instrument 51-102***

N/A

Item 7: ***Omitted Information***

N/A

Item 8: ***Executive Officer***

Hermann Derbuch, Chairman & CEO (416) 594.9888

Item 9: ***Date of Report***

Dated at the City of Toronto, in the Province of Ontario, this 28th day of February, 2008.

"Hermann Derbuch, P.Eng."
Hermann Derbuch, Chairman & CEO

Press Release

Gold World Resources Files Technical Report 43-101
On The Yangjiagou ("Ming") Gold/Silver Project, China

Toronto, February 27, 2008, Gold World Resources Inc. (GDW-TSX Venture) (the "Company") is pleased to announce that the NI 43-101 Technical Report on the Yangjiagou ("Ming") Gold/Silver Project prepared by SRK Consulting China Ltd. ("SRK") has been filed on SEDAR and is available for viewing on the Company's website www.goldworldresources.com.

Messrs. Dr. Anson Xu and Dr. Beilin Shi of SRK Consulting China Ltd. are “Qualified Persons” of the NI 43-101 technical report. Dr. Xu has reviewed the news release regarding technical statements.

The Ming Gold/Silver Project was pre-selected with the assistance of Dr. Beilin Shi who prepared a due diligence report (see www.goldworldresources.com - Investor Info – Related Reports) on the project prior to the signing of a Letter of Intent on July 9, 2007.

The signing of a Joint Venture Agreement on November 9, 2007 demonstrated the rapid pace at which the Company is implementing its vision “to play a significant role in China’s gold-silver production growth”. The Company focuses on China as its field of activity because:

- China is the world’s largest gold producer and
- China has excellent infrastructure, high discovery potential and low cost profile

The Company’s Joint Venture partner, the Shijiazhuang Geological Brigade (the “Brigade”), is the current property owner and is very knowledgeable about the property and the general area. The Brigade has conducted detailed geological and geochemical exploration programs, defining to date 12 altered-mineralized zones and showings of gold-silver mineralization. Referring to the Technical Report, (see page 5) SRK states: “As a result of the Yangjiagou property possessing similar geological deposit conditions to some adjacent operational mines, and that mineralization may improve with depth, SRK believes that the Yangjiagou property has the potential to host similar deposits to those in the mines, and further exploration, particularly to depth is warranted.” SRK recommends that the Company further explore and define mineralized bodies at the Ming property. SRK believes the program should include systematical sampling of exposed veins, a detailed geological survey, geophysical surveys to define drilling targets, as well as drilling to test the mineralization at depth. SRK proposes phase one program with a total budget of US$750,000. The program should be carried out sequentially according to their priority, e.g. drilling targets have to be determined first, and then the drilling can be conducted. Phase two programs will be subject to positive results obtained from phase one and may include 1:2000 geological and topographical mapping, further drillings and underground tunneling.

There is easy access to the property by a 2 hour train connection from Beijing to Shijiazhuang and from there on excellent roads of about 72 km to the property.

About Gold World Resources Inc.:
The Company is exploring for precious metals in China and has signed recently a Joint Venture Contract to establish a Sino-Foreign Contractual Joint Venture Company for the exploration and development of the Ming (Yangjiagou) Gold/Silver Project. For more information about the Company’s activities we invite you to visit our website www.goldworldresources.com .

ON BEHALF OF THE BOARD
“Hermann Derbuch”,
Chairman & CEO
Gold World Resources Inc.
