ABATTIS ANNOUNCES IT HAS RECEIVED DEFICIENCY LIST FOR ITS CONTROLLED SUBSTANCE LICENSE APPLICATION

Vancouver, BC – February 20, 2014 - Abattis Bioceuticals Corp. (the “Company” or “Abattis”) (OTC PINK: ATTBF) (CNSX: FLU), Health Canada Office of Controlled Substance has issued the deficiency list for Abattis’ subsidiary, Northern Vine Canada Inc. application to obtain a Controlled Substance License for handling, analytics and extraction of Marihuana.

Abattis submitted its application to Health Canada on December 23, 2013.

The application has been reviewed and assessed by the Office of Controlled Substances of Health Canada. "We are pleased to report there were only 3 deficiencies in the application and we will address each and every item to ensure we can analyze samples and provide Certificate of Analysis for Licensed Producers ensuring the product being sold to its patients meets all standards as established in the AHP Monograph on Cannabis that Abattis supported in 2013. Our goal is to ensure that there are safe, efficacious medical marijuana products that work in the market, while researching and filing intellectual property on the compositions that we develop." stated Mike Withrow, President and CEO of Abattis.

About Abattis Bioceuticals Corp.

Abattis is a specialty biotechnology company with capabilities through its wholly owned subsidiaries of producing, licensing and marketing proprietary ingredients, bio-similar compounds, patented equipment and consulting services to medicinal and adult marijuana markets in North America. The company is positioned to capitalize on the fast growing trend toward marijuana legalization in the United States and for medicinal use in Canada and international jurisdictions by supplying and partnering with companies to employ its vertical growing systems, extraction equipment/technology, and strategic marketing support to licensed growers and dispensaries. The company also has an extensive pipeline of high-quality products and Intellectual Property for the rapidly expanding botanical drug market.
