MINAEAN HABITAT (India) Pvt. Ltd. Newly launched LGS Wall Panels are being tested by Magarpatta Township Development and Construction Company Limited at Pune, INDIA

Vancouver, BC, Canada – NOVEMBER 26, 2007 – Minaean International Corp. (TSX VE: MIB; Berlin and Frankfurt Stock Exchanges: NJA) is pleased to announce that its wholly owned Indian subsidiary – Minaean Habitat (India) Pvt. Ltd. (MHI) launched its newly developed “ARTISAN Composite System” last month followed by the testing of the ARTISAN LGS Wall Panels are being tested by Pune’s leading developer Magarpatta Township Development and Construction Company Limited, for its project “Cybercity Magarpatta”. The Company has imported roll forming and cellulite concrete production machinery from Australia and Germany respectively and is setting up the infrastructure for mass production. “ARTISAN Composite” quick build system consists of Light Gauge Steel frame wall panels with cellulite concrete infill developed to meet the requirements and the mind set of the Indian public.

Magarpatta Township Development and Construction Company Limited is Pune’s leading real estate development and construction company. The company is a group of Pune’s eminent business and technology leaders who have come together with a common focus, to develop a unique city where features and specifications translate into a better quality of life for any individual, while preserving the sanity of a clean and green environment, and offering the best in quality, comfort and technology. The company has developed a planned city on land of 400 acres. It includes 300 residential buildings comprising over 7,000 housing options comprising of 1/2/3/4 BHK flats, penthouses, row houses and bungalows, within walking distance from Cybercity Magarpatta. Cybercity Magarpatta comprises of 20 towers with over 6 million sq. ft. of high quality modular office space.

The successful implementation and testing of the wall panels will produce a substantial order for Minaean Habitat is new product in a country which primarily uses a brick and mortar construction system.

“The ARTISAN Composite – CLC wall technology has been developed by the combined efforts of Minaean’s engineers in Vancouver and India and is getting ready for a major break through in the Indian construction industry where speed with quality is becoming a matter of primary importance” commented Mr. Hari Varshney, Chairman of Minaean. Minaean intends to focus on its production and supply of Modular Buildings and ARTISAN Wall solutions during the course of the current year and penetrate the market more aggressively in 2008.

About Minaean

Minaean International Corp., manufactures rapid, efficient building systems using light-gauge steel. Minaean’s Vesta Quik-Build™, Artisan Quik-Build™ construction kits are available for houses and buildings of up to four stories.

The year old technology of modular buildings designed, engineered and prefabricated in the factory environment, capable of being assembled and delivered within 7 days are an addition to the Company’s innovative construction technologies. The strong, affordable, ecologically sustainable structures which include the recently launched “ARTISAN Composite” system present a promising solution to the mass housing shortages in developing countries and disaster-stricken areas, in addition to a range of conventional

applications.

Shares of Minaean International Corporation (parent company) are publicly traded on the TSX Venture Exchange under the symbol "MIB" and on the Berlin and Frankfurt Stock Exchanges under the symbol "NJA". For more information, please visit www.minaean.com.
