Bell Resources Retains AGORACOM To Provide Investor Relations, Social Network and Google Search Engine Program

Vancouver, B.C.: Bell Resources Corporation ("Bell") (TSX-V. BL) is pleased to announce it has retained the services of AGORACOM Investor Relations ("AGORACOM") (http://www.agoracom.com) to provide online investor relations services, a Web 2.0 social network for current shareholders and Tier-1 awareness through the world's biggest websites for the purpose of attracting new shareholders.

On March 28 2008, Bell, Grandcru Resources (TSXV.GR) and Rogue River Resources (a non reporting company) received shareholder approval for the proposed business combination announced on September 4 2007. The resulting company, Bell Copper Corporation, will benefit from the exploration potential of Bell and Grandcru's copper exploration assets and near term production potential of Rogue River's La Balsa Project.

Bell CFO, Brian Leeners stated, "With the creation of Bell Copper, we believe the time has now come to significantly increase our communications with both existing shareholders and the massive online small-cap community of investors that are searching for a great investment in a newly created copper mining company. I strongly encourage our shareholders to begin taking advantage of our new online IR system, which demonstrates we are a fully accessible organization with a great developing story to tell."

ONLINE INVESTOR RELATIONS MAXIMIZES SPEED, TRANSPARENCY AND ACCESS TO COMPANY

In response to overwhelming data representing the online research and communications habits of small-cap investors, Bell will expand its investor relations program to the web via the AGORACOM system to facilitate faster, better and more accessible communications with both current and prospective shareholders around the world.

Effective April 15th, a customized and monitored Bell Copper IR HUB (http://www.agoracom.com/IR/BellCopper) will allow both the Company and AGORACOM to communicate with all investors simultaneously, anytime and in near real-time. Our new IR HUB will also provide management with an ability to extend communications beyond text via audio messages, video presentations, webcasts and podcasts. In addition to traditional e-mail, investors will also have the ability to receive all communications via RSS feed.

LAUNCH OF BELL COPPER COMMUNITY

The Bell Copper IR HUB propels the Company into the forefront of Web 2.0 community building by providing investors with two very important functions. First, a monitored discussion forum for the purposes of constructive and high-quality discussion amongst investors that is free of spam, profanity and misinformation. Second, a social network that provides investors with the ability to create extensive profiles that include photos, bios, video messages to fellow investors, a rating system and other important items to create a closer bond between our shareholders.

TIER-1 EXPOSURE AND AWARENESS

As an exclusive provider of "Small-Cap Centres – Powered by AGORACOM" to Yahoo Finance Canada, AOL Finance Canada and every Blackberry device on the planet, AGORACOM will provide Tier-1 financial coverage of all newsworthy Bell Copper press releases for the purposes of attracting new and prospective shareholders

In addition, AGORACOM will be launching a search engine IR Program via Google and Yahoo that specifically targets prospective small-cap investors across North America. These small-cap search engine programs are exclusive to AGORACOM, with creation and management coming from Yahoo and Google personnel directly.

For future Bell Copper investor relations needs, investors are asked to visit our IR Hub at http://www.agoracom.com/IR/BellCopper where they can post questions and receive answers within the same day, or simply review questions and answers posted by other investors.

The terms of the agreement are as follows: Duration - 12 months. Monthly Cash Compensation - $3,000, plus $2,000 towards a search engine IR Program. Stock Options - 600,000 shares at $CDN .40 per share; This agreement has been negotiated entirely at arm's length. AGORACOM is located in Toronto, Ontario. These options will be subject to the conditions of the business combination.

Contemporaneous with the engagement of Agoracom, Bell will no longer be working with Barnes McInerney Inc (BMI). Bell thanks BMI for their efforts.

About AGORACOM

AGORACOM Investor Relations (http://www.AgoracomIR.com) is North America's largest online investor relations firm for small-cap companies. We have partnered with the world's biggest internet companies, including Yahoo, AOL, Google and Blackberry to market our clients to a massive audience of new small-cap investors. We have served over 200 companies since 1997.

AGORACOM Investor Relations has displaced the telephone and e-mail as primary IR communications devices. Our IR HUB delivers two-way investor relations in near real-time that is 24/7/365 accessible to shareholders around the world and goes far beyond text by offering both audio and video communications.

AGORACOM (http://www.Agoracom.com) is North America's only small-cap community built to serve the needs of serious small-cap and micro-cap investors. No rumours, profanity, stock bashing or hyping. Our traffic ranking is above the top 1% of all websites around the world.

About Bell Copper

Bell Copper is focused on near term copper production at the La Balsa project in Mexico and continuing exploration and development on its diversified portfolio of projects in historically significant copper producing regions.
