FOR IMMEDIATE RELEASE

AirTest Sells 1200 Sensors to Air Handling Equipment Manufacturer

DELTA, BC, April 11, 2023 **ATI AirTest Technologies Inc.** (“AirTest” or the “Company”)(TSXV: AAT, OTC: AATGF) CEO Ted Konyi is pleased to announce that the Company has sold 1200 CO2 sensors to an OEM customer.

The long time customer of the Company uses the sensors as part of the Air Handling Equipment that they manufacture. The sale is representative of a number of OEM customers that the Company sells various sensors to for the purpose of larger equipment sales.

Lorne Stewart, AirTest's President, commented “we continue to have success providing sensors to a wide range of OEM customers. This business is a nice addition to our growing number of mechanical contractors and HVAC wholesalers the represent the bulk of AirTest's sales efforts.”

About AirTest: AirTest Technologies is a Green-Tech company specializing in Demand Control Ventilation systems that improve commercial building operating efficiency and generate proven energy savings. The company has developed new wireless sensors with dynamic real-time communication and control technologies, which builds upon ten years of experience and thousands of installations amongst clients such as Lowe’s, Shoppers Drug Mart and Ikea. Airtest solutions provide data on levels of Indoor Air Quality required by Schools, Retail Stores and Offices.

Legal Notice Regarding Forward Looking Statements

This news release contains “forward looking statements”. Forward-looking statements are projections of financial performance or future events. Forward-looking statements can be identified by the use of words such as “expect”, “anticipate”, “intend”, “plan”, “believe”, “estimate” and words of similar meaning. Forward-looking statements are based on management’s current expectations and assumptions and they are subject to risks that may cause actual results to differ materially from those expressed or implied by such forward looking statements. Forward-looking statements in this news release include those concerning the Company’s belief in the energy savings that can be achieved through installation of the Company’s products and that these installations lead to reduced maintenance, downtime expenses, future cost savings, and improvements in the bottom line. These statements are subject to risks that may cause the actual results to be materially different in future periods from those expressed or implied by such forward looking statements. Risks that may prevent or delay the forward-looking statements from coming to fruition as anticipated include the availability of working capital, risks inherent in product development, as well as market factors that may increase costs or time to market. It is our policy not to update forward looking statements except to the extent required under applicable securities laws. Further information on the Company is available at www.sedar.com or at the Company’s website, www.airtest.com.
