

NEWS RELEASE
DIAMCOR MINING INC.

Diamcor Delivers Rough Diamonds to Tender

Shares Issued and Outstanding: 63,885,888

TSXV:DMI

OTCQB:DMIFF

KELOWNA, June 4, 2019 – Diamcor Mining Inc. (TSX-V.DMI / OTCQB-DMIFF), (the “Company”) is pleased to announce it has delivered 2,545 carats of rough diamonds from ongoing processing exercises at the Company’s Krone-Endora at Venetia Project (the “Project”) to tender in the second month of the Company’s first fiscal quarter ending June 30, 2019. These rough diamonds, when combined with the 3,714.97 carats delivered and tendered earlier in the fiscal quarter, brings the total rough diamonds delivered for tender thus far in the Company’s first fiscal quarter ending June 30, 2019, to 6,259.97 carats. Of the foregoing 2,545 carats of rough diamonds delivered to tender, 1,648.78 carats were tendered and sold for total gross proceeds of USD \$236,599.43, resulting in an average price of USD \$143.50 per carat. The lower dollar per carat achieved, as compared to the Company’s average price per carat of \$176.16 realized on all rough diamonds tendered and sold to date, is in part attributable to the goods being tendered in South Africa, coupled with a higher percentage of smaller, lower quality rough diamonds offered. The balance of 896.22 carats of rough diamonds delivered, along with rough diamonds recovered after June 1, 2019, will be sold at a planned third tender in Antwerp later this fiscal quarter.

About Diamcor Mining Inc.

Diamcor Mining Inc. is a fully reporting publicly traded junior diamond mining company which is listed on the TSX Venture Exchange under the symbol V.DMI, and on the OTC QB International under the symbol DMIFF. The Company has a well-established operational and production history in South Africa and extensive prior experience supplying rough diamonds to the world market.

About the Tiffany & Co. Alliance

The Company has established a long-term strategic alliance and first right of refusal with Tiffany & Co. Canada, a subsidiary of world famous New York based Tiffany & Co., to purchase up to 100% of the future production of rough diamonds from the Krone-Endora at Venetia Project at then current prices to be determined by the parties on an ongoing basis. In conjunction with this first right of refusal, Tiffany & Co. Canada also provided the Company with financing to advance the Project. Tiffany & Co. is a publicly traded company which is listed on the New York Stock Exchange under the symbol TIF. For additional information on Tiffany & Co., please visit their website at www.tiffany.com.

About Krone-Endora at Venetia

In February 2011, Diamcor acquired the Krone-Endora at Venetia Project from De Beers Consolidated Mines Limited, consisting of the prospecting rights over the farms Krone 104 and Endora 66, which represent a combined surface area of approximately 5,888 hectares directly adjacent to De Beers' flagship Venetia Diamond Mine in South Africa. On September 11, 2014, the Company announced that the South African Department of Mineral Resources had granted a Mining Right for the Krone-Endora at Venetia Project encompassing 657.71 hectares of the

{01884952;2}

Project’s total area of 5,888 hectares. The Company has also submitted an application for a mining right over the remaining areas of the Project. The deposits which occur on the properties of Krone and Endora have been identified as a higher-grade “Alluvial” basal deposit which is covered by a lower-grade upper “Eluvial” deposit. The deposits are proposed to be the result of the direct-shift (in respect to the “Eluvial” deposit) and erosion (in respect to the “Alluvial” deposit) of material from the higher grounds of the adjacent Venetia Kimberlite areas. The deposits on Krone-Endora occur in two layers with a maximum total depth of approximately 15.0 metres from surface to bedrock, allowing for a very low-cost mining operation to be employed with the potential for near-term diamond production from a known high-quality source. Krone-Endora also benefits from the significant development of infrastructure and services already in place due to its location directly adjacent to the Venetia Mine.

Qualified Person Statement:

Mr. James P. Hawkins (B.Sc., P.Geo.), is Manager of Exploration & Special Projects for Diamcor Mining Inc., and the Qualified Person in accordance with National Instrument 43-101 responsible for overseeing the execution of Diamcor’s exploration programmes and a Member of the Association of Professional Engineers and Geoscientists of Alberta (“APEGA”). Mr. Hawkins has reviewed this press release and approved of its contents.
