

Golden Goliath Mobilizes Field Crew

Vancouver, June 10 2019; Golden Goliath Resources Ltd. (TSX.V GNG)
(US: GGTH-F)

The Company is pleased to announce that it is now mobilizing its field crew to start the initial field work on its Ontario properties. The proper location and orientation of exploration grids for geophysics and geochemistry will be determined for the properties so that line cutting needed for the surveys can begin. This will be done for the Kwai and SLF properties, which are close to Great Bear Resources, as well as for the Wish Ore property, located near Sault Ste Marie. Prospecting and rock sampling will also be initiated. Work will continue throughout the summer and regular updates will be provided. This work is expected to delineate drill targets for the next stage of exploration, which the Company expects will occur in the late summer or Fall.

About Golden Goliath

Golden Goliath Resources Ltd. is a junior exploration company listed on the TSX Venture Exchange (symbol GNG). The Qualified Person ("QP") for the information regarding Ontario properties is J. Paul Sorbara M.Sc., P.Geo. The QP has approved the scientific and technical disclosure in the news release.

The Company is focused on exploring and developing the gold and silver potential of properties in the Red Lake District of Ontario. The Company also holds a 100% interest in the San Timoteo property, located in the Sierra Madre Occidental Mountains of northwestern Mexico, as well as NSR royalties on several other nearby properties, and 100% of the La Cruz property, also in Chihuahua.
