

Photon Control Announces Achievement of Customer Certification at New Facility

Richmond, BC, September 14, 2017 – Photon Control Inc. (“Photon Control” or the “Company”) (TSX-V: PHO), a leading developer of optical measurement technologies, announces the achievement of customer certification and successful completion of the Company’s relocation to its newly designed manufacturing facility in Richmond, BC, Canada.

Photon Control has completed all of the stringent customer audits and assessments along with all Critical Design Reviews to meet the semiconductor industry standards of “Copy Exact” requirements and has achieved full certification expected from its semiconductor customers, to manufacture and ship products from the new manufacturing facility.

“It has taken a lot of hard work and dedication from the entire organization to achieve these certifications and clearances to manufacture and ship,” said Scott Edmonds, Chief Executive Officer. “Our newly relocated, more efficient and scalable manufacturing facility allows us to not only meet current growing demand, but to also take on the new growth opportunities available to the Company in the semiconductor and related industries.”

About Photon Control Inc.

Photon Control Inc. designs, manufactures and distributes a wide range of optical sensors and instruments to measure temperature, position, and flow. These products are used by Original Equipment Manufacturers (OEM) as well as end users in the Semiconductor, Energy and Manufacturing industries. Photon Control’s products provide high levels of accuracy and reliability in extreme conditions and are supported by a team of experts that offer on-site installation, training, and support. Photon Control Inc. also provides engineering services for customized optical measurement systems. Headquartered in an ISO 9001:2008 manufacturing facility in Richmond, BC, Canada, Photon Control Inc. is listed on the TSX Venture Exchange, trading under the symbol “PHO.” Additional information about the company can be found at www.photon-control.com/investorrelations.html.
