Explanatory Notes

Accounting Standards and consolidation

The Fine Foods Group's Interim Financial Report as of 30 September 2023 has been prepared under the Stock Exchange Regulations, which set the publication of the Interim Financial Reports as a requirement for maintaining a listing on the MTA - STAR segment.

The Interim Financial Report has been prepared under the International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and the interpretations of the IFRS Interpretations Committee (IFRSIC) and the Standing Interpretations Committee (SIC), recognised in the European Union under (EC) Regulation no. 1606/2002 applicable at the end of the period. The accounting standards and assessment criteria adopted to prepare the Interim Financial Report are consistent with those used in the 31 December 2022 Financial Statements to which reference is made.

The scope of consolidation as of 30 September 2023 includes the Parent Company Fine Foods & Pharmaceuticals N.T.M. S.p.A., and the subsidiary Euro Cosmetic S.p.A.. On 27 December 2022, the merger deed of Pharmatek PMC S.r.l. into Euro Cosmetic S.p.A. was signed. The merger produced its legal, accounting, and tax effects as of 1 January 2023.

The tables shown in this document have been constructed as follows:

- Income statement and balance sheet figures as of 30 September 2023 refer to the consolidation of the Fine Foods Group, which includes the Parent Company Fine Foods and the subsidiary Euro Cosmetic S.p.A..
- The comparative balance sheet as of 31 December 2022 relates to the consolidation of the Fine Foods Group, which includes the parent company Fine Foods and the subsidiaries Pharmatek and Euro Cosmetic.
- The comparative Income Statement as of 30 September 2022 includes the values of the Parent Company Fine Foods and the subsidiaries Pharmatek and Euro Cosmetic.

The Interim Financial Report as of 30 September 2023 is not subject to auditing by the auditing company.

As of 30 September 2023, current financial assets were € 3,832,943 (compared to € 66,512,584 as of 31 December 2022). This is detailed below:

(Amounts in Euro units)	30 September 2023	31 December 2022
Other securities	154,702	62,834,343
Directors' Severance Pay (TFM) receivables	211,265	211,265
Leakage receivable	3,466,976	3,466,976
Total current financial assets	3,832,943	66,512,584

In January 2019, the Parent Company appointed a leading Credit Institution to perform a discretionary and individualised management service on an investment portfolio that includes financial instruments and liquidity. As required by the international accounting standard IFRS 9 - Financial Instruments - these instruments were recorded at Fair value at the reference date.

- As of 31 December 2022, the portfolio Fair Value was € 62,834,000.
- As of 30 September 2023, the positive change in Fair Value was € 1.7 million.
- As of 30 September 2023, Fine Foods has withdrawn € 64 million from the portfolio. To date, there is only one security in the portfolio of € 98,000. The company intends to close its position.

Leakage receivable

As disclosed in the Financial Statements for the year ended 31 December 2021, Fine Foods notified Euro Cosmetic's former shareholders (MD and Findea) of its Leakage Reimbursement Request on 29 December 2021, under the "Locked Box" Agreement, for € 6,733,938.

Fine Foods' notice was acknowledged and contested by the Sellers and, under the Contract, the matter was referred to an arbitrator (the "Expert"), appointed at the Company's request on 16 March 2022 by the Arbitration Board of the Milan Chamber of Arbitration.

In October 2022, Fine Foods received the Expert's Report on Fine Foods' Leakage Reimbursement Request against the former reference Euro Cosmetic's shareholders. Based on this Report, Fine Foods was granted a reimbursement of € 3,466,976 for purchase price adjustment - out of € 6,733,938 million originally requested. The Company has recorded € 3,266,960 write-down of receivables in financial charges. The Expert did not deem this portion of the receivable admissible, even if, in their opinion, a Contract literal interpretation suggests that the Leakage reimbursement request should have been entirely granted to the acquiring party.

Subsequently, Fine Foods requested the Sellers to pay the amount defined by the Expert. Since the Sellers failed to do so, and the conditions were met, the Company applied for and obtained a Court of Milan Order for the payment of its claim. The Petition and Payment Order were served on the Sellers on 17 February 2023. The Sellers opposed, contesting the debt by the 29 March 2023 deadline. A trial was opened and after an in-depth discussion during the hearing of 7 November 2023, the judge adjourned the case to 5 March 2024 to attempt a conciliation between the parties. The judge further ordered a personal appearance, before deciding on the provisional enforceability of the Injunction Order.

Net financial debt	53,610,697	43,616,140
Total Sources	182,443,814	176,905,903

Net invested capital as of 30 September 2023 was € 182.4 million (€ 177 million as of 31 December 2022) and was covered by:

- Shareholders' equity of € 128.8 million (€ 133.3 million as of 31 December 2022);
- The Group's Net Financial Position as of 30 September 2023 was € 53.6 million, with a negative change of € 10 million compared to the NFP of € 43.6 million as of 31 December 2022. The change was mainly due to the increase in Commercial Net Working Capital (12.2 million), change in net CAPEX made in the period (of about € 11.8 million), and the dividends distributed in H1 2023 (€ 2.5 million) following the resolution to approve the Financial Statements for the year ending 31 December 2022, which were partially offset by the positive effect of the result net of depreciation and amortisation (€ 14.4 million) and other minor changes of approximately € 2 million. The NFP improved by about € 4.2 million compared to the figure as of 30 June 2023 (€ 57.8 million).
The amount deriving from the disposal of the securities portfolio held by the Parent Company was reclassified from "Other current financial assets" to "Cash and cash equivalents" as of the reporting date.

Working capital as of 30 September 2023 was € 54.5 million compared to € 44.2 million at the end of the previous financial year. The Commercial Net Working Capital of € 58.5 million (compared to € 46.3 million as of 31 December 2022), changed as follows: increase in trade receivables (€ 2.6 million), inventories (€ 6.9 million) and a decrease in trade payables (€ 2.7 million). These changes are mainly attributable to the increase in revenue as of 30 September 2023.

Tangible Fixed Assets increased by approximately € 1.7 million in 9M 2023, due to net investments of € 11.9 million and depreciation for the period of € 10.3 million.

Intangible fixed assets and rights of use were € 16.8 million as of 30 September 2023 (€ 22.8 million at the end of FY 2022). This decrease was mainly due to the Pharmatek's goodwill impairment of € 4.4 million.

Before commenting on the Group's economic performance, please note that in the Interim Financial Report as of 30 September 2022, consolidation included the Parent Company Fine Foods, the subsidiaries Pharmatek and Euro Cosmetic, while the consolidation as of 30 September 2023 included Fine Foods and Euro Cosmetic, following the merger by incorporation of the subsidiary Pharmatek into Euro Cosmetic.

Revenues from sales and services increased from € 152.8 million as of 30 September 2022 to € 185.7 million as of 30 September 2023, with an increase of 21.5%, despite the international economic and geopolitical situation. This growth was mainly attributable to the Parent Company Fine Foods, which recorded a 28.4% turnover increase.

(Amounts in Euro units)	30 September 2023	30 September 2022
Business Unit – Food	111,534,092	86,351,332
Business Unit – Pharma	50,767,298	40,005,225
Business Unit – Cosmetics	23,384,717	26,459,546
Total Revenues from contracts with customers	185,686,107	152,816,103

Food Business Unit revenues in the first nine months of 2023 were € 111.5 million compared to € 86.4 million in the previous period with an increase of 29.2%.

The Pharma Business Unit reconfirmed its turnover increase, reaching € 50.8 million in 9M 2023. This represented a growth of 26.9% compared to the same period of the previous year.

The contribution of the Cosmetic Business Unit in 9M 2023 was € 23.4 million compared to € 26.5 million as of 30 September 2022. This decrease was also generated by the disposal of some non-strategic business lines (E-CIG and part of medical-surgical aids) and the ongoing restructuring of operations.

Raw material costs on sales revenues, of approximately 62.3%, increased compared to what was shown in the Interim Financial Report as of 30 September 2022 (60.7%).

Personnel costs amounted to € 32.4 million, with an increase of € 4.1 million compared to the same period in FY 2022.

As of 30 September 2023, EBITDA was € 18.3 million (9.9% of Ebitda Margin), up from € 12.1 million in the previous financial year (7.9% of Ebitda Margin). This margin increase can be attributed to the positive performance of the Food and Pharma BUs, which drive the Group's business, with a margin totalling 11.4%. The margin improvement derived from the reduction in the impact of personnel and energy costs on revenues, and better absorption of fixed costs on revenues. The energy percentage cost is still higher than the historical cost. This impact is estimated at almost 1.7% on revenue, equal to about € 1.5 million, which would have brought EBITDA to € 19.8 million, with a margin of 10.7%.

EBIT like EBITDA benefited from the improved margin of the main cost items rising from € 1 million as of 30 September 2022 to € 2.2 million as of 30 September 2023, with an increase of € 1.2 million. EBIT for 9M 2023 was affected by the above energy impact, net of which it would have been € 3.6 million.

(Amounts in Euro units)	30 September 2023	30 September 2022
Change in fair value of other securities	1,703,519	(7,885,713)
Total changes in Fair Value of financial assets and liabilities	1,703,519	(7,885,713)

The "Changes in fair value of other securities" item showed a change in the fair value of securities held with a major credit institution. As mentioned in the Directors' Report as of 30 June 2023, the securities portfolio was almost entirely disposed of (one security of about € 98,000 remained). The income recorded in the income statement was final.

Income before taxes in 9M 2023 was € 0.5 million compared to € -11.6 million in the same period of the previous year. This result was mainly impacted by the Pharmatek's goodwill impairment, and the increase in financial expenses. The combined effect of these

negative changes and allocation of current taxes by the Parent Company Fine Foods of € 2.3 million led to a Loss for the Period of € 1.8 million (€ -11.9 million as of 30 September 2022).

In 9M 2023 there were no non-recurring expenses with an impact on EBITDA.

Non-recurring expenses attributable to Pharmatek were incurred as of 30 September 2022. These included the hailstorm in May and the termination of a company manager for € 0.5 million.

In 2023, the Pharmatek's goodwill impairment of € 4.4 million should be noted as non-recurring on EBIT. Adjusted EBIT was € 6.6 million compared to € 1.4 million as of 30 September 2022. Adjusted EBIT, net of the energy impact, would have been € 8 million.

The adjusted net result as of 30 September 2023, net of the goodwill impairment, was € 2.6 million compared to the loss for the period of € 11.6 million as of 30 September 2022.

These adjustments were made for the related tax effect (27.9% tax rate) for calculating Adjusted Profit (Loss) for FY 2022.

Events following the end of the period

No specific events needed to be reported, except for what is mentioned in the Leakage Receivable paragraph. After an in-depth discussion during the hearing of 7 November 2023, the judge adjourned the case to 5 March 2024 to attempt a conciliation between the parties. The judge further ordered a personal appearance, before deciding on the provisional enforceability of the Injunction Order.

Business outlook

The most recent predictions are for a slowdown in global economic growth, impacted by high inflation, restrictive financing conditions and the geopolitical scenarios that are affecting Europe and the Middle East. The energy cost, although lower than in the previous period, remains significantly higher than historical trends.

Despite the complex international situation, the Group will develop the business along three main lines - Food, Pharma, and Cosmetics - by strengthening corporate functions' activities. Fine Foods will seize any opportunities for growth through external lines.

The increase in turnover recorded in the first nine months of the year confirmed the effectiveness of the commercial actions taken for the Food BU and allowed us to forecast a largely positive outlook.

The Pharma BU is expected to significantly grow due to the key multi-year agreements signed with important international customers that will require a production plant expansion.

The integration and optimisation of processes will continue for the Cosmetic BU. Investments for the Trenzano site production capacity expansion are nearing completion. Efficiency is expected to improve when fully operational and customer demand response ability is expected to increase. The Cremosano plant was permanently closed and production transferred to Trenzano.

Confirming what was highlighted in the half-year report, margins in the third quarter improved compared to the previous quarter. Considering the results achieved in the period after 30 September 2023, management is reasonably confident of the margin improvement trend, especially for the Food and Pharma BUs, despite the penalisation resulting from the Cosmetic BU due to reorganisation.

The Groups believes in a fair and sustainable future, creating long-term value for the benefit of its stakeholders and contributing to the development and well-being of the communities in which it operates. Fine Foods has been a benefit corporation since April 2021. ESG issues for Fine Foods are a structured set of activities and the Group intends to continue its sustainability programme in the future.
