ITEM 4 ON THE ORDINARY SHAREHOLDERS' MEETING AGENDA

- 4. Authorisation to buy and dispose of treasury shares under articles 2357 and 2357-ter of the Civil Code, subject to the revocation of the unexecuted part of a previous Shareholders' Meeting authorisation dated 29 May 2024. Related and consequent resolutions**

Dear Shareholders,

with reference to the third item on the agenda, a discussion will be held at the ordinary Shareholders' Meeting, to resolve on the revocation of the unexecuted part of the authorisation to buyback treasury shares which was approved by the Shareholders' Meeting on 29 May 2024 and to approve a new authorisation to buyback and dispose of treasury shares under articles 2357 and 2357-ter of the Italian Civil Code.

Consequently, under Article 73 of the Issuers' Regulations, the Board of Directors has approved this Report, in compliance with Annex 3A, Scheme no. 4 of the above Issuers' Regulations, which illustrates authorisation purposes, methods and features to Shareholders.

On 29 May 2024, the Company Ordinary Shareholders' Meeting authorised the buyback and disposal of treasury shares under Articles 2357 and 2357-ter of the Italian Civil Code. This can be carried out in one or more tranches, including on a revolving basis, for a maximum of 18 months as of the relevant resolution's effective date. These shares shall hold a value of up to 20 per cent of the Company's share capital and a maximum countervalue of € 26,000,000.00, after considering Company and its subsidiaries' (if any) ordinary shares held in the portfolio.

Considering that the buyback authorisation lasts 18 months from the date of the shareholders' resolution and will expire during the 2025 financial year, the governing body convened the Shareholders' Meeting to authorise buyback and disposal of treasury shares under article 2357 et seq. of the Italian Civil Code, subject to revocation of the 29 May 2024 resolution for the unexecuted part, without prejudice to the permanent validity of the authorisation for the future disposal of treasury shares already purchased by the Company.

We illustrate the proposed transaction terms and conditions.

Reasons to authorise the buyback and disposal of treasury shares

The purpose of the authorisation request to buyback and dispose of ordinary treasury shares is to provide the Company with a strategic investment opportunity for purposes permitted by legal provisions, including, (i) those in Article 5 of Regulation (EU) no. 596/2014 (Market Abuse Regulation, hereafter "**MAR**"), including *"to meet obligations arising from share option programmes, or other allocations of shares, to employees or to members of the administrative, management or supervisory bodies of the issuer"*, (ii) stabilising, supporting liquidity and market efficiency, (iii) obtaining the availability of a portfolio of securities (so-called "securities stock") to be used for extraordinary transactions, including exchange of shareholdings, with other parties, and the use of bonds convertible into Company shares or bonds with warrants, dividends in shares, within the terms, purposes and in the manner that may be decided by the relevant corporate bodies; and (iv) any other purpose contemplated by market practices admitted by the supervisory authority under art. 13 of MAR, within the limits provided for by current regulations and within the terms, purposes and in the manner decided by the relevant corporate bodies.

Maximum number, category and nominal value of the shares to which the authorisation refers

It is proposed that the Shareholders' Meeting authorises to buyback Company ordinary shares (fully paid-up), without a nominal value, in one or more tranches, including on a revolving basis, in a number freely determinable by the Board of Directors up to 20 per cent of the Company share capital. This must consider the portfolio of Company (treasury) shares held by the Company and any subsidiaries. It is proposed to grant a mandate to the Board of Directors to identify the number of ordinary shares to be purchased prior to the start of each individual buyback programme, under the maximum limit mentioned above and the applicable regulations.

It is proposed that the Shareholders' Meeting simultaneously authorises the Board of Directors to dispose of and sell the Company's ordinary shares purchased under the procedures below and applicable laws and regulations.

Information needed for a full assessment of compliance with art. 2357, paragraphs 1 and 3 of the Italian Civil Code

Under art. 2357, paragraph 3 of the Italian Civil Code, the nominal value of the treasury shares that the Company may buyback cannot exceed a fifth of the share capital, considering also the shares held by subsidiaries.

As of 13 March 2025, the Fine Foods subscribed and paid-up share capital was € 22,770,445.02 and was represented by No 25,560,125 shares (of which 22,060,125 ordinary shares were listed on the Euronext STAR Milan market, organised and managed by Borsa Italiana S.p.A., and 3,500,000 unlisted multiple-voting shares), all without a nominal value being declared.

As of this report's date, the company holds 1,077,669 ordinary treasury shares without voting rights under article 2357-ter of the Italian Civil Code, equal to about 4.2162% of the share capital. None of the subsidiaries owns Fine Foods shares.

Under art. 2357, paragraph 1 of the Italian Civil Code, treasury shares buyback is permitted within the limits of distributable profits and available reserves resulting from the latest approved Financial Statements at the time of each transaction. Only fully paid-up shares may be purchased.

The 31 December 2024 draft Financial Statements submitted for approval to the Shareholders' Meeting convened on a single call on 17 April 2025 (assuming approval by the Shareholders' Meeting under the terms proposed by the Board) include available reserves of € 120,766,235 and freely distributable reserves of € 98,991,751. It is understood that compliance with art. 2357, paragraphs 1 and 3 of the

Italian Civil Code for the buyback of treasury shares must be verified with each authorised purchase, considering any further unavailability restrictions that may arise later.

The subsidiaries will be given specific instructions to promptly notify the Company of any buyback of Parent Company shares under art. 2359-*bis* of the Italian Civil Code to allow for verifications on the subsidiaries.

When buying back, selling, exchanging and transferring treasury shares, the Company will make the necessary accounting entries under the law and applicable accounting principles.

Authorisation duration

Authorisation to purchase treasury shares is requested for the maximum duration allowed by the applicable *pro tempore* regulations, under Article 2357, paragraph 2 of the Italian Civil Code, over a period of 18 months, starting from the date of any resolution approving this proposal by the Shareholders' Meeting.

Within the granted authorisation period and under applicable regulations, the Board of Directors may buyback ordinary shares several times, for purposes identified by the Board of Directors, to a freely determined extent and period. This will be carried out gradually as deemed appropriate in the Company's interest.

The authorisation to dispose of or use any purchased treasury shares is requested without time limits, because there are no legal time limits and it will provide the Board of Directors with the maximum time flexibility to carry out the share disposal or use.

Minimum and maximum prices

The buyback price of shares will be set on a case-by-case basis, based upon current regulations and the chosen methods. The unit price shall be neither lower nor higher by more than 15 per cent than the official stock exchange price of shares recorded by Borsa Italiana S.p.A. in the session preceding each individual transaction, and for a maximum of Euro 26,000,000.00.

For the disposal or use of treasury shares, the Board of Directors will set the criteria for determining the price, methods, terms and conditions of use of the treasury shares in portfolio. This will consider legal provisions and regulations, accepted practices, practical methods and the share price trend in the period before the transaction, and the Company's best interests. If there are (i) transactions for which it is appropriate to exchange or transfer shares which can be carried out also by means of exchange or contribution or during capital transactions involving the assignment or disposal of treasury shares (such as, mergers, demergers, issuance of convertible bonds or warrants using treasury shares or share dividends, etc.); and (ii) stock incentive plans, including free-of-charge stock grants reserved for directors, employees or partners of the Company or other companies controlled by the Company or its parent, different criteria may be used, under the Company objectives and applicable legislation.

Under article 2357-*ter* of the Italian Civil Code, the Board of Directors proposes to be authorised to sell, dispose of or use (in any capacity and at any time, in whole or in part, in one or more tranches) treasury shares purchased as part of any authorisation granted by the Shareholders' Meeting for the above mentioned purposes. This is under the procedures, terms and conditions established by the Board of Directors, best practice, the Company's share price trend and its best interests. The proceeds of any treasury shares disposal or use may be used for further buyback of shares, until the expiry of the Shareholders' Meeting authorisation, within the limits set by the latter and current regulations.

Transaction procedures

Considering the various purposes that can be pursued through transactions on treasury shares, the Board of Directors proposes that authorisation be granted to carry out buyback of treasury shares in any of the ways allowed by applicable regulations.

The Board of Directors proposes that the authorisation involving the sale, disposal or use of treasury shares should allow for the adoption of any appropriate method. This includes the use of treasury shares to service stock incentive plans, including stock grants, which can be carried out using intermediaries, under applicable laws and regulations.

For example, the disposal or use operating methods could include selling them on or off the market, accelerated bookbuilding, exchange or contribution or for capital transactions or free-of-charge assignment, as part of share incentive plans or the transfer of related real or personal rights (for example, securities lending) granting the Board of Directors (or those delegated) the power to establish the terms, methods and conditions of the disposal or use of treasury shares that are most appropriate in the Company's interest and under legal provisions and regulations.

The transactions for the buyback and disposal or use of treasury shares for which authorisation is requested shall be carried out under applicable legislation and national and EU laws and regulations, including those related to market abuse.

This is without prejudice to the power of the Board of Directors to establish any method under market practices accepted by the supervisory authority under art. 13 of MAR and conditions established by Delegated Regulation (EU) no. 1052 of 8 March 2016, where applicable.

Adequate communication of any buyback and disposal or use of treasury shares will be provided under the applicable information requirements.

Buyback exploitation to reduce the share capital

This buyback proposal is not aimed at reducing share capital. Should the Shareholders' Meeting resolve to reduce the share capital in the future, the Company reserves the right to implement it, also by cancelling the treasury shares purchased and held in its portfolio.
