Verdellino (Bergamo, Italy), 6 November 2025 - The Board of Directors of Fine Foods & Pharmaceuticals N.T.M. S.p.A. - an Italian independent Contract Services Development & Manufacturing Organization (CSDMO) specialising in the contract development and manufacturing of products for the nutraceutical, pharmaceutical, and cosmetics industries, with a customer-centric, service-oriented philosophy, listed on Euronext STAR Milan (ticker: FF), today approved the Interim Financial Report as of 30 September 2025, prepared under IAS/IFRS Accounting Standards issued by the IASB (International Accounting Standards Board).

The first nine months of 2025 showed **Consolidated Revenue of € 189.7 million**, with an increase of 7% compared to € 177.2 million in the same period of 2024.

Fine Foods & Pharmaceuticals N.T.M. S.p.A. Managing Director Pietro Oriani said: "The third quarter of 2025 saw all three Business Units record further growth compared to the same period in 2024, delivering significant results for the Group over the first nine months of the year. Although the sectors in which we operate continue to show positive growth prospects in Europe and globally, the nutraceutical market associated with weight management products remains in a phase of redefinition, the full impact of which is still being evaluated.

 $<sup>^{\</sup>rm 1}$  Adjusted EBITDA is calculated net of non-recurring items recorded in the period.

<sup>&</sup>lt;sup>2</sup> EBITDA is the operating result (EBIT) before depreciation, amortisation and impairment losses.

Following the same strategic approach that guided investments in the new Brembate facility for the Pharma Business Unit, now operating alongside the existing plant, and in the fully operational Cosmetics Business Unit, currently in its business development phase, we continue to pursue a long-term growth strategy for the Nutra Business Unit. We will continue with our plan to expand production capacity and introduce new pharmaceutical forms, broadening our product range and strengthening our ability to respond quickly to market demands, and continuing our path of growth as a Group."

The **Pharma Business Unit**, which represents 33% of total revenue, achieved €62.8 million in 9M 2025, with an increase of 13.7% compared with €55.2 million in 9M 2024. The **Nutra Business Unit**, accounting for 54% of total revenue, grew by 4.9% in Q3 2025 compared to Q3 2024, offsetting the decline recorded in previous months and closing the first nine months at €103.3 million, up 1% on €102.5 million in 9M 2024. The **Cosmetics Business Unit**, contributing 13% of total revenue, continued to perform strongly, reaching €23.7 million, up 21.4% compared to €19.6 million in 9M 2024.

These results underscore the strategic value of the Group's diversification across three business units, a key feature which provides resilience and contributes to the overall stability of the Fine Foods' top-line performance.

Industrial Added Value (IAV), which is the difference between revenue and costs related to raw material consumption, changes in inventories of finished goods, and work in progress, is an indicator of the Group's performance. In 9M 2025, IAV reached €86 million, representing a 14.9% improvement compared to €74.9 million in 9M 2024.

During the period, **non-recurring expenses affecting EBITDA** totalled **€2.4 million**, mainly linked to severance payments, start-up costs for the new pharmaceutical plant (**€1.5 million**), and provisions for salary adjustments (**€855,900**). In 9M 2024, non-recurring expenses of **€ 331,000** impacted EBITDA due to the employment termination of certain Parent Company executives.

In 9M 2025, the **Group's Adjusted EBITDA** was **€30.5 million**, **up 30.2%** from **€**23.4 million in the same period of the previous year. **Adjusted EBITDA Margin** improved considerably from 13.2% in 9M 2024 to **16.1%** in 9M 2025.

**EBITDA rose by 22%**, reaching €28.1 million in 9M 2025, up from €23.1 million in the same period of 2024. The **EBITDA Margin** increased from 13% to **14.8%**.

Improving operational efficiency across the three Business Units, while implementing extensive improvement programmes, contributed to higher profitability, optimised and strengthened the Group's overall competitiveness.

**Adjusted EBIT** in 9M 2025 was €18.6 million, **up 58.6%** compared to €11.7 million in 9M 2024. **EBIT** was €16.2 million, with a **sharp increase** from €11.4 million in 9M 2024.

**Adjusted Income Before Taxes** for 9M 2025 was €16.5 million, compared to €9.6 million in 9M 2024. The Group's **Income Before Taxes** was €14.2 million, which was a remarkable turnaround from 9M 2024 figure of €9.3 million.

Adjusted Result for the Period in 9M 2025 was €12.7 million, up 84.8% from €6.9 million in 9M 2024. Result for the Period was €11 million compared to €6.6 million in the same period of 2024.

**Tangible Fixed Assets** increased by approximately €16.2 million in 9M 2025, due to net investments of €28.1 million and amortisation, depreciation, and impairment losses for the period of about €11.9 million. During the period, extraordinary investments totalling €17.4 million were made. They mainly related to the expansion of the Brembate pharmaceutical plant (€25.8 million in 2024).

**Intangible fixed assets and rights of use** were €16.1 million as of 30 September 2025, basically unchanged from the end of the previous year.

Working capital as of 30 September 2025 was €32.2 million, while Trade Net Working Capital stood at €42.6 million, compared to €32.9 million as of 31 December 2024 with a €9.7 million increase.

Shareholders' Equity as of 30 September 2025 was €137.8 million (€132.1 million as of 31 December 2024).

The Group's **Net Financial Position** as of 30 September 2025 was €50.1 million, compared to €35.3 million as of 31 December 2024. Operations generated a positive cash flow of €23.5 million before capital expenditure. This was offset by net investments (€28.3 million) made in the period, dividend payments (€3.4 million), the purchase of treasury shares (€1.9 million), payment of financial expenses (€2.0 million) and other outlays, including taxes, totalling €2.6 million.

#### **EVENTS FOLLOWING THE END OF THE PERIOD**

On 24 October 2025, the Italian Medicines Agency (AIFA) renewed the parent company Fine Foods' manufacturing authorisation for medicinal products under Good Manufacturing Practice (GMP), extending its scope to include the new expansion of the Brembate pharmaceutical facility.

On 30 October 2025, the parent company Fine Foods signed a new medium-to-long-term loan agreement with Intesa Sanpaolo S.p.A. for €30 million, with due date in 2029, to support the Group's three-year investment plan.

#### **BUSINESS OUTLOOK**

As noted in the 2025 Half-Year Financial Report, the market segments in which the Group operates are expected to grow in the coming years, in Europe and globally. The nutraceutical segment focused on weight-control products is undergoing a transformation, driven by emerging trends in the customisation of food supplements to meet individual needs. This shift is redefining the sector, with its full effects being evaluated. The strong trend among leading players in the Health & Beauty sector to outsource the development and production of nutraceutical, pharmaceutical and cosmetic solutions to contract manufacturers continues. Fine Foods & Pharmaceuticals N.T.M. S.p.A. aims to strengthen its competitive position by expanding its market share across its three core business units—Nutra, Pharma, and Cosmetics—enhancing their synergies. The Group's approach will be increasingly customer-oriented, with an evolved and integrated service model that provides long-term strategic support, formulation innovation and distinctive expertise along the value chain in the Health & Beauty sectors. The Group keeps monitoring opportunities for external growth to enhance diversification in pharmaceutical forms and packing solutions.

The Nutra BU will keep focusing on quality, innovation and development of high value-added services to support customers. Following excellent results achieved in Q4 2024, a moderation in growth is expected between the end of 2025 and early 2026, consistent with the market dynamics described above. The expansion plan remains on track. It will increase production capacity and develop new forms and technologies to enhance the product range and sustain future growth.

The fast-growing Pharma Business Unit will remain focused throughout 2025 on managing the significant increase in volumes, supported by multi-year agreements with major international customers. The Brembate production site expansion has been completed and successfully passed the AIFA inspection, which renewed Fine Foods' authorisation to manufacture medicines under Good Manufacturing Practice (GMP), extending it to the new facility. Production start-up is confirmed, with revenue expected in 2026.

Following a phase of integration, reorganisation, and optimisation, supported by targeted investments and the strengthening of management with sector experience, the Cosmetics BU continues to deliver positive results. Renaming Euro Cosmetic to Fine Cosmetics accelerated the Cosmetics BU's evolution, supporting innovation and fostering strategic partnerships in the international Beauty and Personal Care industry. For 2025, revenue and margins are expected to continue improving.

While, due to the nature of the business, the Group's revenue growth may not follow a strictly linear pattern from quarter to quarter, or appear uniform in year-on-year quarterly comparisons, the order backlog, existing

multi-year agreements and development pipeline support the expectation of sustained profit growth, backed by an increasingly strong and reliable organisational structure.

The Group, which obtained its EcoVadis Platinum rating for the third consecutive year in 2024, will continue its commitment to sustainability, strengthening its role as a reference partner for its customers, and provide solutions that are increasingly aligned with the growing ESG market expectations.
