

Absolute Software and Prestigio Partner to Deliver Persistence Technology

Global manufacturer to integrate Absolute technology in its mobile device platform

VANCOUVER, March 26, 2015 /CNW/ - **Absolute® Software Corporation** (TSX: ABT), the industry standard for persistent endpoint security and management solutions for computers, laptops, tablets and smartphones, today announced a partnership with Prestigio, a global manufacturer of mobile devices.

With this partnership, Persistence® technology by Absolute Software will be embedded in the firmware of Prestigio devices at the factory, with an initial focus on the Prestigio MultiPad Windows 8 tablets. This will allow Prestigio customers to maintain a persistent connection with all of their endpoints for unmatched mobile device security, regardless of user or location.

"Persistence technology brings significant security capabilities to our platform and customers, as we expand our brand across emerging markets in Europe," said Marek Horyl, General Manager and COO at Prestigio EMEA. "It is important that we provide our customers with devices that are secured using Absolute's innovative technology so they can confidently protect their mobile devices and the sensitive data they contain."

"Prestigio has made a name for itself by delivering high-quality Windows tablet solutions into new markets," said Mark Grace, Vice President, Worldwide OEM and Business Development, Channel, at Absolute. "We look forward to helping Prestigio further expand across key markets in Europe, and are excited about the shared growth opportunities their global customer base represents."

About Absolute Software

Absolute Software Corporation (TSX: ABT) is the industry standard in persistent endpoint security and management for computers, laptops, tablets and smartphones. The Company, a leader in device security and management tracking for 20 years, has 30,000 commercial customers worldwide. Absolute's solutions – Computrace®, Absolute Manage®, Absolute Service, and Absolute LoJack® – provide organizations with actionable intelligence to prove compliance, securely manage BYOD, and deliver comprehensive visibility and control over all of their devices and data. Absolute is positioned on three Gartner, Inc. Magic Quadrants - the Magic Quadrant for Client Management Tools (CMT), the Magic Quadrant for Enterprise Mobility Management (EMM) and the Magic Quadrant for Content-Aware Data Loss Prevention. Absolute is one of only four vendors to be recognized on both the CMT and EMM Magic Quadrants. Absolute persistence technology is embedded in the firmware of computers, notebooks, tablets and smartphones by global leaders, including Acer, ASUS, Dell, Fujitsu, HP, Lenovo, Microsoft, Motion, Panasonic, Samsung, and Toshiba, and the Company has reselling partnerships with these OEMs and others, including Apple.
