BIESSE B.O.D. PRESS RELEASE EXTRACT

 **BIESSE**GROUP

BIESSE PRESS RELEASE

(EXTRACT OCT 30TH)

New forecast

...in view of the results achieved to date (IIIQ 2018) and the global macro-economic outlook, the updated forecast for the current year 2018 is as follows:

consolidated revenues: expected range EURO 730- 740 million

ebitda: expected range EURO 92 – 95 million

positive net financial position: expected range EURO 20/25 million

"Mr. **Stefano Porcellini, Group General Manager** stated that, the results to 30 September are confirmation that Biesse will maintain its virtuous growth trend this year too (estimated revenues of Euro 730-740 million for full year 2018) albeit with a growth rate of about 7%, about 3 percentage points lower than the most recent Plan. The current order intake is further evidence of how global demand is increasingly oriented towards solutions with a high degree of automation, such as cells and integrated production lines. This trend, on the one hand has lifted our backlog to record levels (because of the longer production lead times) but also underlies the more conservative estimates of current revenue (and, consequently, on profitability expectations) for the current year. Although likely to be very positive, it is likely that cash generation will also feel the impact of this trend, as well as the impact of planned investment to upgrade productive capacity to satisfy new trends in demand."
