FOR IMMEDIATE RELEASE TSXV “ESO.X”

COMPLETION OF SASKATCHEWAN PROPERTY AGREEMEMTS
AND $500,000 PRIVATE PLACEMENT FINANCING

Vancouver, British Columbia, March 24, 2005. Essendon Solutions Inc. (the “Company”) is pleased to announce that it has completed a private placement and satisfied obligations under agreements for the acquisition of interests in certain mineral claims located in Northern Saskatchewan, in areas of known uranium and other precious metals mineralization, as initially disclosed in a News Release dated March 3, 2005.

The Company has received $500,000 from the issue 5,000,000 units, each unit consisting of one common share and one warrant, at a price of $0.10 per unit. Each warrant entitles the holder to acquire one common share for a period of two years at a price of $0.20 per share. A finder’s fee, consisting of 795,000 warrants exercisable at $0.15 per share for a period of two years, was issued in connection with the private placement.

The Company has issued 1,200,000 common shares and paid the sum of $300,000 to the members of the Saskatchewan Syndicate in consideration for the acquisition of a 100% interest in 21 non-contiguous mineral claims covering an aggregate of approximately 234,365 acres, subject to a 2.5% gross overriding royalty retained by the members of the Syndicate. The Company also has the right to purchase 1% of the royalty for $1,000,000.

The Company has also issued 100,000 common shares and paid $25,000 to each of three companies (Logan Resources Ltd., International KRL Resources Corp. and Hathor Exploration Limited) pursuant to option agreements to earn a 50% interest in certain non-contiguous mineral claims, which combined cover approximately 92,004 acres. The Company is also committed to spend an aggregate of $1,500,000 on exploration and development of these claims over a period of four years.

These mineral claims are in addition to the Mikwam claims the Company currently holds in the western extension of the Casa Berardi Deformation Zone in the Province of Ontario, for which additional exploration activities are planned. The proceeds of the private placement will be used to fund the cash portion of the consideration payable under the Saskatchewan property agreements, and to fund the initial work programs contemplated by the option agreements. All of the securities are subject to a four month hold period.
