

NEWS RELEASE

NEUTRISCI ANNOUNCES OTCQB LISTING

Vancouver, British Columbia – March 6, 2017 – NeutriSci International Inc. (the "Company" or "NeutriSci") (TSX-V: NU, OTCQB: NRXCF, Frankfurt-1N9) is pleased to announce that it has commenced trading on the OTCQB Marketplace under the symbol NRXCF.

NeutriSci President, Glen Rehman commented, "We are pleased to have been added to the OTCQB Marketplace. The Company's common shares are now trading on three international platforms: TSX Venture (Canada), OTCQB (USA) and Frankfurt (Germany). Given the progress that the Company is making with the retail distribution of its energy supplement, neuenergy, and with its work on the neuenergy-CBD product that is being developed in partnership with Lexaria Bioscience, we believe that this most recent US listing will create greater visibility with US investors, allowing a much larger potential shareholder base and enhanced liquidity."

The Company also announces that Arlene Dickinson has resigned as a director of the Company to focus on other endeavours. The Company thanks Arlene for her valuable marketing contributions to NeutriSci.
