Drill results – Ox Lake.

**Item 5. Full Description of Material Change**

Vancouver, British Columbia: Gold Reach Resources Ltd. ([GRH: TSX-V](#)) ("Gold Reach" or the "Company") announces that the Phase 1 drill program on the Ox Lake claims is now complete. This program was designed to confirm and expand upon the historic Ox Lake resource. See News Release dated: [January 16<sup>th</sup> 2007](#).

A total of 12 holes comprising of 2380 metres were drilled. All holes intersected significant sulphide mineralization consisting of pyrite, chalcopyrite, and molybdenum with extensive microfracturing.

A map showing the location of this drill program can be viewed at the Company's website.

Location Map: [Ox Lake drill program map](#).

All drill core has been submitted for analysis with Assayers of Canada with results expected near the end of March.

Due to weather and ground conditions, the company could not drill test the extension of the Seel Breccia Zone and will wait until after spring breakup.
