For every 6 shares of Global Pacific, shareholders of that company received 6 shares of UNIREX Technologies, Inc. and 1 share of the Issuer. The Issuer was listed and called for trading on the

CDNX April 23, 2001.

Item 5. Full Description of Material Change

Supplement the summary required under Item 4 with the disclosure which should be sufficiently complete to enable a reader to appreciate the significance of the material change without reference to other material. Management is in the best position to determine what facts are significant and must disclose those facts in a meaningful manner. See also Item 7.

This description of the significant facts relating to the material change will therefore include some conditions, description of any assets, liabilities or capital affected, purpose, financial or dollar values, reasons for the change, and a general comment on the probable impact on the financial forecasts would not normally be required to comply with this form.

The above list merely describes examples of some of the facts which may be significant. The list is not intended to be inclusive or exhaustive of the information required in any particular situation:

UNIREX Technologies Inc. ("UT") (formerly "Global-Pacific Minerals Inc." - (GPJ-T) "Global-Pacific") announced that it has completed its Arrangement, as previously approved by shareholders, with its former subsidiary Pacific Minerals Inc. ("Pacific") and with UNIREX, Inc. ("UNIREX"), a private Alabama company.

Pursuant to the Arrangement, Global-Pacific acquired all of the shares of UNIREX in exchange for 42,350,496 Global-Pacific shares, continued to Wyoming and changed Global-Pacific's name to UNIREX Technologies, Inc. ("UT"). UNIREX is now a wholly-owned subsidiary of UT. Shareholders of UNIREX own approximately 55% of the shares of UT with the former Global-Pacific shareholders holding approximately 45%. A total of 79,234,234 UT shares are outstanding with 43,168,793 shares subject to escrow requirements of the CDNX. A finders' fee of 500,000 shares was issued on completion of the Arrangement. UT has received conditional approval from the Canadian Venture Exchange Inc. ("CDNX") to list its shares on the CDNX under the symbol "UT". The CDNX has advised that UT's shares will commence trading on the CDNX effective on the opening April 23, 2001.

At the close of business on April 20, 2001, the shares of Global-Pacific (now UT) will be suspended from trading on the TSE, which will enable UT to seek reinstatement upon meeting TSE original listing requirements.

Also pursuant to the Arrangement, Global-Pacific transferred its mineral assets and some cash to Pacific and Pacific issued 6,063,956 shares of Pacific to Global Pacific on the basis of one Pacific share for every six Global-Pacific shares outstanding. These Pacific Shares are being distributed to Global Pacific shareholders. Pacific has received conditional approval from the Canadian Venture Exchange Inc. ("CDNX") to list its shares on the CDNX under the symbol "PMZ". The CDNX has advised

that Pacific's shares will commence trading on the CDNX effective on the opening April 23, 2001.

Shareholders of the former Global-Pacific will be receiving Letters of Transmittal advising them how to exchange their shares of Global-Pacific for shares of UT and Pacific. For each six shares held in Global-Pacific, shareholders will receive six shares of UT and one share of Pacific.

Global-Pacific was a gold-base metal mining company engaged in mining, exploration and development in the People's Republic of China. These operations have, pursuant to the Arrangement, been transferred to Pacific. Pacific now operates the Hucan copper/gold mine and receives royalties from the Qian Chang iron/gold/copper mine, both of which are located in Anhui Province, China.

In certain circumstances where a material change has occurred and a material change report has been or is about to be filed but Section 85 of the Act will no longer or will not be relied upon, a reporting issuer may nevertheless believe one or more significant facts otherwise required to be disclosed in the material change report should remain in confidential and not be disclosed or not be disclosed in full detail in the material change report.
