## Excess Cash Flows and Net Earnings Over Distributions Paid

The following table presents excess cash flows from operating activities and net earnings over distributions paid for the three and six months ended June 30, 2016 and for the years ended December 31, 2015 and December 31, 2014.

(\$'000)	<u>Three months ended</u>		<u>Six months ended</u>		<u>Year ended</u>	
	June 30, 2016		June 30, 2016		December 31, 2015	
Cash flows from operating activities	\$	23,363	\$	35,731	\$	161,974
Net (loss) earnings		(17,567)		11,219		(47,590)
Distributions paid during period		20,721		41,442		82,640
Excess (shortfall) of cash flows from operating activities over cash distributions paid		2,642		(5,711)		79,334
Shortfall of net earnings over cash distributions paid		(38,288)		(30,223)		(130,230)

Chemtrade considers the amount of cash generated by the business in determining the amount of distributions available for payment to its Unitholders. In general, Chemtrade does not take into account quarterly working capital fluctuations as these tend to be temporary in nature. Chemtrade does not generally consider net earnings in setting the level of distributions as this is a non-cash metric and is not reflective of the level of cash flow that Chemtrade can generate. This divergence is particularly relevant for Chemtrade as it has a relatively high level of depreciation and amortization expenses, foreign exchange gains and losses, and deferred tax expenses and recoveries.

For the six months ended June 30, 2016, distributions to Unitholders exceeded cash flows from operating activities mainly due to an increase in working capital during the period. Chemtrade maintains a revolving credit facility to manage the effects of temporary fluctuations in working capital.

### Distributions -

Distributions to Unitholders for the three and six months ended June 30, 2016 were declared as follows:

<u>Record Date</u>	<u>Payment Date</u>	<u>Distribution Per Unit</u>	<u>Total (\$'000)</u>
Three months ended June 30:			
April 29, 2016	May 31, 2016	\$ 0.10	\$ 6,907
May 31, 2016	June 30, 2016	0.10	6,907
June 30, 2016	July 29, 2016	0.10	6,907
Sub-Total		\$ 0.30	\$ 20,721
Three months ended March 31, 2016		\$ 0.30	\$ 20,721
Total for the six months ended June 30, 2016		\$ 0.60	\$ 41,442

Distributions to Unitholders for the three and six months ended June 30, 2015 were declared as follows:

<b>Record Date</b>	<b>Payment Date</b>	<b>Distribution Per Unit</b>	<b>Total (\$'000)</b>
Three months ended June 30:			
April 30, 2015	May 29, 2015	\$ 0.10	\$ 6,894
May 29, 2015	June 30, 2015	0.10	6,900
June 30, 2015	July 31, 2015	0.10	6,903
Sub-Total		\$ 0.30	\$ 20,697
Three months ended March 31, 2015		\$ 0.30	\$ 20,566
Total for the six months ended June 30, 2015		\$ 0.60	\$ 41,263

Treatment of Chemtrade's distributions for Canadian Income Tax purposes for 2015 and 2016 is as follows:

	<b>Other Income</b>	<b>Dividends <sup>(1)</sup></b>	<b>Foreign Non-Business Income</b>	<b>Total</b>
2015	18.3%	17.3%	64.4%	100%
2016 <sup>(2)</sup>	18.5%	16.2%	65.3%	100%

(1) These dividends are not considered to be eligible dividends for Canadian resident Unitholders and therefore not eligible for the enhanced tax credit.

(2) Represents anticipated tax characterization of planned distributions. The actual tax treatment of 2016 distributions will be determined by February 28, 2017.

## **Liquidity and Capital Resources**

The Fund's distributions to Unitholders are sourced entirely from its investments in operating subsidiary companies. The Fund's investments are financed by trust units held by Unitholders, the credit facilities, and the Debentures. The cash flow of Chemtrade is required to fund cash distributions to Unitholders, capital requirements, interest, general corporate purposes and other legal obligations.

### Cash Flow from Operating Activities

Cash flow from operating activities for the second quarter of 2016 was an inflow of \$23.4 million, a decrease of \$22.7 million from the second quarter of 2015. This decrease is mainly due to a large payment made during the second quarter of 2016 related to a previous acquisition. Cash flow from operating activities for the first six months of 2016 was an inflow of \$35.7 million compared with an inflow of \$25.7 million during the first six months of 2015. The increase in cash flow from operating activities in the first half of 2016 compared with the first half of 2015 is primarily due to lower income taxes paid, partially offset by fluctuations in working capital.

### Investing Activities

On January 16, 2015, Chemtrade completed the purchase of the operating assets of HTL. Refer to the consolidated financial statements of Chemtrade for the year ended December 31, 2015 for details.

Capital expenditures were \$10.6 million in the second quarter of 2016 compared with \$10.7 million in the second quarter of 2015. These amounts include \$8.7 million in the second quarter of 2016 and \$8.2 million in the second

quarter of 2015 for maintenance capital requirements. Investment in capital expenditures was \$18.0 million for the first six months of 2016, compared with \$17.4 million for the first six months of 2015. These amounts include \$13.6 million in the first six months of 2016 and \$11.9 million in the first six months of 2015 for maintenance capital requirements. Chemtrade expects to incur less than \$50.0 million of maintenance capital expenditures in 2016.

Non-maintenance capital expenditures were \$1.9 million during the second quarter of 2016 compared with \$2.5 million during the second quarter of 2015. Investment in non-maintenance capital expenditures was \$4.4 million during the first six months of 2016 compared with \$5.5 million during the first six months of 2015. Non-maintenance capital expenditures are: (i) pre-funded, usually as part of a significant acquisition and related financing; (ii) considered to expand or improve the capacity of Chemtrade's operations; (iii) significant environmental capital expenditures that are considered to be non-recurring; or (iv) capital expenditures to be reimbursed by a third party.

### Financing Activities

At June 30, 2016, Chemtrade's credit facilities are comprised of a \$558.0 million (US\$432.0 million) five year term loan and a \$645.9 million (US\$500.0 million) revolving credit facility.

In the first quarter of 2015, Chemtrade modified the terms of its credit facilities to extend the maturity date. Chemtrade incurred \$1.0 million of costs related to this amendment. These costs have been deferred and are being amortized to finance costs in comprehensive income using the effective interest method.

There was a net increase of \$15.2 million and net decrease of \$19.5 million in the revolving portion of the credit facilities during the second quarter of 2016 and 2015, respectively. During the first six months of 2016 and 2015, there was a net increase in the revolving portion of the credit facilities of \$32.0 million and \$66.7 million, respectively.

Distributions to Unitholders during the three and six months ended June 30, 2016 were higher than the same periods of 2015 due to units issued on the conversion of Debentures during the subsequent quarters of 2015, while the distribution per unit remained the same. For additional information on cash distributions, see **Non-IFRS Measures - Cash Flow** and **Excess Cash Flows and Net Earnings Over Distributions Paid**.

### *Financial Instruments -*

In March 2014, Chemtrade entered into swap arrangements with its principal bankers, which fix the LIBOR components of its interest rates on US\$325.0 million of its outstanding long-term debt until January 2019. These swaps have been formally designated as hedges at the date of inception. All changes in the fair value of the swap arrangements have been recorded in other comprehensive income in the consolidated statements of comprehensive income.

During the first quarter of 2015, Chemtrade hedged its investment in foreign operations that use the U.S. dollar as their functional currency with its U.S. dollar-denominated long-term debt. Any gains and losses arising from the U.S. dollar-denominated debt will be offset by the foreign currency gain or loss arising from the investment in the foreign operations. The gains and losses on the translation of the designated amount of U.S. dollar-denominated debt and investment in foreign operations are being recognized in other comprehensive income.

### *Cash Balances -*

At June 30, 2016, Chemtrade had net cash balances of \$10.7 million and working capital of \$61.1 million. Comparable figures for December 31, 2015 were \$8.0 million and working capital of \$15.5 million, respectively. Chemtrade defines working capital to exclude cash, distributions payable and current portion of long-term debt and Debentures. Cash generated by Chemtrade will be used to fund cash distributions to Unitholders, capital requirements, interest, general corporate purposes and other legal obligations.

### *Future Liquidity -*

The future liquidity of Chemtrade is primarily dependent on cash flows of its operating subsidiaries. These cash flows will be used to finance ongoing expenditures, including maintenance capital, distributions to Unitholders and normal course financial commitments. Cash flows are sensitive to changes in volume, sales prices and input costs and any changes in these may impact future liquidity. Management believes that cash flows from operating activities will be sufficient for Chemtrade to meet future obligations and commitments that arise in the normal course of business activities. In addition, Chemtrade has revolving credit facilities which can be used for general corporate purposes, including to fund capital expenditures. See *Capital Resources* below for more details.

### *Capital Resources -*

At June 30, 2016, Chemtrade had credit facilities of approximately \$1.2 billion (US\$932.0 million), consisting of a term loan of \$558.0 million (US\$432.0 million) and a revolving credit facility of \$645.9 million (US\$500.0 million). These credit facilities are due in October 2020. At June 30, 2016, Chemtrade had \$558.0 million (US\$432.0 million) of its term loan outstanding, had drawn \$49.4 million on its revolving credit facility, and committed a total of \$21.9 million of its revolving credit facility towards standby letters of credit.

At June 30, 2016, Chemtrade had a long-term loan of \$13.5 million related to its facilities located at Syncrude's Mildred Lake oil sands facility in Alberta. The loan is secured by the assets at this facility. The loan bears interest at a fixed rate of 7.3% per annum with monthly principal repayments due until December 2019.

At June 30, 2016, Chemtrade had three series of Debentures outstanding with an aggregate par value of \$235.1 million (market value of \$241.6 million) and maturity dates ranging from March 31, 2017 to June 30, 2021.

### *Debt Covenants -*

As at June 30, 2016, Chemtrade was compliant with all debt covenants contained in its credit agreements.

## Summary of Quarterly Results

(\$ millions)	Q2 2016	Q1 2016	Q4 2015	Q3 2015	Q2 2015	Q1 2015	Q4 2014	Q3 2014

In general, seasonality has had a limited impact on financial results. Below are some of the key items that had a significant impact on financial results over the last eight quarters.

### Revenue and Gross Profit

Beginning in the first quarter of 2015, results include the positive impact of the strengthening U.S. dollar relative to the Canadian dollar. Gross profit was lower in the fourth quarter of 2014 due to the amortization of certain intangible assets acquired as part of the acquisition of General Chemical that had a useful life of approximately one year. Gross profit was also lower in the fourth quarter of 2015 due to an \$88.7 million impairment loss on goodwill and \$7.4 million write-down of certain assets. Gross profit was lower in the second quarter of 2016 due to a \$55.7 million write-down of certain assets and a \$3.1 million impairment of intangible assets (see **Loss on Write-Down of Assets and Intangible Asset Impairment**).

### Selling and Administrative Expenses

In 2014, selling and administrative expenses include unrealized foreign exchange gains and losses resulting from the translation of the U.S. dollar-denominated borrowings on a portion of the credit facilities. The amount recognized in

a quarter depends upon changes in the U.S. dollar exchange rate in that quarter. Chemtrade also has non-Canadian operating subsidiaries that use the U.S. dollar as their functional currency. Any gains or losses arising from the translation of the assets and liabilities of these foreign subsidiaries are recorded in other comprehensive income. Beginning in the first quarter of 2015, Chemtrade hedged its investment in U.S. foreign subsidiaries with its U.S. dollar-denominated borrowings. As a result, the translation of the U.S. dollar-denominated borrowings are being recognized in other comprehensive income.

The change in fair value of Chemtrade's LTIP obligation is also included in selling and administrative expenses. The amount of the expense recorded in any quarter depends on changes in the various factors used in arriving at the fair value of the obligation.

Other selling and administrative expenses during the fourth quarter of 2014 were low as they included settlement gains of \$10.2 million associated with changes made to certain of Chemtrade's post-employment benefit plans. Expenses during the third quarter of 2015 were low as they included a \$4.1 million gain on settlement of litigation related to the acquisition of Marsulex in 2011.

#### Net Finance Costs

Net finance costs include changes in the fair value of Chemtrade's Debentures. The amount recorded in any quarter related to the fair value adjustments on the Debentures fluctuates depending upon the market value of the Debentures at the end of the period. The primary component of other net finance costs is interest from Chemtrade's credit facilities and Debentures.

The third and fourth quarters of 2014 include debt extinguishment costs resulting from the repayment of the former credit facilities.

#### Income Taxes

Income tax recoveries were high in the fourth quarters of 2014 and 2015 primarily due to higher net losses incurred during these quarters. The income tax recovery in the first quarter of 2016 was high primarily due to the reversal of certain deferred tax liabilities due to the change in value of the U.S. dollar relative to the Canadian dollar. The income tax recovery in the second quarter of 2016 was high primarily due to the reversal of certain deferred tax liabilities related to the write-down and impairment of assets (see **Loss on Write-Down of Assets and Intangible Asset Impairment**).

#### Discontinued Operations

Discontinued operations represents the Montreal East business which was sold in the third quarter of 2014. The net earnings in the third quarter of 2014 was primarily due to the recognition of \$9.4 million of accounts receivable into revenues upon sale of the Montreal East business pursuant to an agreement with a previous customer of this business. Additionally, an after tax gain of \$7.7 million was realized upon sale of the business.

## Outstanding Securities of the Fund

As at August 10, 2016 and June 30, 2016, the following common units and securities convertible into units were issued and outstanding:

	August 10, 2016		June 30, 2016	
	Convertible Securities	Units	Convertible Securities	Units
<b>Common units outstanding</b>		<b>69,074,475</b>		<b>69,073,975</b>
<b>6.0% Debentures <sup>(1)</sup></b>	<b>28,930</b>	<b>1,808,125</b>	<b>28,938</b>	<b>1,808,625</b>
<b>5.75% Debentures <sup>(2)</sup></b>	<b>79,637</b>	<b>3,981,850</b>	<b>79,637</b>	<b>3,981,850</b>

## Risks and Uncertainties

Chemtrade operates a diversified business providing industrial chemicals and services to customers in North America and around the world. Chemtrade is one of North America's largest suppliers of sulphuric acid, inorganic coagulants for water treatment, liquid sulphur dioxide, sodium nitrite, sodium hydrosulphite and phosphorus pentasulphide. Chemtrade is a leading processor of spent acid as well as a leading regional supplier of sulphur, sodium chlorate, potassium chloride and zinc oxide. Additionally, Chemtrade provides industrial services such as processing hydrogen sulphide and other by-products and waste streams. Chemtrade faces various risks associated with its business. These risks include, amongst others, a general reduction in demand for its products, the loss of a portion of its customer base, the interruption of the supply of products or raw materials, price fluctuations in the products sold and/or raw materials purchased, industry capacity, acquisition integration and operational, transportation and product hazard risks associated with the nature of its business. Chemtrade imports key raw materials and products from overseas and as such has

additional risks associated with the sourcing activity. Chemtrade makes extensive use of the railway system to transport material within North America. Certain locations are serviced by a sole carrier and thus a disruption in service or changes to the regulatory environment relating to transportation could have a significant negative impact on results. In addition, Chemtrade sells a significant portion of its major products to large customers. While many of these customers are under contract, there can be no assurance that these contracts will be renewed. As Chemtrade's business is international in nature, it is exposed to foreign exchange risks related to the payment of dividends and other transactions by its foreign subsidiaries. For a more detailed discussion of Chemtrade's risks, please refer to the "RISK FACTORS" section of the most recently filed Annual Information Form.

Chemtrade manages the risks associated with its customer base and sales prices by seeking to obtain contractual protection to mitigate these risks. Chemtrade also seeks to differentiate its products and services with customers to mitigate price fluctuations and uses its scale to obtain beneficial raw material contracts.

Chemtrade's Board of Trustees periodically reviews a framework identifying the principal risks of Chemtrade's business, and ensures the implementation of appropriate systems to manage these risks. The Audit Committee reviews major operations and financial risks, the systems implemented to monitor those risks and the strategies in place to manage those risks. In addition, Chemtrade maintains an extensive insurance program which includes general liability and environmental coverage.

There are a number of risks that warrant additional disclosure which are discussed in detail in the MD&A for the year ended December 31, 2015. There have been no material changes to the business of Chemtrade that require an update to the discussion of these risks except as noted below.

On June 30, 2016, Fibrant publicly announced plans to close its Augusta, Georgia caprolactam operations. Chemtrade operates a facility in Augusta that supplies sulphuric acid products to this Fibrant facility. Fibrant announced that it will execute a gradual wind down of its operations over a period of 16 months (see **Loss on Write-Down of Assets and Intangible Asset Impairment**).

### **Critical Judgements and Sources of Estimation Uncertainty**

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

#### *Key Sources of Estimation Uncertainty -*

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are discussed in detail in the MD&A for the year ended December 31, 2015. There have been no material changes to the business of Chemtrade that require an update to the discussion of these sources of estimation uncertainty.

## **IFRS Standards and Interpretations Not Yet Adopted**

For information regarding IFRS standards and interpretations not yet adopted, refer to note 3(p) of the audited consolidated financial statements of Chemtrade for the year ended December 31, 2015.

## **Disclosure Controls and Procedures and Internal Controls Over Financial Reporting**

Chemtrade maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed in the reports that the Fund publicly files is recorded, processed, summarized and reported within a timely manner and that such information is accumulated and communicated to Chemtrade's Management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure. The Chief Executive Officer and the Chief Financial Officer have evaluated Chemtrade's disclosure controls procedures as of June 30, 2016 through inquiry and review.

Chemtrade also maintains a system of internal controls over financial reporting designed under the supervision of Chemtrade's Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

Chemtrade's Management, including the Chief Executive Officer and the Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting and evaluating its effectiveness. Management has used The Committee of Sponsoring Organizations of the Treadway Commission ("COSO") framework (2013) to evaluate the effectiveness of Chemtrade's internal control over financial reporting as of June 30, 2016. There have been no changes to the design of internal controls over financial reporting that occurred during the quarter ended June 30, 2016 that have materially affected or are reasonably likely to materially affect the internal controls over financial reporting.

## **Outlook**

We remain confident that our portfolio of businesses, business model and our strong balance sheet will allow us to comfortably sustain our distributions and increase our financial flexibility by reducing leverage levels.

## **Other**

Additional information concerning Chemtrade, including the Annual Information Form, is filed on SEDAR and can be accessed at [www.sedar.com](http://www.sedar.com).

# CHEMTRADE LOGISTICS INCOME FUND

Notes to Condensed Consolidated Interim Financial Statements  
(In thousands of Canadian dollars, except per unit amounts)  
(Unaudited)

Three and six months ended June 30, 2016 and 2015

---

## 1. CORPORATE INFORMATION:

Chemtrade Logistics Income Fund ("Chemtrade") is a publicly listed Income Trust formed in Ontario, Canada and its units are listed on the Toronto Stock Exchange ("TSX"). Chemtrade commenced operations on July 18, 2001 when it completed an initial public offering. Chemtrade operates in four business segments: Sulphur Products & Performance Chemicals ("SPPC"), Water Solutions & Specialty Chemicals ("WSSC"), International ("Intl") and Corporate ("Corp"). For additional information regarding Chemtrade's business segments, see note 14.

Chemtrade is an entity domiciled in Canada. The head office, principal address, and registered and records office of Chemtrade are located at 155 Gordon Baker Road, Suite 300, Toronto, Ontario, M2H 3N5.

Chemtrade's condensed consolidated interim financial statements include all of its controlled subsidiaries and have been prepared on a going concern basis, which contemplates the realization of assets and settlements of liabilities in the normal course of business.

## 2. BASIS OF PREPARATION:

### (a) Statement of compliance:

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, using the same accounting policies and standards as were used for Chemtrade's 2015 annual consolidated financial statements.

These condensed consolidated interim financial statements should be read in conjunction with Chemtrade's 2015 annual consolidated financial statements.

The condensed consolidated interim financial statements were authorized for issue by the Board of Trustees on August 11, 2016.

# CHEMTRADE LOGISTICS INCOME FUND

Notes to Condensed Consolidated Interim Financial Statements  
(In thousands of Canadian dollars, except per unit amounts)  
(Unaudited)

Three and six months ended June 30, 2016 and 2015

---

## 2. BASIS OF PREPARATION (continued):

### (b) Basis of measurement:

The condensed consolidated interim financial statements have been prepared on the historical cost basis, except for the following material items in the condensed consolidated interim statements of financial position:

- Derivative financial instruments are measured at fair value;
- Financial instruments at fair value through profit or loss are measured at fair value;
- Liabilities for cash settled share-based payment arrangements are measured at fair value;
- The defined benefit liability is recognized as the fair value of the plan assets and the present value of the defined benefit obligation; and
- Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied to temporary differences when they reverse.

### (c) Presentation currency:

These condensed consolidated interim financial statements are presented in thousands of Canadian dollars, except for net earnings per unit information which is presented in Canadian dollars.

## 3. ACQUISITIONS:

### (a) Hydor-Tech:

On January 16, 2015, Chemtrade completed the purchase of the operating assets of Hydor-Tech Ltd. ("HTL"), an Edmonton-based manufacturer of inorganic coagulants. HTL was a leading western Canadian manufacturer of polyaluminum chloride that is widely used in municipal and industrial water treatment plants. The business combination was structured as an asset acquisition for \$27,645. For details of the final purchase price allocation, refer to Chemtrade's 2015 annual consolidated financial statements.

(In thousands of Canadian dollars, except per unit amounts)  
(Unaudited)

Three and six months ended June 30, 2016 and 2015

---

## 4. SHARE-BASED PAYMENTS:

Chemtrade operates a Long-Term Incentive Plan ("LTIP"), which grants cash awards based on certain criteria. The 2014-2016, 2015-2017, and 2016-2018 LTIP awards have a performance based component and a restricted share unit component. For the 2014-2016 and 2015-2017 LTIP awards, the performance based component is based on total Unitholder return over a performance period, EBITDA growth and total return to Chemtrade's Unitholders relative to the total return on the S&P/TSX Capped Industrial Index. The 2016-2018 LTIP award's performance based component is similar to the 2014-2016 and 2015-2017 LTIP awards except the total return to Chemtrade's Unitholders is measured relative to the total return on the S&P/TSX Dividend Index rather than the S&P/TSX Capped Industrial Index. Total Unitholder return consists of changes in unit price and distributions paid to Unitholders. The restricted share unit component of the LTIP awards is a phantom plan which is payable in cash at the end of the performance period.

As at June 30, 2016, a liability of \$10,485 (December 31, 2015 - \$15,156) has been recorded, of which \$5,484 (December 31, 2015 - \$8,103) is included in trade and other payables and \$5,001 (December 31, 2015 - \$7,053) is included in other long-term liabilities. For the three and six months ended June 30, 2016, Chemtrade recorded an expense of \$1,807 and \$1,969, respectively (2015 - expense of \$2,187 and \$4,777, respectively) in selling and administrative expenses related to the LTIP.

### *Inputs for measurement of fair values*

The fair value of the share-based component of LTIP is measured based on the Monte Carlo sampling method. Base price is the average unit price for the first 20 business days at the beginning of each LTIP performance period. Expected volatility is estimated by considering historic average unit price volatility. The risk-free interest rate is based on Canadian government bonds and Canadian government treasury bills.

# CHEMTRADE LOGISTICS INCOME FUND

Notes to Condensed Consolidated Interim Financial Statements  
(In thousands of Canadian dollars, except per unit amounts)  
(Unaudited)

Three and six months ended June 30, 2016 and 2015

---

## 5. LONG-TERM DEBT (continued):

### (a) Long-term debt:

At June 30, 2016, Chemtrade had senior credit facilities of approximately \$1,203,864 (US\$932,000), consisting of a term loan of \$558,014 (US\$432,000), and a revolving credit facility of \$645,850 (US\$500,000). At June 30, 2016, Chemtrade had drawn \$49,406 (December 31, 2015 - \$15,813) on the revolving credit facility and had committed a total of \$21,851 (December 31, 2015 - \$24,925) of this facility towards standby letters of credit. The credit facilities are secured by all the property, plant and equipment of Chemtrade, excluding the Fort McMurray facility. At June 30, 2016, the weighted average effective interest rate of the facilities is 3.6% (December 31, 2015 - 3.3%).

On March 16, 2015, Chemtrade modified the terms of its credit facilities to extend the maturity by one year. Chemtrade incurred \$955 of costs related to the amendment. These costs have been deferred and are being amortized to finance costs in comprehensive income using the effective interest method.

Chemtrade is subject to certain covenants on its credit facilities, which include a Net Debt to EBITDA ratio (as both terms are defined in the credit agreement) and an interest coverage ratio. Chemtrade monitors these ratios and reports them to its lenders on a quarterly basis. As at June 30, 2016, Chemtrade was in compliance with the covenants.

### (b) Long-term loan - Fort McMurray facility:

The Fort McMurray facility operates processing facilities at Syncrude's Mildred Lake oil sands facility in Alberta. In order to finance a portion of the construction of such facilities, a separate loan secured by the assets was entered into and remains outstanding. This loan bears interest at a fixed rate of 7.3% per annum with monthly principal repayments due until December 2019.

## 6. CONVERTIBLE UNSECURED SUBORDINATED DEBENTURES:

Chemtrade has designated its convertible unsecured subordinated debentures as financial liabilities at fair value through profit or loss. At June 30, 2016, the fair value of all of its convertible unsecured subordinated debentures was \$241,611 (December 31, 2015 - \$240,726). For the three and six months ended June 30, 2016, net finance costs related to these convertible unsecured subordinated debentures were \$6,522 and \$7,417, respectively (2015 - income and costs of \$2,052 and \$9,682, respectively) which included a loss of \$3,299 and \$971, respectively (2015 - gain and loss of \$5,335 and \$3,074, respectively) due to the change in fair value of the convertible unsecured subordinated debentures and interest expense of \$3,223 and \$6,446, respectively (2015 - expense of \$3,283 and \$6,608, respectively).

## 6. CONVERTIBLE UNSECURED SUBORDINATED DEBENTURES (continued):

The convertible unsecured subordinated debentures that bear interest at a rate of 6.0% per annum with a maturity date of March 31, 2017 have been reclassified to current liabilities in 2016.

## 7. UNITS AND OTHER COMPONENTS OF EQUITY:

### (a) Units:

Chemtrade has authorized an unlimited number of units. Chemtrade's units have no par value. The following table presents the number of units outstanding:

	2016		2015	
	Number of Units	Amount	Number of Units	Amount
Units				
Balance – January 1	69,069,226	\$ 1,046,922	68,470,630	\$ 1,034,308
Conversion of unsecured subordinated convertible debentures	4,749	86	558,684	11,828
Balance – June 30	69,073,975	\$ 1,047,008	69,029,314	\$ 1,046,136

### (b) Distributions:

Distributions paid for the three and six months ended June 30, 2016 were \$20,721 and \$41,442, respectively (2015 - \$20,653 and \$41,207, respectively) or \$0.30 and \$0.60 per unit, respectively (2015 - \$0.30 and \$0.60 per unit, respectively). All of Chemtrade's distributions are discretionary and subject to approval by the Board of Trustees.

## 7. UNITS AND OTHER COMPONENTS OF EQUITY (continued):

### (c) Net earnings per unit:

Net earnings per unit has been calculated on the basis of the weighted average number of units outstanding. The following tables provide a breakdown of the numerator and denominator used in the calculation of net earnings per unit, and diluted net earnings per unit:

	<u>Three months ended</u> <u>June 30,</u>		<u>Six months ended</u> <u>June 30,</u>	
	2016	2015	2016	2015
<b>Numerator</b>				
Net (loss) earnings	\$ (17,567)	\$ 22,988	\$ 11,219	\$ 14,033
Net finance costs on convertible unsecured subordinated debentures <sup>(1)</sup>	—	(2,927)	—	—
Diluted net (loss) earnings	\$ (17,567)	\$ 20,061	\$ 11,219	\$ 14,033

<sup>(1)</sup> For the three and six months ended June 30, 2016, and six months ended June 30, 2015, the potential conversion of the convertible unsecured subordinated debentures has not been included as the effect on net earnings per unit would be anti-dilutive.

	<u>Three months ended</u> <u>June 30,</u>		<u>Six months ended</u> <u>June 30,</u>	
	2016	2015	2016	2015
<b>Denominator</b>				
Weighted average number of units	69,071,369	68,858,553	69,070,298	68,690,031
Weighted average convertible unsecured subordinated debenture dilutive units <sup>(1)</sup>	—	10,523,756	—	—
Weighted average number of diluted units	69,071,369	79,382,309	69,070,298	68,690,031

<sup>(1)</sup> For the three and six months ended June 30, 2016, and six months ended June 30, 2015, the potential conversion of the convertible unsecured subordinated debentures has not been included as the effect on net earnings per unit would be anti-dilutive.

## 10. DEPRECIATION AND AMORTIZATION:

The components of depreciation expense of property, plant and equipment and amortization expense of intangible assets are as follows:

	<u>Three months ended</u> <u>June 30,</u>		<u>Six months ended</u> <u>June 30,</u>	
	2016	2015	2016	2015
<b>Cost of sales and services:</b>				
Depreciation expense	\$ 24,717	\$ 22,331	\$ 50,590	\$ 43,647
Amortization expense	12,123	14,244	24,887	29,055
<b>Selling and administrative expenses:</b>				
Depreciation expense	259	223	458	413
<b>Total depreciation and amortization expense</b>	<b>\$ 37,099</b>	<b>\$ 36,798</b>	<b>\$ 75,935</b>	<b>\$ 73,115</b>

## 11. LOSS ON WRITE-DOWN OF ASSETS AND INTANGIBLE ASSET IMPAIRMENT:

On June 30, 2016, Fibrant LLC ("Fibrant") publicly announced plans to close its Augusta, Georgia caprolactam operations. Chemtrade operates a facility in Augusta that supplies sulphuric acid products to Fibrant's facility. Fibrant announced that it will execute a gradual wind down of its operations over a period of 16 months.

Chemtrade recorded a loss of \$55,691 in the second quarter of 2016 on the write-down of assets associated with its sulphuric acid production facilities in Augusta, Georgia. Due to the closure of Fibrant's operations noted above, the cash flows associated with these specific assets could no longer support their carrying value.

Additionally, the closure of Fibrant's operations in Augusta was considered an indicator of impairment for Chemtrade's customer relationship with Fibrant. As a result, Chemtrade recorded an impairment loss of \$3,143 related to intangible assets in the SPPC segment.

These losses are reflected in cost of sales and services on the statement of comprehensive income.

Three and six months ended June 30, 2016 and 2015

---

## 12. INCOME TAXES:

Chemtrade is a mutual fund trust and a specified investment flow-through trust (“SIFT”) for income tax purposes. Chemtrade is subject to current income taxes at the top marginal tax rate applicable to individuals of approximately 53.5% on all taxable income not distributed to Unitholders. Chemtrade is also subject to current income taxes on all taxable income, other than dividends, earned from Canadian corporate and flow-through subsidiaries (other than Canadian subsidiaries that earn certain investment income) at a tax rate similar to the corporate tax rate. Chemtrade will not be subject to tax on income received from non-Canadian subsidiaries, provided that the income is distributed to Unitholders during the year. Based on the current organization of Chemtrade and its subsidiaries, Chemtrade expects that its income distributed to Unitholders will not be subject to SIFT tax.

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim period. Chemtrade calculates the consolidated estimated effective annual tax rate by determining the amount of current and deferred income taxes as a percentage of income before tax. Chemtrade's consolidated estimated effective tax rate in respect of continuing operations for the three and six months ended June 30, 2016 was 64.2% and 138.0% (2015 - negative 28.4% and 50.4%, respectively), compared to a statutory rate of 26.4% (2015 - 26.4%).

The effective tax rate for the second quarter and first six months of 2016 differs from the statutory tax rate primarily due to losses incurred in a jurisdiction with a higher tax rate, partially offset by the deduction of taxable income distributed to Unitholders.

In 2014, Chemtrade acquired an income tax payable balance as part of the acquisition of General Chemical Holding Company. This balance was partially paid in 2015 with the remainder under further examination by the appropriate tax authorities. During the second quarter of 2016, \$21,319 of the balance was no longer deemed to be an income tax liability. Pursuant to the purchase agreement, this balance was reclassified to trade and other payables as an amount to be returned to the vendor of the business and \$15,387 was paid during the second quarter of 2016. There were no amounts recognized in the statement of comprehensive income related to this transaction.

## 13. FINANCIAL INSTRUMENTS:

### (a) Derivatives and hedging:

	June 30, 2016			December 31, 2015		
	Notional Amount	Fair Value		Notional Amount	Fair Value	
		Asset	Liability		Asset	Liability
<b>Derivatives designated in a formal hedging relationship</b>						
Interest rate swaps	US\$ 325,000	\$ —	\$ 10,416	US\$ 325,000	\$ —	\$ 5,012
<b>Derivatives not designated in a formal hedging relationship</b>						
Foreign exchange contracts <sup>(1)</sup>	\$ —	\$ 27	\$ 85	\$ —	\$ 8	\$ 246
Commodity forward contracts <sup>(2)</sup>	N/A	—	—	N/A	162	162
<b>Total</b>		\$ 27	\$ 10,501		\$ 170	\$ 5,420

<sup>(1)</sup> See below for notional amounts.

<sup>(2)</sup> Includes commitments to buy and sell commodities and commodity forward contracts related to those commitments.

On June 30, 2016, Chemtrade had swap arrangements with its principal bankers which fixed the LIBOR components of its interest rates on US\$325,000 of its outstanding long-term debt until January 2019. These swaps are formally designated as cash flow hedges at the date of inception and any changes in the fair value of the effective portion of the swaps are recognized in other comprehensive income.

On January 1, 2015, Chemtrade hedged its investment in foreign operations that use the U.S. dollar as their functional currency by Chemtrade's U.S. dollar-denominated long-term debt. Any foreign currency gains and losses arising from the U.S. dollar-denominated debt will be offset by the foreign currency gain or loss arising from the investment in the foreign operations. The gains and losses on the foreign currency translation of the designated amount of U.S. dollar-denominated debt and investment in foreign operations are being recognized in other comprehensive income. For the three and six months ended June 30, 2016, a foreign exchange gain of \$1,074 and \$14,969, respectively (2015 - gain and loss of \$3,195 and \$14,406, respectively) on the revaluation of the U.S. dollar-denominated debt was recognized in other comprehensive income.

(Unaudited)

Three and six months ended June 30, 2016 and 2015

---

## 13. FINANCIAL INSTRUMENTS (continued):

Chemtrade has entered into foreign exchange contracts to manage certain of its exposures to foreign currencies. Chemtrade buys and sells specific amounts of currencies at pre-determined dates and exchange rates, which are matched with the anticipated operational cash flows. Contracts in place at June 30, 2016 include future contracts to sell the following amounts for periods through to January 2017:

Amount	Weighted average exchange rate
US\$1,660	€0.89
US\$312	SEK8.08
€5,368	US\$1.11

Chemtrade's Intl business segment has commitments to buy and sell commodities and has entered into commodity forward contracts to manage its exposure to commodity price changes.

The commitments to buy and sell commodities are treated as derivatives and are measured at fair value. The commodity forward contracts are derivatives and are measured at fair value.

### (b) Fair values of financial instruments:

Fair value is the value that would be agreed upon in an arm's length transaction between willing and knowledgeable counter-parties. The carrying amounts of cash and cash equivalents, trade and other receivables, trade and other payables and distributions payable approximate their fair values because of the short-term maturity of these financial instruments. The carrying amount of restricted cash, long-term receivables, and the note receivable approximates their fair value. The carrying amount of long-term debt, excluding transaction costs, approximates fair value as the debt accrues interest at prevailing market rates.

(Unaudited)

Three and six months ended June 30, 2016 and 2015

---

## 13. FINANCIAL INSTRUMENTS (continued):

For fair value estimates relating to the convertible unsecured subordinated debentures and derivatives, Chemtrade classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

*Level 1* - Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.

*Level 2* - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

*Level 3* - Significant unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The convertible unsecured subordinated debentures are classified within Level 1 because the convertible unsecured subordinated debentures actively trade on the TSX and the fair value is based on the quoted prices on the TSX. Any changes in the fair value of the convertible unsecured subordinated debentures are recognized in net earnings.

All of Chemtrade's derivative financial instruments are classified within Level 2 because they are based on rates quoted by banks and other public data sources. These derivatives are recorded in prepaid expenses, and trade and other payables on the statements of financial position.

The fair value of the foreign exchange contracts is the difference between the forward exchange rate and the contract rate. Any changes in the fair value of these contracts are recognized in net earnings.

The fair value of the interest rate swap arrangements is the difference between the forward interest rates and the contract rates discounted. The liability is recorded in other long-term liabilities in the statements of financial position. Any changes in the fair value of these arrangements are recognized in other comprehensive income.

## 14. BUSINESS SEGMENTS:

Chemtrade operates in four reportable segments: SPPC, WSSC, Intl and Corp. The reportable segments of Chemtrade are strategic business groups that offer products and services to target markets, as described below. The accounting policies applied by the segments are the same as those applied by Chemtrade.

SPPC markets, removes and/or produces merchant, regenerated and ultra pure sulphuric acid, liquid sulphur dioxide, sodium hydrosulphite, elemental sulphur, hydrogen sulphide, and sodium bisulphite, and provides other processing services. These products are marketed primarily to North American customers.

WSSC manufactures and markets a variety of inorganic coagulants used in water treatment, including aluminum sulphate, aluminum chlorohydrate, polyaluminum chloride, and ferric sulphate; and a number of specialty chemicals, including sodium chlorate, sodium nitrite, potassium chloride, phosphorus pentasulphide, vaccine adjuvants, and sulphides. These products are marketed primarily to North American customers.

Intl provides removal and marketing services for elemental sulphur and sulphuric acid. These products are marketed to customers in Europe, the Mediterranean, North Africa, Central and South America, North America, as well as in the Pacific region.

Corp is a non-operating segment that provides centralized services, such as treasury, finance, information technology, human resources, legal and risk management, and environmental, health and safety support.
