

FORM 51-102F3
MATERIAL CHANGE REPORT

1. Name and Address of Company

Menu Foods Income Fund (“Menu Foods”)
8 Falconer Drive
Streetsville, Ontario
L5N 1B1

2. Date of Material Change

April 26 and May 2, 2007

3. News Release

On April 26, 2007, a news release was issued and disseminated through CCNMatthews with respect to a material change. See Schedule “A” attached hereto. On May 2, 2007, a news release was issued and disseminated through CCNMatthews with respect to a related material change; an amendment to the May 2, 2007 news release was issued and disseminated through CCNMatthews on May 3, 2007. See Schedules “B” and “C” attached hereto.

4. Summary of Material Change

On April 26, 2007, the U.S. Food & Drug Administration conducted a search of Menu Foods’ plant in Emporia, Kansas. Menu Foods has been advised by the U.S. Attorney’s Office for the District of Kansas that it is the target of a misdemeanour investigation into whether the *Food, Drug & Cosmetic Act* has been violated. Also on April 26, 2007, Menu Foods was advised by the United States Attorney’s Office for the Western District of Missouri that that office has commenced a similar investigation focused on Menu Foods and ChemNutra. Menu Foods is one of several businesses affected by the wrongful addition of melamine to Chinese wheat gluten sold in the United States. Wheat gluten containing melamine was furnished to Menu Foods and others by a U.S. supplier, ChemNutra, which obtained it from China.

On May 2, 2007, Menu Foods announced that it has expanded its product recall of wet cat and dog food to include cuts and gravy and select other products which do not include ChemNutra wheat gluten but which were manufactured at any of Menu Foods’ plants during the period that ChemNutra wheat gluten was used at that plant, to the extent they have not already been subject to a recall, due to the possibility of cross-contamination. The recall dates of previously-recalled products have also been modified to include all dates during the period that ChemNutra wheat gluten was used in the applicable plant. Menu estimated that this additional recall represents less than 5% of the products that have already been recalled or withdrawn. Menu has also revised its estimate of the out-of-pocket costs for the total recall to be from \$40 million to \$45 million.

5. Full Description of Material Change

See Schedules “A”, “B” and “C” attached hereto.

6. Reliance on subsection 7.1(2) or (3) of National Instrument 51-102

Not applicable.

7. Omitted Information

None.

8. Executive Officer

The following senior officer of Menu Foods GenPar Limited is knowledgeable about the material change and this report:

Mark Wiens
Tel: 905.826.3870

9. Date of Report

May 3, 2007

SCHEDULE “A”

APRIL 26, 2007

TORONTO, ONTARIO

Attention Business/Financial Editors

The U.S. Food & Drug Administration today conducted a search of Menu Foods’ plant in Emporia, Kansas. Menu Foods has been advised by the U.S. Attorney’s Office for the District of Kansas that Menu Foods is the target of a misdemeanor investigation into whether the Food, Drug & Cosmetic Act has been violated.

“Menu Foods has been doing everything it can to cooperate with the FDA,” said Menu Foods’ CEO Paul Henderson. “Even before commencement of this investigation we have given the FDA full access to our plant and our records, have answered questions and provided documents to them any time they have asked. Throughout this process Menu Foods has worked cooperatively with regulators and others to identify and address issues relating to pet food safety.”

Menu Foods is one of several businesses affected by the wrongful addition of melamine to Chinese wheat gluten sold in the United States. Wheat gluten containing melamine was furnished to Menu Foods and others by a U.S. supplier, ChemNutra, which obtained it from China.

Under the U.S. Food, Drug & Cosmetic Act, the sale of any adulterated food may be a misdemeanor, even if the seller did not intend to adulterate the food.

Menu Foods was also advised today by the United States Attorney’s Office for the Western District of Missouri that that office has commenced a similar investigation focused on Menu Foods and ChemNutra.

SCHEDULE "B"

Menu Foods Adds to Recall List

19:44 EDT Wednesday, May 02, 2007

TORONTO, ONTARIO--(CCNMatthews - May 2, 2007) - Menu Foods Income Fund - (TSX:MEW.UN) -

Attention Business/Financial Editors

NOT FOR RELEASE OVER US NEWSWIRE SERVICES

Menu Foods has previously recalled wet cat and dog food produced with adulterated wheat gluten supplied by ChemNutra Inc. Menu Foods is now expanding the recall to include cuts and gravy and select other products which do not include ChemNutra wheat gluten but which were manufactured at any of Menu Foods' plants during the period that ChemNutra wheat gluten was used at that plant, to the extent they have not already been subject to a recall, due to the possibility of cross-contamination. Menu Foods has received a report from a customer and has received study results, both of which indicate cross-contamination.

As a result, Menu advises the public:

- Additional items in the United States and Canada have been added to the recall list as shown below. A further two varieties for Europe have been added to the recall list.

- The recall dates of those products previously recalled have been modified to include all dates during the period that ChemNutra wheat gluten was used in the applicable Menu plant. All of these products, including the expanded dates, have previously been withdrawn from the market and should already be off the retailer shelves.

Menu estimates that this additional recall represents less than 5% of the products that have already been recalled or withdrawn. Menu has also revised its estimate of the out-of-pocket costs for the total recall to be from \$40 million to \$45 million.

An updated list of the recalled products, including this addition, is available at the Menu Foods website at <http://www.menufoods.com>.

Menu Foods Amended Press Release

10:29 EDT Thursday, May 03, 2007

TORONTO, ONTARIO--(CCNMatthews - May 3, 2007) - Menu Foods Income Fund - (TSX:MEW.UN) -

Attention Business/Financial Editors

On May 2 Menu Foods announced that it had expanded its recall of cuts and gravy and select other products. The press release for that expansion identified two Cats Choice products as Best Choice products. This has now been corrected. In addition, date ranges for Cats Choice, Doctors Foster & Smith and Performatrin Ultra have been amended. An amended list is attached below. The number of recalled products is not affected by this announcement.

A complete list of the recalled products is available at the Menu Foods website at <http://www.menufoods.com>.

Cat Food

Look For a Date on The Bottom of Can or Back of Pouch That Falls Within The Below Date Range	Product Description	Size	UPC	Can / Pouch
