**Notice regarding Forward Looking Statements:** This news release contains forward-looking statements. The use of any of the words "anticipate", "continue", "estimate", "expect", "may", "will", "project", "should", "believe" and similar expressions are intended to identify forward-looking statements. Although the Company believes that the expectations and assumptions on which the forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because the Company can give no assurance that they will prove to be correct. This news release includes forward-looking statements with respect to the commercialization of the rights to the eMosquito, Trimeo and Trimtec biomedical technologies. Since forward-looking statements address future events and conditions, by their very nature they involve inherent risks and uncertainties. These statements speak only as of the date of this news release. Actual results could differ materially from those currently anticipated due to a number of factors and risks including various risk factors discussed in the Company's disclosure documents which can be found under the Company's profile on [www.sedar.com](http://www.sedar.com) and the Company's filings to the CSE at [www.cnsx.ca](http://www.cnsx.ca). Such risk factors may cause the inability of the Company to successfully commercialize any of its biomedical technologies.

**Notice regarding investigational devices:** Trimeo, Trimtec, and eMosquito are investigational devices and are not currently available outside of approved clinical trials. Claims regarding the safety and efficacy of these devices have not been evaluated by Health Canada, the U.S. Food and Drug Administration, or any other international regulatory body.
