

COMMUNITY PRESS RELEASE

Uniserve Communications Corporation TSX.V: USS

www.uniserve.com | Corporate Relations: 604-395-3922**Uniserve Enters into Agreement with QCA Systems.**

Vancouver, BC: February 3, 2016 – Uniserve Communications Corporation (“Uniserve” or the “Company”) is pleased to announce that it has entered into a relationship with QCA Systems providing state of the art robust industrial SCADA (supervisory control and data acquisition) network solutions and IT infrastructure for high availability to QCA customers who operate mission critical industrial environments. QCA will offer their customer base access to Uniserve’s new managed services offerings and application delivery systems. This is part of the expanding focus on new service offerings to B2B clients by Uniserve.

QCA Systems is a major port electrical engineering and automation integrator in Vancouver and in the BC mining sector. QCA provides complete turnkey control systems for bulk material handling.

On the heels of this agreement the Company has entered into a 3 year agreement with a mining company to provide backup through our data center as well as managed services which includes a disaster recovery process. As part of this direction the Company has entered into a further agreement with a gold mining company in Nevada to provide architecture and program middleware to facilitate maintenance and analytics on data and inventory management. Uniserve has won these contracts as a result of the team of architects and data administrators which has been put in place over the past 6 months who can deliver solutions on time and under budget.

Uniserve has also signed agreements in two new vertical markets for the company. These markets include hospitality and healthcare. Our suite of products has been identified as value specific in these verticals and uptake has been encouraging.

Uniserve Communications Corporation (TSX-V: USS) is a leader in the integration and delivery of voice and data services over multiple IP networks directly or through wholesale partnerships to businesses and retail consumers throughout Canada. In the B2B sector, Uniserve now offers services ranging from co-location data storage, automatic file backups, a managed service platform, firewalls, security systems, and guaranteed constant internet connectivity, all backed with 24/7 Vancouver based technical support.
