Knick Exploration Inc. (TSXV: KNX) ("Knick")

The company has asked the Investment Industry Regulatory Organization of Canada (IIROC) for increased surveillance on the ongoing transaction trading of the company Knick Exploration Inc. (TSXV: KNX).

Over the last 6 months, trading has reached 50M shares plus and in the course of the last 2 months 33 million shares plus have traded. This is unprecedented for the company, we feel confident that the trading is above board however the request for increased surveillance is a precautionary measure considering the potential for computer assisted market manipulation of the current times.
