Cascadero Copper Appoints Investor Relations Group

APRIL 4th 2011

VANCOUVER, BRITISH COLUMBIA – Cascadero Copper Corporation (the "Company" or "Cascadero") wishes to announce the appointment of AJF Consultants Ltd. (AJF) to provide investor relations and shareholder communications services with a focus on retail distribution.

AJF is a consulting company, which assists public companies with communication, marketing experience and brand awareness in addition to developing and initiating strategies to gain increased exposure to investors.

The company is owned and managed by Allan and Janice Feldman, who issued the following statement:

"We are pleased to partner with Bill McWilliam and the Cascadero team to introduce the Company and its mineral prospects in British Columbia (BC), Ontario and Argentina to a new and increased audience at an exciting time in the Company's history.

We believe the continued robust global demand for base, precious and rare metals that the timing is excellent to introduce Cascadero and its diversified mineral property portfolio to investors. Cascadero anticipates delivering exciting drilling and assay results in the coming months with exploration activities being carried out in BC, Ontario and three large-scale mineral districts in north western Argentina. The focus is appropriately on copper, gold and silver."

The service agreement with AJF is a renewable two-year contract for a fee of C$5,000 per month. In addition, the Company has granted AJF 400,000 stock options exercisable at C$0.25 per share. 25% of the stock options vest immediately and 25% every four-months thereafter.

The terms and conditions of this service agreement are subject to TSX Venture Exchange approval.

On Behalf of the Board
Bill McWilliam,
President and Director

About Cascadero Copper

Cascadero Copper Corporation is based in North Vancouver, British Columbia, Canada and is a fully integrated mineral resource Company that generates and acquires mineral prospect opportunities and executes reconnaissance style exploration, including first stage core drilling programs. The Company controls several large-scale mineral prospects that are principally open pit bulk mineable prospects. Cascadero operates and owns as principal mineral properties in north central British Columbia, Canada and gold prospects in Ontario. Cascadero holds a 50% interest in Salta Exploraciones SA, which company controls a 48 property portfolio in the north western provinces of Jujuy, Salta and Catamarca in the Republic of Argentina.

The Company's immediate exploration plan is to drill test Las Burras a copper-gold porphyry system and Las Cuevas a sediment hosted gold-silver prospect. Both properties are part of the Santa Rosa Mineral District.

Cascadero is led by an experienced management team with technical, exploration and financial expertise. The Company also options properties to third parties as conditions dictate. Advanced properties include Castor-Quevar (silver) optioned to Golden Minerals (AUM-TSX) and Incamayo (gold-copper-silver) optioned to Brigadier Gold (BRG-TSXV).
