

Metals Creek Resources Corp. Announces Commencement of Airborne EM/Mag Survey at Dona Lake Gold Project, NW Ontario.

Toronto, Ontario--(Newsfile Corp. - September 4, 2019) - Metals Creek Resources Corp. (TSXV: MEK) (Metals Creek or the "company") is pleased to announce that the company has commenced an airborne time-domain electromagnetic (EM) and magnetic (MAG) geophysical survey over the recently acquired Dona Lake property. The survey is expected to take two days to complete. Upon completion of the survey the company intends to conduct a prospecting and geological mapping program to ground truth prospective targets generated from the airborne survey in preparation for a Fall diamond drill program.

Currently the company is compiling historical data which includes drill hole lithologies, down hole surveys and assays. Underground workings and geological information from both underground and surface will be digitized for the purpose of generating a 3D model of the historic mine as well as prospective targets along strike to aide in drill target generation.

The Dona Lake Project was recently optioned from Newmont Goldcorp (see news release dated 13 June 2019). The Dona Lake Mine Property is located in the Pickle Lake Greenstone Belt which is host to several historic mines including the Dona Lake mine, the Central Patricia mine and the Pickle Crow mine. Dona Lake is accessible by an all-weather road southeast from the Town of Pickle Lake. The Property consists of 32 patented and leased mining claims totaling approximately 430.1 hectares and covers the past producing Dona Lake Mine.

The Dona lake project has seen no modern Geophysical exploration and the company believes this airborne will assist in identifying new targets on the Dona Lake property.

About Metals Creek Resources Corp.

Metals Creek Resources Corp. is a junior exploration company incorporated under the laws of the Province of Ontario, is a reporting issuer in Alberta, British Columbia and Ontario, and has its common shares listed for trading on the Exchange under the symbol "MEK". Metals Creek has earned a 50% interest in the Ogden Gold Property from Newmont Goldcorp, including the former Naybob Gold mine, located 6 km south of Timmins, Ontario and has an 8 km strike length of the prolific Porcupine-Destor Fault (P-DF). In addition, Metals Creek has recently signed an agreement with Newmont Goldcorp, where Metals Creek can earn a 100% interest in the past producing Dona Lake Mine project in the Pickle Lake Mining District of Ontario. Metals Creek also has an option agreement with Quadro Resources on Metals Creek's and Benton Resources Staghorn Gold Project in Newfoundland as well as two option agreements with Anaconda Mining Inc. on Metals Creek's Jacksons Arm and Tilt Cove Properties also in Newfoundland. The company also has an agreement on its Clarks Brook property with Sokoman Minerals Corp. on MEK's Clarks Brook project, as well as an agreement with Manning Ventures on the Metals Creeks Squid East project located in the Yukon. Metals Creek is engaged in the identification, acquisition, exploration and development of other mineral resource properties, and presently has mining interests in Ontario, Yukon and Newfoundland and Labrador. Additional information concerning the Company is contained in documents filed by the Company with securities regulators, available under its profile at www.sedar.com.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
