(TSXV: MEK) (FSE: M1C1) (the "Company" or "Metals Creek")** announces that it intends to complete a non-brokered private placement of both non-flow through and flow-through units (the "Private Placement"). The Company intends to issue up to 12,500,000 flow-through units at a price of \$0.04 per unit (the "FT Units") for aggregate proceeds of up to \$500,000. Each FT Unit will consist of one flow-through common share (the "FT Shares") and one-half of a non-flow through common share purchase warrant (the "FT Warrants"). Each whole FT Warrant will entitle the holder to purchase one additional non-flow through common share of the Company at an exercise price of \$0.06 per common share for a period of 24 months from the date of issue. The FT Shares will entitle the holder to receive the tax benefits applicable to flow-through shares, in accordance with provisions of the *Income Tax Act* (Canada).

The Company also intends to issue up to 14,285,714 non-flow through units at a price of \$0.035 per unit (the "NFT Units") for aggregate proceeds of up to \$500,000. In connection with the private placement, the Company may pay finders' fees in cash or securities or a combination of both, as permitted by the policies of the TSX Venture Exchange. All securities issued pursuant to the Private Placement will be subject to a four-month hold period. The Private Placement is subject to approval by the TSX Venture Exchange.

The proceeds raised from the FT Units will be used for exploration on the Company's Newfoundland and Ontario properties including its Ogden Gold Project and will ensure that such Canadian Exploration Expenses qualify as a "flow-through mining expenditure" for purposes of the *Income Tax Act* (Canada), related to the exploration of the Company's exploration projects.
