About Trillium Therapeutics

Trillium is an immuno-oncology company developing innovative therapies for the treatment of cancer. The Company's two clinical programs, TTI-621 and TTI-622, target CD47, a "do not eat" signal that cancer cells frequently use to evade the immune system.

The Company's pipeline also includes a preclinical STING (stimulator of interferon genes) agonist program. As previously announced, the program is earmarked for out-licensing.
