About Paladin

Paladin Energy Limited (ASX:PDN OTCQX:PALAF) is an Australian listed uranium company focused on maximising the value of its 75% stake in the Langer Heinrich Mine in Namibia.

Langer Heinrich is a globally significant, long-life operation, having already produced over 43Mlb U₃O₈ to date. Operations at Langer Heinrich were suspended in 2018 due to low uranium prices.

Beyond Langer Heinrich, the Company also owns a large global portfolio of uranium exploration and development assets. Nuclear power remains a cost-effective, low carbon option for electricity generation.
