

This is a form of a material change report required under Section 85(1) of the Securities Act (British Columbia) and Section 151 of the Securities Rules.

BC FORM 53-901F
Securities Act

MATERIAL CHANGE REPORT UNDER SECTION 85(1) OF THE ACT

ITEM 1. REPORTING ISSUER

Minco Silver Corporation
#1980 – 1055 West Hastings Street
Vancouver, British Columbia, V6E 2E9

ITEM 2. DATE OF MATERIAL CHANGE

December 13, 2005

ITEM 3. PRESS RELEASE

The press release was disseminated in Vancouver, British Columbia and through Canadian Timely Dissemination on CCMatthews.com on December 13, 2005.

ITEM 4. SUMMARY OF MATERIAL CHANGE

The Company announces the resumption of diamond drilling at its Fuwan project in Guangdong Province, China. The current drill program will use 3 diamond drill rigs to test the down-dip extension of the deposit by drilling nine holes totaling 2,500 metres. This program is part of a larger 10,000 metre drilling program which is planned to continue into the first half of 2006.

ITEM 5. FULL DESCRIPTION OF MATERIAL CHANGE

The Company announces the resumption of diamond drilling at its Fuwan project in Guangdong Province, China. The current drill program will use 3 diamond drill rigs to test the down-dip extension of the deposit by drilling nine holes totaling 2,500 metres. This program is part of a larger 10,000 metre drilling program which is planned to continue into the first half of 2006.

Earlier this year, the Company completed 2 drill holes to validate exploration results reported by the 757 Geological Team of the Guangdong Geological Exploration Bureau. Minco Silver's twin hole (NZK2401a) provided results that were comparable to the original hole, ZK2403. The mineralized zone from Minco Silver's second twin hole (NZK3201) successfully cored the mineralized zone; however, hydrothermal cavities present in the original hole (ZK3209) prevented complete sampling of the mineralized zone. Thus, the results from Minco Silver's twin hole did not correlate with the original hole. Significant intersections from Minco Silver's drilling are provided in the attached news release. A detailed discussion of how these drill results compare to previous results are provided in a NI 43-101 report dated Nov 3, 2005 and filed on SEDAR.

Please refer to the attached Exhibit "A" News Release.

ITEM 6. RELIANCE ON SUBSECTION 7.1(2) OR (3) OF NATIONAL INSTRUMENT 51-102

Not Applicable

ITEM 7. OMITTED INFORMATION

Not Applicable

ITEM 8. SENIOR OFFICER

Ken Z. Cai, President, CEO & Director
Minco Silver Corporation
#1980 – 1055 West Hastings Street
Vancouver, British Columbia, V6E 2E9
Ph: (604) 688-8002

ITEM 9. DATE OF REPORT

December 13, 2005

Exhibit “A”

MINCO 明科银矿公司
SILVER CORPORATION

TSX: MSV

For Immediate Release

December 13, 2005

NEWS RELEASE

**MINCO SILVER COMMENCES DRILLING ON
ITS FUWAN SILVER PROJECT**

Minco Silver Corporation (the “Company” or “Minco Silver”) (TSX: “MSV”) is pleased to announce the resumption of diamond drilling at its Fuwan project in Guangdong Province, China. The current drill program will use 3 diamond drill rigs to test the down-dip extension of the deposit by drilling nine holes totaling 2,500 metres. This program is part of a larger 10,000 metre drilling program which is planned to continue into the first half of 2006.

Earlier this year, the Company completed 2 drill holes to validate exploration results reported by the 757 Geological Team of the Guangdong Geological Exploration Bureau. Minco Silver’s twin hole (NZK2401a) provided results that were comparable to the original hole, ZK2403. The mineralized zone from Minco Silver’s second twin hole (NZK3201) successfully cored the mineralized zone; however, hydrothermal cavities present in the original hole (ZK3209) prevented complete sampling of the mineralized zone. Thus, the results from Minco Silver’s twin hole did not correlate with the original hole. Significant intersections from Minco Silver’s drilling are provided in the table below. A detailed discussion of how these drill results compare to previous results are provided in a NI 43-101 report dated Nov 3, 2005 and filed on SEDAR.

Hole No.	Dip/Azm	From (m)	To (m)	Interval (m)	Silver Grade (g/t)
NZK2401a	-90/0 incl.	87.30	99.30	12.00	122.5
		96.37	99.3	2.93	305.2
		and 118.39	119.89	1.50	295.8
NZK3201	-90/0	112.88	121.25	8.37	498.1 (uncut)
					197.6 (cut)*
		and 157.25	161.25	4.00	263.5

* one sample with a grade of 3285 g/t Ag was cut to 1000 g/t Ag

This press release has been reviewed and approved by Minco Silver Corporation's independent Qualified Person Eugene Puritch, P.Eng. of P&E Mining Consultants Inc.

About Minco Silver

Minco Silver Corporation is a TSX-listed company focusing on the acquisition and development of silver dominant projects in China. The Company is the exclusive vehicle for pursuing silver opportunities in China pursuant to a strategic alliance agreement between Minco Mining and Metals Corporation (TSX:MMM) and Silver Standard Resources (TSX:SSO). For more information on Minco Silver and our properties, please visit the website at www.mincosilver.ca or contact Robert Tyson, Investor Relations Manager at 1-888-288-8288 or (604) 688-8002 info@mincosilver.ca.

ON BEHALF OF THE BOARD

"Ken Z. Cai"
President & CEO
