Ventripoint Announces Distribution Partner for Military and VA Medical Centers.

Seattle, Washington – March 30, 2015 - Ventripoint Diagnostics Ltd. ("Ventripoint" or the "Corporation") (TSXV:VPT) is pleased to announce that is has appointed PYP Enterprises LLC (PYP) to be the exclusive distributor to the US military hospitals including the VA hospitals.

The Veterans Health Administration (VHA) is the largest integrated health care system in the United States and consists of 150 medical centers, nearly 1,400 community-based outpatient clinics, community living centers, Vet Centers and Domiciliaries. With a medical care budget of more than $55 billion, VHA employs more than 288,000 staff with 53,000 independent licensed health care practitioners who provide comprehensive care to more than 8.3 million veterans each year. In addition, VHA is the nation's largest provider of graduate medical education and a major contributor to medical research.

"We are well-known to the US Department of Defense and VHA and have already begun to inform them about the unique benefits of the VMS heart analysis system," stated Pio Pype, President and CEO of PYP Enterprises LLC.

"Veterans deserve the best healthcare possible and it is appropriate we work with PYP to bring the VMS heart analysis system to VA hospitals and other military healthcare centres", said Dr. George Adams, President and CEO of Ventripoint.

The VMS™ is approved for clinical use for selected cardiac indications in Canada, Europe and the United States.

About PYP Enterprises LLC

PYP Enterprises LLC is a preferred provider of services to the Department of Defense and is designated as a service-disabled, veteran-owned, small business (SDVOSB) by the US Department of Defense. The US Department of Defense is required to purchase products worth 6% of its budget from SDVOSBs and the VA is required to spend 3% of its annual budget on products from SDVOSBs.

About Ventripoint Diagnostics Ltd.

Ventripoint has created tools to monitor patients with heart disease, a leading cause of death in developed countries. VMS™ is the first cost-effective and accurate tool for measuring right ventricle heart function. The Corporation has a suite of applications for all major heart diseases and imaging modalities including congenital heart disease, left or right heart failure and normal hearts - a multi-billion dollar market potential.
