

Mobi724 Global Solutions Inc. (CSE: MOS) files application for OTCQB joint listing in New York

MONTREAL, December 05 – 2016 -- MOBI724 Global Solutions Inc. (“MOBI724” or the “Company”) (CSE: MOS), a Fintech leader offering all in one fully integrated EMV payment, card link couponing and digital marketing, has filed its application to jointly list the company on the OTCQB venture markets platform.

“Following interest from US investors, brokers and investment bankers, the company has decided to proceed with co listing application of the company on the OTCQB venture markets. We are optimistic that this initiative will give our company more visibility in a market where the Fintech sector is thriving. We want to leverage the additional visibility that this platform will give us in the small cap audience across the border. This is an important part of our 2017 strategy to get more visibility of our company to this target audience. We believe that this could bring more efficiencies to our stock trading as well. I am doing a multi city investor road show in the USA this week to kick off this initiative” says Marcel Vienneau – CEO.

About OTC Markets Group

Empowering the Intelligent Investor

OTC Markets Group's financial markets provide investors with the information necessary to intelligently analyze, value and trade 10,000 U.S. and global securities through the broker of their choice.

To create clarity in the investment process, we organize these securities into three tiered markets - OTCQX, OTCQB and Pink - based on the quality and quantity of information the companies make available.

The Best Market

The Venture Market

The Open Market

Our markets empower companies to provide the levels of transparency necessary to create more efficient markets. Together with our SEC regulated Alternative Trading System, OTC Link® ATS, the combined transparency and transactional efficiency creates a compelling trading experience for investors.

OTC Markets Group provides services in three areas essential to creating better informed and more efficient financial marketplaces: Issuer Services, Trading Services, and Market Data Services.

OTC Markets Group (OTCQX: OTCM) is a public company traded on OTCQX under the symbol OTCM.

Please see our Investor Relations section for more information on OTC Markets Group.

About Mobi724 Global Solutions

MOBI724 Global Solutions Inc. (CSE:MOS), a leader in the Fintech industry based in Montreal (Canada), offers a unique and fully integrated suite of Payment & Digital Marketing solutions.

We are innovating in our market with a combined EMV Payment, Card Linked Offers, and Digital Marketing platform that works on any card and any mobile device. We pioneered in adding intelligence to all types of transactions benefiting banks, retailers and cardholders. We succeed in leveraging all available user and purchasing data to increase transaction volumes and spend.

MOBI724 provides a turnkey solution to its clients to capture card transactions on any mobile device, at any point of sale or from any payment card. Our easy-to-adapt gateway Switch is designed for easy integration with all payment protocols in our target markets.

Within the same solution suite we combined our Card Linked Offers solution, and provided financial institutions' payment card portfolios and retailers the ability to add offers and/or coupons which can be redeemed directly at the Point of Sale, in a seamless user experience for all the parties in the eco-system.

MOBI724 Global Solutions unleashes the true potential of both payment and card-linked couponing/rewards transactions for both online and offline points of sale (POS).

The Corporation provides its customers with full and comprehensive traceability and enriched consumer data through its offering. Its solutions enables card associations, retailers, manufacturers, offer providers, mobile operators and card issuers to create, manage, deliver and "track and measure" incentive campaigns worldwide to ANY mobile device and allow its redemption at ANY point of sales.

Our credit and debit EMV payment solutions will allow banks to process end to end EMV transactions, focusing on authentication, approved security and quick merchant adoption which allows the users to process payments with a wide range of devices over a secure and seamless transaction.

MOBI724's PCI and EMV cloud-based switch, with their device agnostic connectivity, simplifies deployment and integration, and introduces new payment and digital incentives solutions to the market enabling multi layered intelligent transactions therefore SMART TRANSACTIONS.
