About Rapid Solutions

Rapid Solutions Corporation is focused on providing integrated data management solutions to high risk and process intensive industries. Through considerable experience gained in data integration, Rapid offers technology based solutions that manage and integrate vast quantities of data and information for clients seeking Process Safety Management solutions. PSM clients are seeking integrated solutions to address operational procedures, safe operating limits and maintenance systems. Through its Canadian operating unit, Rapid offers the upstream energy sector a similar opportunity to achieve master well list integrity.

Rapid believes the future of true business integration is not only linking physical data, but also mapping data to business processes to provide accuracy of information.

The TSX Venture Exchange does not accept responsibility for the adequacy or accuracy of this release.
