DISSEMINATION IN THE UNITED STATES

### ROK RESOURCES INC.

#### Press Release

### ROK ANNOUNCES BOLT-ON ACQUISITION

**April 1, 2021 – Regina, Saskatchewan: ROK Resources Inc.** (“ROK” or the “Company”) (TSXV: ROK) is pleased to announce that it has entered into a Purchase and Sale Agreement, dated March 26, 2021 (the “**Purchase Agreement**”) to acquire certain producing oil and gas assets (the “**Assets**”) in Southeastern Saskatchewan. Closing of the acquisition is expected to occur on or about April 30, 2021 with an effective date of April 1, 2021, subject to the completion of a financing transaction to provide funding to purchase the Assets, as well as the receipt of any necessary regulatory approvals, including, without limitation, any required approvals of the TSX Venture Exchange. Total consideration for the acquisition is \$1,500,000 in cash and 2,000,000 Class B Common Shares of ROK.

The acquisition property is located within the Company’s core operating area in Southeast Saskatchewan, targeting the Midale and Frobisher formations. Current production is approximately 55 boe/d<sup>1</sup> (90% oil and non-gas liquids). The acquired Assets also includes a non-operated interest in a central oil battery and prospective land in proximity to the Company’s existing land base. The property provides additional growth potential for the Company and complements an established operating area allowing for cost effective capital development.

In addition, the Company announces that it has entered into a marketing agreement dated March 17, 2021 (the “**Marketing Agreement**”) with Hybrid Financial Ltd. (“**Hybrid**”) out of their Toronto, Ontario office for a six month term, such term automatically extending for additional three month terms until such time as the Company provides notice to Hybrid no less than thirty days in advance that it wishes to terminate the agreement. The Company shall pay Hybrid a total of \$22,500 per month during the initial term of the agreement and \$15,000 per month during the renewal period(s). Hybrid will provide marketing services with the objective of increasing the Company’s reach within the investment community. There are no performance factors contained in the agreement. Hybrid and the Company are unrelated and unaffiliated entities, but Hybrid and/or its clients may have an interest, directly or indirectly, in the securities of the Company.

#### Notes to the Press Release:

1. Average production in the month of January 2021 from the combined acquisitions was approximately 55 boe/d, consisting of 45 bbl/d of oil (82%), 4.5 bbl/d of non-gas liquids (8%) and 33 Mcf/d of natural gas (10%).

#### Cautionary Statement Regarding Forward-Looking Information

This news release includes certain “forward-looking statements” under applicable Canadian securities legislation that are not historical facts. Forward-looking statements involve risks, uncertainties, and other factors that could cause actual results, performance, prospects, and opportunities to differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements in this news release include, but are not limited to, statements with respect to the Company’s objectives, goals or future plans. Forward-looking statements are necessarily based on a number of estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties and other factors which may cause actual results and future events to differ materially from those expressed or implied by such forward-looking statements. Such factors include, but are not limited to: general business, economic and social uncertainties; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; delay or failure to receive board, shareholder or regulatory approvals; those additional risks set out in ROK’s public documents filed on SEDAR at [www.sedar.com](http://www.sedar.com); and other matters discussed in this news release. Although the Company believes that the assumptions and factors used in preparing the forward-looking statements are reasonable, undue reliance should not be placed on these statements, which only apply as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. Except where required by law, the Company disclaims any intention or obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Statements relating to “reserves” are also deemed to be forward looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves described exist in the quantities

predicted or estimated and that the reserves can be profitably produced in the future.

### **Oil and Gas Disclosures**

Management uses oil and gas metrics for its own performance measurements and to provide shareholders with measures to compare the Company's operations over time. Readers are cautioned that the information provided by these metrics, or that can be derived from the metrics presented in this press release, should not be relied upon for investment or other purposes.

The term "boe" or barrels of oil equivalent may be misleading, particularly if used in isolation. A boe conversion ratio of six thousand cubic feet of natural gas to one barrel of oil equivalent (6 Mcf:1 bbl) is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. Additionally, given that the value ratio based on the current price of crude oil, as compared to natural gas, is significantly different from the energy equivalency of 6:1; utilizing a conversion ratio of 6:1 may be misleading as an indication of value.

**Neither the Exchange nor its Regulation Services Provider (as that term is defined in the policies of the Exchange) accepts responsibility of the adequacy or accuracy of this release.**
