PROSPECTUS SUMMARY

The following is a summary of the principal features of this distribution and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus.

Business of the Corporation:

The principal business of the Corporation will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has not commenced commercial operations and has no assets other than a minimum amount of cash. The Corporation has commenced the process of identifying potential acquisitions. To date, the Corporation has not yet identified a company or assets for a potential Qualifying Transaction. Furthermore, the Corporation has not entered into an Agreement in Principle. See “*Business of the Corporation*”.

Offering:

A minimum of 1,000,000 Common Shares and a maximum of 1,250,000 Common Shares are being offered and qualified under this prospectus at a price of \$0.20 per Common Share. In addition, the Corporation will grant to the Agent and any sub-agent an option to purchase that number of Common Shares equal to 10% of the aggregate number of Common Shares sold pursuant to this Offering, representing up to 100,000 Common Shares if the Minimum Offering is completed and up to 125,000 Common Shares if the Maximum Offering is completed, at a price of \$0.30 per Common Share, which option may be exercised for a period of 24 months from the day the Common Shares of the Corporation are listed on the Exchange. The Agent’s Option is qualified for distribution under this prospectus. This prospectus also qualifies for distribution the Stock Options to be granted at the Closing which entitle the holders to purchase an aggregate of 355,000 Common Shares at a price of \$0.20 per Common Share and which options may be exercised for a period of 5 years from the date of grant.

Use of Proceeds:

The total net proceeds to the Corporation, accounting for total cash proceeds raised prior to this Offering and total proceeds of this Offering, net of all Offering expenses and expenses incurred to October 31, 2005, will be approximately \$600,257 if the Minimum Offering is completed and approximately \$650,257 if the Maximum Offering is completed. The Corporation estimates incurring general and administrative costs until the Completion of the Qualifying Transaction of up to \$30,000, which added to (i) the estimated costs of the Minimum Offering of \$63,925 will reduce the total net funds available for pursuing a Qualifying Transaction to approximately \$506,332 if the Minimum Offering is completed, and (ii) the estimated costs of the Maximum Offering of \$67,425 will reduce the total net funds available for pursuing a Qualifying Transaction to approximately \$552,832 if the Maximum Offering is completed. The net funds available will provide the Corporation with a minimum of funds with which to identify and evaluate assets or businesses, for acquisition with a view to completing a Qualifying Transaction. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of \$210,000 or up to 30% of the gross proceeds realized may be used for purposes other than evaluating businesses or assets.

Directors and Management: Kirk E. Exner

President, Chief Executive Officer, Chief Financial

	Officer, Secretary, Director and Promoter
Darryl J. Yea	Director
Graham Harris	Director

See “*Directors, Officers and Promoter*” and “*Promoter*”.

Escrow:

All of the currently issued and outstanding Common Shares of the Corporation issued at less than \$0.20 per Common Share, representing an aggregate of 1,050,000 Common Shares, will be deposited in escrow pursuant to the terms of the Escrow Agreement and will be released from escrow in stages over a period of up to three years after the date of the Final Exchange Bulletin. See “*Escrow Securities*”.

All of the currently issued and outstanding Common Shares of the Corporation issued at \$0.20 per Common Share, representing an aggregate of 1,500,000 Common Shares, will be subject to certain trading restrictions. See “*Securities Subject to Trading Restrictions*”.

Risk Factors:

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation’s business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. The Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment. The directors and officers of the Corporation will devote only part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution (based on the gross proceeds from this and prior issuances with deduction for selling commissions but without deduction for related expenses) per Common Share of \$0.03 or 15% if the Minimum Offering is completed and \$0.028 or 14% if the Maximum Offering is completed. There can be no assurance that an active and liquid market for the Corporation’s Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service of notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See “*Business of the Corporation*”, “*Method of Financing*”, “*Directors, Officers and Promoter*”, “*Capitalization*”, “*Dilution*”, “*Risk Factors*” and “*Conflicts of Interest*”.

THE CORPORATION

The Corporation was incorporated on July 18, 2005 by Certificate of Incorporation issued pursuant to the provisions of the *Business Corporations Act* of British Columbia under the name “Interlude Capital Corp.”

The registered and records office of the Corporation is located at 1100 - 888 Dunsmuir Street, Vancouver, British Columbia, V6C 3K4. The head office of the Corporation is located at Suite 1280, 625 Howe Street, Vancouver, British Columbia, V6C 2T6.

BUSINESS OF THE CORPORATION

Preliminary Expenses

As at the date hereof, the Corporation has paid \$10,000 advance retainer towards the Agent’s expenses and fees in connection with the Offering and \$5,350 to the Exchange, as part of the Corporation’s listing fee. As at October 31, 2005, the Corporation had incurred expenses of \$4,744. Certain of the Offering proceeds will be utilized to satisfy the obligations of the Corporation related to the Offering, including the expenses of its auditor and legal fees, the fees of the Exchange and the Agent, and the fees of the securities regulatory authorities. See “*Use of Proceeds*”.

Proposed Operations until Completion of a Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm’s Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations other than to enter into discussions for the purpose of identifying potential acquisitions or interests. The Corporation currently intends to pursue a Qualifying Transaction in the technology sector but there is no assurance that this sector will, in fact, be the business sector of a proposed Qualifying Transaction or of the Corporation following the Completion of the Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under “*Private Placement for Cash*”, and “*Restrictions on Use of Proceeds*”, the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Corporation has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Corporation and may cause the shareholders’ interest in the Corporation to be further diluted.**

Criteria for a Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to sound business fundamentals, utilizing the expertise and experience of the directors. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith having regard to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of the Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "*Trading Halts, Suspensions and Delisting*". Within 75 days after issuance of such news release, the Corporation is required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR, or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (a) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (b) confirmation of closing of the Qualifying Transaction; and
- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Minimum Listing Requirements

The Resulting Issuer must satisfy the Exchange's Minimum Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms, or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer, or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the Corporation or its remaining assets in some other manner. See "*Shareholder Approval of the Qualifying Transaction*".

If the Corporation does not complete a Qualifying Transaction within 24 months of the date of listing, it may apply for listing on NEX rather than be delisted. In order to be eligible to list on the NEX, the Corporation must:

- (a) either: (i) cancel all escrowed Common Shares purchased by Non Arm's Length Parties to the Corporation at a discount to the Offering price, in accordance with section 11.2(a) of the CPC Policy, as if the Corporation had delisted from the Exchange or (ii) subject to majority shareholder approval, cancel the escrowed Common Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining seed shares is at least equal to the Offering price; and
- (b) obtain majority shareholder approval for the transfer to NEX, exclusive of the votes of Non Arms Length Parties of the Corporation.

If the Corporation lists the Common Shares on NEX it must continue to comply with all requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Minimum Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) contractors, associates or affiliates of any such person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

The only securities issuable pursuant to such a private placement will be Common Shares. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non Arm's Length Parties to the Corporation and to Principals of the Resulting Issuer will be subject to escrow.

Prohibited Payments to Non Arm's Length Parties

Except as described under "*Options to Purchase Securities*" and "*Restrictions on Use of Proceeds*", the Corporation has not made, and until the Completion of the Qualifying Transaction will not make, any payment of any kind, directly or indirectly, to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to a person engaged in investor relations activities, by any means, including:

- (a) remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors' fees, finders' fees, loans, advances and bonuses, and

ESCROW SECURITIES

1,050,000 Common Shares issued prior to this Offering at less than \$0.20 per share and all Common Shares that may be acquired from treasury of the Corporation by Non Arm's Length Parties of the Corporation either under the Offering or otherwise prior to Completion of the Qualifying Transaction and all Common Shares acquired by members of the Aggregate Pro Group prior to this Offering will be deposited with the Trustee under the Escrow Agreement.

All Common Shares acquired on exercise of stock options prior to the Completion of a Qualifying Transaction must also be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

In addition, all Common Shares of the Corporation acquired in the secondary market prior to the Completion of a Qualifying Transaction by any Person who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Corporation held by Principals of the Resulting Issuer will also be escrowed.

Notwithstanding the foregoing, Common Shares acquired by Principals of the Corporation or Principals of the Resulting Issuer pursuant to a private placement will not be subject to escrow provided that various conditions, as set forth in the CPC Policy, are met. See “*Escrowed Securities on Private Placement*”.

The following table sets out, as at the date hereof, the number of Common Shares which are held in escrow.

Name and Municipality of Residence of Shareholder	Number of Common Shares Escrowed	Percentage of Common Shares of the Corporation Prior to Giving Effect to the Offering	Percentage of Common Shares of the Corporation Upon Completion of the Minimum Offering ⁽¹⁾	Percentage of Common Shares of the Corporation After Upon Completion of the Maximum Offering ⁽¹⁾
Darryl Yea West Vancouver, BC	350,000	13.73%	9.86%	9.21%
Graham Harris West Vancouver, BC	350,000	13.73%	9.86%	9.21%
High Tech Venture Capital Inc. ⁽²⁾ West Vancouver, BC	350,000	13.73%	9.86%	9.21%
Total	1,050,000	41.19%	29.58%	27.63%

Notes:

- (1) Assuming no Common Shares are purchased by these persons under the Offering.
- (2) All of the issued and outstanding shares of High Tech Venture Capital Inc. are directly held by Kirk E. Exner, President, Chief Executive Officer, Chief Financial Officer and a director of the Corporation.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a “holding company”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “**Initial Release**”) and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange’s Tier 1 Minimum Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange’s prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm’s Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus has irrevocably authorized and directed the Trustee to immediately cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation. Alternatively, if the Corporation lists on NEX, either cancel all escrowed Common Shares purchased by Non Arm’s Length Parties to the Corporation at a discount from the Offering price, in accordance with section 11.2(a) of the CPC Policy; or subject to majority shareholder

approval, cancel an amount of the escrowed Common Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining escrowed shares purchased by Non Arm's Length Parties is at least equal to the Offering Price. See "*Trading Halts, Suspensions and Delisting*".

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "Value Securities", then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security escrow agreement (the "**Value Security Escrow Agreement**"). "Value Securities" are securities issued pursuant to a transaction for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a "**Surplus Security Escrow Agreement**").

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable every 6 months thereafter, on each of the 6, 12, 18, 24, 30 and 36 month anniversaries of the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 Issuer, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a six-year escrow release mechanism with:

- (a) 5% of the escrowed securities being releasable in 6 month intervals on each of the 6, 12, 18 and 24 month anniversaries of the Final Exchange Bulletin; and
- (b) 10% of the escrowed securities being releasable in 6 month intervals on each of the 30, 36, 42, 48, 54, 60, 66 and 72 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, with 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 Issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three-year escrow release mechanism with:

- (a) 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, and
- (b) 15% of the escrowed securities being releasable in 6 month intervals on each of the 6, 12, 18, 24, 30 and 36 months after the Final Exchange Bulletin.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and

- (i) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer,
- (ii) if subscribers, other than Principals of the Corporation or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period, and
- (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

Personal Bankruptcies

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such persons has, within the 10 years before the date of this prospectus, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or has been subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold such person's assets.

Conflicts of Interest

There are potential conflicts of interest to which the directors, officers, Insiders and Promoters of the Corporation may be subject in connection with the operations of the Corporation. All of the directors, officers, Insiders and Promoters are engaged in and will continue to be engaged in corporations or businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where the directors, officers, Insiders and Promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the *Business Corporations Act*.

Except as set out below or otherwise disclosed in this prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Corporation to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finder's fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

The directors and officers of the Corporation will also be granted the Stock Options. See “*Plan of Distribution*” and “*Options to Purchase Securities*”.

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation shall pay compensation to its officers. However, no payment other than the Permitted Reimbursements, will be made by the Corporation or by any party on behalf of the Corporation, after Completion of the Qualifying Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of 15% or \$0.03 per Common Share if the Minimum Offering is completed and 14% or \$0.028 per Common Share if the Maximum Offering is completed on the basis of there being 3,550,001 Common Shares issued and outstanding if the Minimum Offering is completed and 3,800,001 Common Shares of the Corporation issued and outstanding if the Maximum Offering is completed. Dilution has been computed on the basis of total gross proceeds to be raised by this prospectus and from sales of securities prior to the filing of this prospectus, with deduction of commissions but without deduction of related expenses incurred by the Corporation, and is set forth below:

Item	Minimum Offering	Maximum Offering
Gross proceeds of prior share issues	\$ 405,001	405,001
Gross proceeds of this Offering	\$ 200,000	250,000
Total gross proceeds after this Offering	\$ 605,001	655,001
Offering price per share	\$ 0.20	0.20
Proceeds per share after this Offering	\$ 0.17	0.172
Dilution per share to subscriber	\$ 0.03	0.028
Percentage of dilution in relation to offering price	15%	14%

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation’s business and its present stage of development. The following are risk factors associated with the Corporation:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash and prepaid expenses. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) the directors and officers of the Corporation will devote only a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See “*Conflicts of Interests*”;
- (c) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of 15% or \$0.03 per Common Share if the Minimum Offering is completed and 14% or \$0.028 per common Share if the Maximum Offering is completed, calculated as set forth under “*Dilution*” above;
- (d) the Corporation is relying solely on its past business success of its directors and officers to identify a Qualifying Transaction of merit. The success of the Corporation is dependent upon the efforts and abilities of its management team. The loss of any member of the management team could have a material adverse effect upon the business and prospects of the Corporation. In such event, the Corporation will seek satisfactory replacements but there can be no guarantee that appropriate personnel may be found;

- (e) there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- (i) completion of a Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation; and
- (q) subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan.

As a result of these factors, this Offering is suitable only for investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

DIVIDEND POLICY

To date, the Corporation has not paid any dividends on its outstanding Common Shares. PURCHASERS' STATUTORY RIGHTS

The right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces securities legislation further provides a purchaser with remedies for rescission or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

ELIGIBILITY FOR INVESTMENT

In the opinion of McCullough O'Connor Irwin LLP, counsel for the Corporation, the Common Shares, if the Corporation is a public corporation at the time of investment, will be qualified investments for a trust governed by a registered retirement savings plan, a registered retirement income fund, a registered education savings plan or a deferred profit sharing plan under the *Income Tax Act* (Canada) (the "ITA") and the regulations made under the ITA. The Corporation qualifies as a public corporation at a particular time if at that time any class of its shares, including the Common Shares, is listed on a prescribed stock exchange (which includes the Exchange). Where the Corporation has become a public corporation on or before the day on which its first income tax return is to be filed, the Corporation will be deemed to have been a public corporation from the beginning of the year until the time when it actually became a public corporation provided the Corporation so elects.

1. INCORPORATION

The Company was incorporated under the Business Corporations Act (BC) on July 18, 2005 and is classified as a Capital Pool Company as defined in the TSX Venture Exchange ("TSX-V") Policy 2.4. The principal business of the Company is the identification and evaluation of a Qualifying Transaction and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval, if required, and acceptance by regulatory authorities.

The Company is in the process of filing a prospectus for an initial public offering (Note 7).

2. CONTINUANCE OF OPERATIONS

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation.

The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate an acquisition of, a participation in or an interest in properties, assets or businesses. Such an acquisition will be subject to regulatory approval and may be subject to shareholder approval. The financial statements do not include any adjustments to assets and liabilities should the Company be unable to continue in existence.

3. SIGNIFICANT ACCOUNTING POLICIES

Use of estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results could differ from these estimates.

Future income taxes

Future income taxes are recorded using the asset and liability method whereby future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment or enactment occurs. To the extent that the Company does not consider it more likely than not that a future tax asset will be recovered, it provides a valuation allowance against the excess.

Loss per share

The Company uses the treasury stock method to compute the dilutive effect of options, warrants and similar instruments. Under this method the dilutive effect on earnings per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the period.

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Loss per share (cont'd...)

Basic loss per share is calculated using the weighted-average number of shares outstanding during the period. Shares subject to escrow restrictions have been excluded from the weighted average number of shares outstanding since they are contingently returnable.

Stock-based compensation

The Company uses the fair value based method for recognizing compensation costs for the granting of stock options and direct awards of stock.

4. CAPITAL STOCK

5. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair value of these financial instruments approximates their carrying value, unless otherwise noted.

Future tax benefits which may arise as a result of these non-capital losses have not been recognized in these financial statements and have been offset by a valuation allowance due to the uncertainty of their realization.
