5.1 Full Description of Material Change

The Corporation announced that it has filed and obtained a receipt for its preliminary short form base shelf prospectus ("**Preliminary Shelf Prospectus**") with the securities regulatory authorities in each of the provinces of Canada (excluding the territories). Once a receipt for the final short form base shelf prospectus ("**Shelf Prospectus**") has been obtained from the applicable Canadian securities regulatory authorities, the Corporation will be able to offer for sale and issue up to $50 million of common shares, subscription receipts, debt securities warrants and units, or any combination thereof (collectively, the "**Securities**") from time to time during the 25-month period during which the Shelf Prospectus remains valid. Should the Corporation decide to offer Securities during this period, the specific terms, including the use of proceeds from any offering of Securities, will be set forth in one or more related prospectus supplements to the Shelf Prospectus.

The Corporation has filed the Preliminary Shelf Prospectus to maintain financial flexibility and to have the ability to react quickly to market opportunities for raising additional capital by offering the Securities on an accelerated basis pursuant to the filing of prospectus supplements. However, there is no certainty any Securities will be offered or sold under the Shelf Prospectus within the 25-month period.
