Notes to the Condensed Consolidated Financial Statements
Three month period ended March 31, 2026

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN

Triumph Gold Corp. (the “Company”) was continued under the British Columbia Business Corporations Act on December 19, 2011 and is extra-provincially registered in the Yukon Territory. The Company is listed on the TSX Venture Exchange (“TSXV”), having the symbol “TIG”. The Company’s principal business activity is the exploration for mineral resources, primarily in the Yukon Territory, Canada.

The Company’s corporate office and principal place of business is Suite 1100, 1111 Melville Street, Vancouver, British Columbia, Canada, V6E 3V6.

The consolidated financial statements have been prepared on a going concern basis which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. As at March 31, 2026, the Company had current assets in excess of current liabilities of \$451,522 and an accumulated deficit of \$85,850,109. The Company’s ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, in the meantime, to obtain the necessary financing to meet its obligations and repay its liabilities when they become due. External financing, predominantly by the issuance of equity to the public, will be sought to finance the operations of the Company. Although the Company has a history of raising money, there is no guarantee of this in the future.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, tariffs and national and international circumstances. Recent geopolitical events and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company’s business. The impact on the Company is not currently determinable but management continues to monitor the situation.

There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about on its business, results of operations, financial position and cash flows in the future. As a result, there always exists uncertainty that causes significant doubt about the Company’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

2. BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”). Therefore, these financial statements comply with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”.

The financial statements were authorized for issue on May 20, 2026 by the directors of the Company.

2. BASIS OF PREPARATION (continued)

Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Bushmaster Exploration Services (2007) Ltd. All significant intercompany transactions and balances have been eliminated upon consolidation. The financial statements of the subsidiary are prepared using consistent accounting policies and reporting dates of the Company. The functional currency for the Company and its subsidiary is the Canadian dollar.

New or revised accounting standards not yet adopted

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements. This standard aims to improve the consistency and clarity of financial statement presentation and disclosures by providing updated guidance on the structure and content of financial statements. Key changes include enhanced requirements for the presentation of financial performance, financial position, and cash flows, as well as additional disclosures to improve transparency and comparability. In addition, IFRS 18 requires entities to classify income and expenses into five categories, three of which are new – i.e. operating, investing and financing – and the income tax and discontinued operation categories. The new standard sets out detailed requirements for classifying income and expenses into each category. These amendments are effective for annual periods beginning on or after January 1, 2027. The Company is currently assessing the impact that the adoption of IFRS 18 will have on its consolidated financial statements.

Other new or revised accounting standards not yet adopted or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

4. EXPLORATION DEPOSIT, EXPLORATION AND EVALUATION ASSETS AND EXPENDITURES

During the year ended December 31, 2025, the Company paid \$217,684, which includes a payment of US\$150,000 as partial consideration towards the purchase for the rights, title and interest in and to certain mining claims and mining leases in Utah, USA, referred to as the DMG Claims. The property is subject to a minimum annual royalty payment of US \$60,000 until December 31, 2031 and a 2.5% NSR. As consideration, the Company will issue 1,000,000 common shares upon closing, a further 3,000,000 common shares to the seller over 3 years and pay US \$3,000,000 in cash or the issuance of common shares in year 4. The agreement is subject to closing conditions and regulatory approvals. Accordingly, all payments incurred to date have been recorded as an exploration deposit.

Exploration and evaluation assets and related expenditures comprise:

Freegold Mountain, Canada

To March 31, 2026, the Company has recorded a \$60,000 (December 31, 2025 - \$60,000) provision for reclamation activities related to the Freegold Mountain project. The timing of the reclamation activities cannot be estimated at this time, and will be performed upon the completion of the development of the project.

The Freegold Mountain project is comprised of the following exploration properties:

(i) Tinta Hill Property, Yukon

The Company holds a 100% interest in the Tinta Hill Property subject to an annual advanced royalty payment of \$20,000 and a 3% Net Smelter Return ("NSR"). The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%. As at March 31, 2026, the total advanced royalty payment made or accrued was \$180,000 (December 31, 2025 – \$180,000).

(ii) Freegold Property, Yukon

The Company holds a 100% interest in the Freegold Property subject to an annual advanced royalty payment of \$10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%. As at March 31, 2026, the total advanced royalty payment made or accrued was \$90,000 (December 31, 2025 – \$90,000).

(iii) Goldstar Property, Yukon

The Company holds a 100% interest in the Goldstar Property subject to an annual advanced royalty payment of \$10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after the commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$500,000 for the first 1% and \$1,000,000 for the second 1%. As at March 31, 2026, the total advanced royalty payment made or accrued was \$90,000 (December 31, 2025– \$90,000).

5. SHARE CAPITAL

Authorized:

Unlimited common shares with no par value.

Unlimited preferred shares, the series rights and restrictions to be determined by the Board of Directors on issuance.

Issued:

For the period ended March 31, 2026

During the period ended March 31, 2026, 546,500 warrants were exercised for proceeds of \$118,800 and 150,000 stock options were exercised for proceeds of \$40,500. The average market price when the stock options were exercised was \$0.77.

For the year ended December 31, 2025

On March 12, 2025, the Company closed a non-brokered private placement for 9,604,750 units of the Company at a price of \$0.20 per unit for gross proceeds of \$1,920,949. Each unit is comprised of one common share and one-half of a common share purchase warrant, with each whole warrant exercisable to acquire one additional share at a price of \$0.25, exercisable for a term of three years from the date of issuance. The fair value of common shares issued in private placements is determined to be the more easily measurable component and were valued at their fair value, as determined by the closing quoted bid price on the announcement date which was \$0.185 per share, with a unit price of \$0.20. Accordingly, the implied fair value allocated to each ½ warrant was \$0.015, resulting in a total warrant value of \$144,071. Finder's fees in the amounts of \$104,619 in cash, share issuance costs of \$36,950 and 340,000 finder's warrants were paid in connection with the private placement. The fair value attributable to the finder's warrants of \$42,652 was estimated using the Black-Scholes Option Pricing Model assuming an expected life of 3 years, expected dividend yield of 0%, a risk-free interest rate of 2.59%, share price on grant date of \$0.20 and an expected volatility of 93.29%.

On December 1, 2025, the Company closed a non-brokered private placement for 6,456,664 units of the Company at a price of \$0.30 per unit for gross proceeds of \$1,936,999 of which \$3,482 remains in subscription receivable at December 31, 2025. Each unit is comprised of one common share and one common share purchase warrant, with each whole warrant exercisable to acquire one additional share at a price of \$0.45, exercisable for a term of two years from the date of issuance. Finder's fees in the amounts of \$117,840 in cash, share issuance costs of \$6,946 and 270,666 finder's warrants were paid in connection with the private placement. The fair value attributable to the finder's warrants of \$28,278 was estimated using the Black-Scholes Option Pricing Model assuming an expected life of 2 years, expected dividend yield of 0%, a risk-free interest rate of 2.43%, share price on grant date of \$0.30 and an expected volatility of 79.93%.

The Company also issued 1,095,000 common shares upon the exercise of warrants for proceeds of \$207,282.

5. SHARE CAPITAL

Stock options:

The Company has a stock option plan whereby options to purchase common shares are granted by the Board of Directors to directors, officers, employees and consultants to the Company. Under the terms of the plan, the Company has reserved an amount of common shares for options up to 10% of the issued and outstanding common shares. Options granted under this plan are non-transferable; expire no later than the tenth anniversary of the date the option is granted and must comply with the requirements of the regulatory authorities.

A summary of outstanding stock options at March 31, 2026 is as follows:

8. SEGMENTED INFORMATION

The Company operates in one operating segment, that being exploration of mineral properties. All of the Company's assets are located in Canada.

9. CAPITAL MANAGEMENT

The Company includes cash and equity, comprising issued common shares, reserve and deficit, in the definition of capital.

The Company manages its capital structure and makes adjustments, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

There were no changes in the Company's approach to capital management during the period ended March 31, 2026. The Company is not subject to externally imposed capital requirements.

10. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Company assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets.

The types of risk exposure and the way in which such exposures are managed are as follows:

Credit Risk - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions. The Company does not have financial assets that are invested in asset backed commercial paper. Other receivables are comprised primarily of tax receivables generated on the purchase of supplies and services for the Company's exploration programs, which are refundable from the Canadian government. The Company's maximum exposure to credit risk is the carrying amount of financial assets on the consolidated statements of financial position.

Liquidity Risk – The Company's cash is invested in business accounts with high-credit quality financial institutions which are available on demand for the Company's programs. Future operations or exploration programs will require additional financing primarily through equity markets.

10. FINANCIAL INSTRUMENTS (continued)

The Company has a planning and budgeting process in place to help determine the funds required to support normal operating requirements on an ongoing basis. Historically, the Company's primary source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

The Company has current assets in excess of current liabilities of \$451,522 (December 31, 2025 – \$929,400) at March 31, 2026.

Market Risk – Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity prices. The Company is not exposed to significant market risk.

Interest rate risk – In respect to the Company's financial assets, the interest rate risk mainly arises from the interest rate impact on cash. Every 1% fluctuation in interest rates up or down would have an insignificant impact on profit or loss.

Foreign currency risk - The Company is exposed to foreign currency risk to the extent that certain monetary financial instruments and other assets are denominated in United States dollars. The Company has not entered into any foreign currency contracts to mitigate this risk and has no financial instruments held in United States funds. Therefore, foreign currency risk is minimized.

Commodity price risk – The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand. The Company is not exposed to significant price risk.

Fair Value - The Company has various financial instruments comprised of cash, trade and other receivables, investment in equities and trade and other payables.

For disclosure purposes, all financial instruments measured at fair value are categorized into one of three hierarchy levels, described below. Each level is based on the transparency of the inputs used to measure the fair values of assets and liabilities:

Level 1 – Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 – Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3 – Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.
