About Sokoman Minerals Corp.

Sokoman Minerals Corp. is a discovery-oriented company and one of the largest landholders in the province of Newfoundland and Labrador, Canada's emerging gold district. The Company's primary focus is its portfolio of gold projects; the 100%-owned flagship, advanced-stage Moosehead, Crippleback Lake, and the district-scale Fleur de Lys project near Baie Verte in northwestern Newfoundland, targeting Dalradian-type orogenic gold mineralization similar to the Curraghinalt and Cavanacaw deposits in Northern Ireland. The Company entered a strategic alliance with Benton Resources Inc. through three, large-scale, joint-venture properties including Grey River, Golden Hope, and Kepenkeck in Newfoundland.

In October 2023, Sokoman and Benton completed an agreement with Piedmont Lithium Inc., a major developer of lithium projects and processing plants in the USA, and exactly the right partner to have to advance the lithium project. For full details of the agreement, please refer to the Company's **press release dated October 11, 2023**.

The Company would like to thank the Government of Newfoundland and Labrador for the financial support of the Moosehead and Fleur de Lys Projects through the Junior Exploration Assistance Program
