Sama Resources reports on SRG Graphite's on site metallurgical laboratory for production of graphite concentrate samples

MONTREAL, Jan. 15, 2019 -- **Sama Resources Inc.** (**TSXV: SME**) ("**SME**" or the "**Company**") reports that SRG Graphite Inc. ("**SRG**") has announced that it is now producing 95% graphite samples from its metallurgical laboratory at the Lola Graphite Deposit in Guinea, West Africa.

Commissioning is now completed and production of graphite concentrate samples at various flake sizes and grades is ongoing. This will allow SRG to quickly produce and send samples to prospective clients, a significant step in business development.

On-site training services were provided by SOUTEX, a mineral processing and metallurgical consulting firm in Quebec, which provided theoretical and practical training for the on-site team of the Lola laboratory.

About Sama Resources Inc.

Sama is a Canadian-based mineral exploration and development company with projects in West Africa. Sama holds a control position in SRG of 24,658,267 shares representing 35.54% of the issued and outstanding shares of SRG and is considered an insider for reporting purposes.

FORWARD LOOKING STATEMENTS

Certain of the statements made and information contained herein are "forward-looking statements" or "forward-looking information" within the meaning of Canadian securities legislation. Forward-looking statements and forward-looking information are subject to a variety of risks and uncertainties, which could cause actual events or results to differ from those reflected in the forward-looking statements or forward-looking information, including, without limitation, the availability of financing for activities, risks and uncertainties relating to the interpretation of electrochemical characterization, drill results and the estimation of mineral resources and reserves, the geology, grade and continuity of mineral deposits, the possibility that future exploration, development or mining results will not be consistent with the Company's expectations, metal price fluctuations, environmental and regulatory requirements, availability of permits, escalating costs of remediation and mitigation, risk of title loss, the effects of accidents, equipment breakdowns, labour disputes or other unanticipated difficulties with or interruptions in exploration or development, the potential for delays in exploration or development activities, the inherent uncertainty of cost estimates and the potential for unexpected costs and expenses, commodity price fluctuations, currency fluctuations, expectations and beliefs of management and other risks and uncertainties.

In addition, forward-looking statements and forward-looking information are based on various assumptions. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking information or forward-looking statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements or forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking statements or forward-looking information, whether as a result of new information, future events or otherwise.
